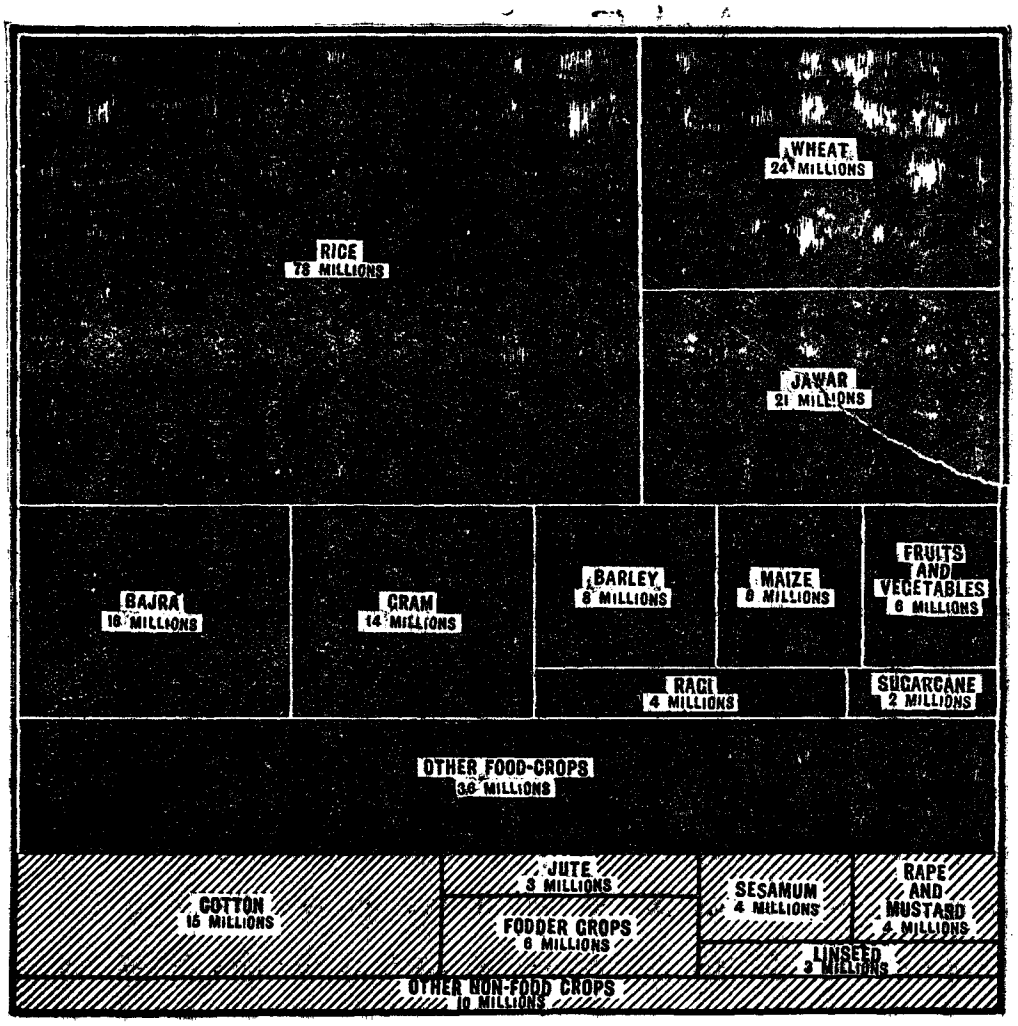
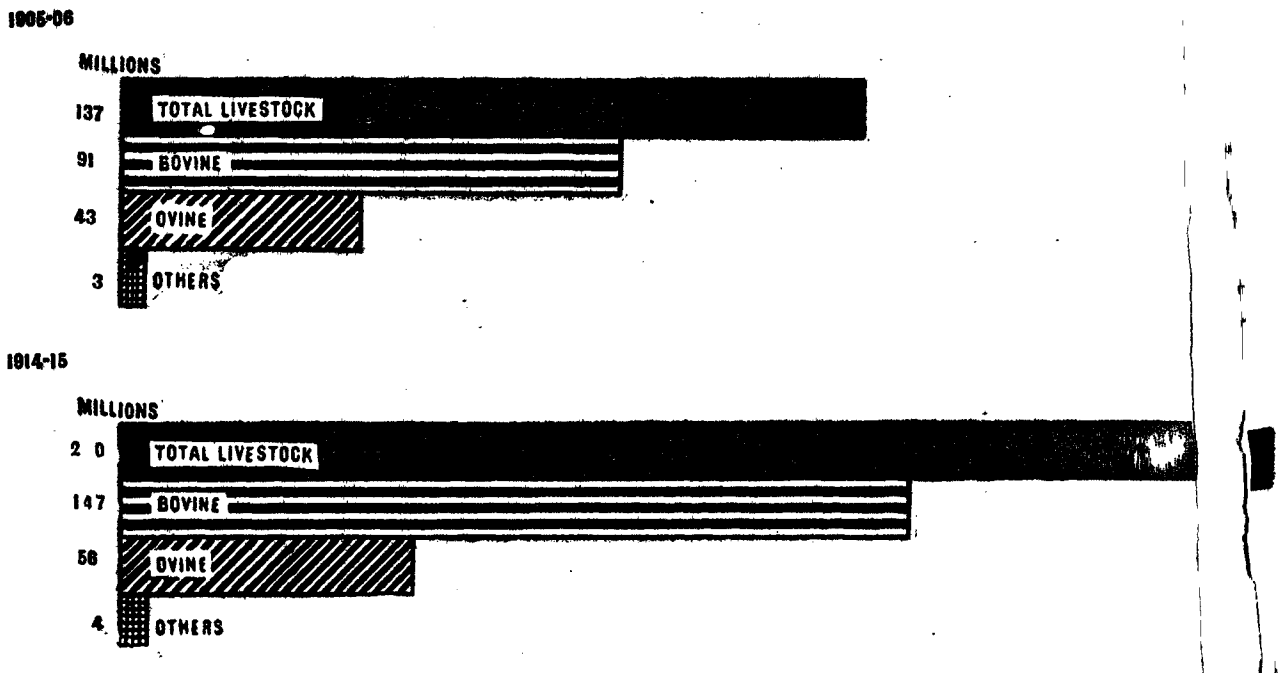
1. Total area cropped in 1914-15.

Total Area cropped	260 million acres.
Area under food crops (black portion)	215 million acres.
Area under non-food crops (shaded portion)	45 million acres



NOTE.—"Other food crops" are minor food-grains, condiments and spices, and miscellaneous food crops.
"Other non-food crops" are oilseeds other than sesamum, linseed, rape and mustard; fibres other than cotton and jute; dyes; drugs and narcotics; and miscellaneous non-food crops.

2. Total livestock, divided between bovine, ovine, and others in 1914-15, as compared with the year 1905-06.



NOTE:—"Bovine" includes bulls and bullocks, cows, buffaloes, calves, and buffalo calves.
"Ovine" includes sheep and goats.
"Others" include horses and ponies, mules, donkeys, and camels.

Agricultural Statistics of India

1914-15

VOLUME I—BRITISH INDIA

Report

To

THE SECRETARY TO THE GOVERNMENT OF INDIA,
DEPARTMENT OF REVENUE AND AGRICULTURE.

SIR,

I have the honour to submit the first volume of Agricultural Statistics for 1914-15. This annual volume is the thirty-first of the series started in 1886, with statistics for 1884-85, but it should perhaps be regarded as the third of a new series. Summary tables have been inserted to show the total figures relating to area, the classification of area, the area under crops, live-stock, land revenue assessment, and transfers of land for British India and each province, with a table on world crops. Explanatory notes have been inserted as footnotes to the tables. A series of charts and an index for easy reference have been added to the volume.

The statistics are compiled from annual returns furnished by Local Governments and Administrations. Detailed information as to the sources from which the figures are collected in the different provinces is given in footnotes to the respective tables for each province. The statistics consist of six separate tables, namely, I—Area ; II—Classification of area ; III—Area under crops ; IV—Live-stock, ploughs, and carts; V—Land Revenue Assessment; and VI—Transfers of property in land. The totals of the figures given in these tables are shown in a series of summary tables. In addition to these there are four appendices :—A, B, C, and D. Appendix A deals with the average yield per acre of principal crops ; Appendix B shows the changes made in district and provincial boundaries; Appendix C gives the meaning of vernacular words used in the volume; and Appendix D contains an alphabetical list of crops cultivated in India and their classification in Table III. This volume, it may be noted, deals with the agricultural statistics of British Provinces, while Volume II deals with those of Native States * as far as they are reported.

The period covered by the volume is the quinquennium ending 1914-15. The returns for each province relate to the following dates :—

Bengal, Bihar and Orissa, Assam, Coorg, and Manpur	Year ended	31st March
Central Provinces and Berar	„	31st May
North-West Frontier Province	„	15th June
United Provinces, Madras, Burma, and Ajmer-Merwara	„	30th „
Bombay	„	31st July
Punjab and Delhi	„	30th September

It may be noted that the statistics relating to areas irrigated (Table II) and areas under crops and specification of crops (Table III) generally include both the *kharif* and the *rabi* crops, and relate to the year closing with the harvesting of the *rabi* or spring crops.

* In Appendix A (Volume I), however, figures relating to Mysore are included.

The total area of India is 1,799,000 square miles, or 1,151,474,000 acres, with a population of 315 millions according to the census of 1911. This may be divided as follows :—

	Acres.	Population.
(1) British Provinces (including Native States under the control of Local Governments and Administrations) .	749,116,000	267,164,000
(2) Native States having direct political relations with the Government of India	316,387,000	44,767,000
(3) Specially administered territories in Burma (Shan States) and in the North-West Frontier Province (Tribal areas, etc.) not included under (1)	51,265,000	2,738,000
(4) British Baluchistan (including administered areas) . . .	34,706,000	414,000
Total .	1,151,474,000	315,083,000

No returns of agricultural statistics are prepared for (3) specially administered territories in Burma and in the North-West Frontier Province, nor for (4) British Baluchistan.

Table I. Total area.

The total area of the British Provinces dealt with in this volume—749,116,000 acres, or 1,170,000 square miles—includes 129,724,000 acres, with a population of some 26 millions, belonging to Feudatory and Tributary States, which are under the control of Local Governments and Administrations. These include in Burma the Môngmit State, the Hkamte Long State, and the Upper Chindwin States ; in Assam, Manipur and the Khasi and Jaintia Hill States ; in Bengal, Cooch Bihar and Hill Tippera ; in Bihar and Orissa, the Tributary States of Orissa and Chota Nagpur ; in the United Provinces, Rampur, Tehri, and Benares ; in the Punjab, the Phulkian States, the States of the Bahawalpur Agency, the Jalandhar Division States, and the Simla Hill States ; in the North-West Frontier Province, the Phulera and Upper Tanawal States ; in Sind, the Khairpur State ; in Bombay, the Gujarat States (excluding Baroda), the Konkan States, the Deccan States, the Satara Jagirs, and the Southern Mahratta States ; in the Central Provinces, the Chhattisgarh States ; and in Madras, the States of Travancore, Cochin, Pudukkottai, Banganapalle, and Sandur. Of these States, Agricultural Statistics are prepared for most of the States in the Punjab and all the States in Madras ; but they are dealt with in Volume II along with the States having direct political relations with the Government of India.

Thus, by deducting 129,724,000 acres belonging to Feudatory and Tributary States from the total area of 749,116,000 acres included in British Provinces, a balance of 619,392,000 acres is left (as shown in Table I), which represents the area of British territory according to professional survey. The professional survey is that carried out by the Survey of India in Northern India, and by the corresponding departments in the Southern Presidencies. The Agricultural Statistics are, however, prepared in a number of provinces or parts of provinces from " village papers ", *i.e.*, papers prepared by the village accountants for the purposes of assessment and collection of land revenue. The area given in the village papers of the United Provinces, the Central Provinces and Berar, Madras, the Punjab, and the North-West Frontier Province differs to some extent from the area ascertained by professional survey. The causes of this difference are : (*a*) while the survey area of a district or province is calculated in block, the area by village papers represents the added total of field and village areas ; and (*b*) the system followed as regards the inclusion or exclusion of areas covered by water, buildings, roads, and rail roads, is not uniform in the two sets of returns. Substituting the area by village papers for the area by survey in respect of provinces and tracts where the two sets of returns differ, the actual area of British territory for which statistics are given in this volume is 616,950,000 acres, or 964,000 square miles, as against 619,392,000 acres or 968,000 square miles according to the professional survey.

This area is classified, for the purposes of Agricultural Statistics, as shown in the margin. About 82,935,000 acres, or 13 per cent of the total, are occupied by forests; and the area not available for cultivation, *i.e.*, land absolutely barren or unculturable or covered by buildings, water, and roads, or otherwise appropriated to uses other than agriculture, amounts to 145,427,000 acres or 24 per cent. The balance, 388,588,000 acres or 63 per cent, represents the area available for cultivation. Of this, 115,080,000 acres, or 19 per cent of the total area, represent culturable waste other than fallow, *i.e.*, land available for cultivation but not taken up, and 45,897,000 acres, or 7 per cent, were kept fallow in the year of report. The net area actually cropped in the year was therefore 227,611,000 acres, or 37 per cent of the total area, as against 219,192,000 acres in the preceding year. The proportion of cropped to total area and the number of population per 100 acres of cropped area in each province are stated in the margin. The proportion of cropped to total area in the year of report was highest in Delhi and lowest in Burma. This net cropped area of 227,611,000 acres, however, excludes areas cropped more than once in the year. If areas cropped more than once are taken as separate areas for each crop, the gross area cropped in the year of report amounts to 260,641,000 acres, as against 246,989,000 acres in the preceding year.

Table II. Classification area

British India	37 „	106

Forests.

The term "forests" in the returns of Agricultural Statistics means "any land classed or administered as forest under any legal enactment dealing with forests." Any cultivated areas existing within such forests may, however, be excluded, and entered in the column "net area cropped". The forest areas returned in the Agricultural Statistics do not agree in most cases with those stated in the reports on the administration of the Forest Department for various reasons,* the chief amongst which are the following:—(1) the forest administration reports and the returns of agricultural statistics relate in many cases to different periods; (2) the administration reports relate exclusively to forests worked by the Forest Department, while the tables of agricultural statistics exhibit, in addition, forest areas administered by district officers; and (3) certain village lands worked by the Forest Department and returned as forest lands by that Department are not treated as forests in the returns of agricultural statistics but are included under the proper heads of cultivated or uncultivated lands as the case may be. Of the total forest area returned in the agricultural statistics (82,935,000 acres in 1914-15), 24 per cent lies in Burma, 20 per cent in the Central Provinces and Berar, 16 per cent in the Madras Presidency, 11 per cent in the United Provinces, 10 per cent in the Bombay Presidency, and the remaining 19 per cent in other provinces.

Area not available for cultivation.

As can naturally be expected, most of the barren and unculturable lands lie in the hilly tracts of Burma and of southern India and in the dry and deserty regions of north-western India. Of the total area "not available for cultivation" (145,427,000 acres in 1914-15), about 31 per cent lies in Burma, 15 per cent in the Madras Presidency, and 9 per cent each in Sind and the Punjab.

Culturable waste other than fallow.

The head "culturable waste other than fallow" shows lands available for cultivation but not taken up. It includes areas such as groves not classed in the cropped area, and areas under bamboos and thatching grass when not forming parts of forest areas.* Of the total culturable waste lands

* For detailed explanations of differences in respect of provinces, *see* notes at foot of Table II, Nos. 26 to 40.

(115,080,000 acres in 1914-15), 22 per cent is in Burma, 15 per cent in the Punjab, 13 per cent in Assam, 12 per cent in the Central Provinces and Berar, 9 per cent in the Madras Presidency, and the remaining 29 per cent in the other provinces.

Current fallows.

The maximum period for which land left uncultivated is reckoned as fallow varies in the different provinces, from two years in the Punjab and the North-West Frontier Province to ten years in the Bombay Presidency, according to local laws and customs. After this period the land, if still left uncultivated, is treated as abandoned and included under the head "culturable waste". Owing to this diversity of practice, the classification as between "culturable waste" and "current fallows" is of doubtful statistical accuracy; a plot of land, for instance, left uncultivated for, say, six years, would be treated as fallow in the Bombay Presidency but as culturable waste in the Punjab. The total area returned as "current fallow" in 1914-15 was 45,897,000 acres, as against 52,620,000 acres in the preceding year, or a decrease of 13 per cent.

Irrigation.

The total area irrigated in 1914-15 was 47,194,000 acres, as against 46,836,000 acres in the preceding year. Of this area, 18,887,000 acres were irrigated from Government canals, 2,497,000 acres from private canals, 6,944,000 acres from tanks, 12,556,000 acres from wells, and 6,310,000 acres from other sources of irrigation. In India irrigation on an extensive scale is ordinarily resorted to in tracts where the rainfall is most precarious. In Lower Burma, Assam, Eastern Bengal, and the Malabar Coast (including the Konkan), where the rainfall is ordinarily heavy, the crops hardly need the help of irrigation, unless there is an unusual scarcity of rain. Of the total area irrigated in 1914-15, 24 per cent was in the Punjab, 21 per cent in the Madras Presidency, 24 per cent in the United Provinces, 10 per cent in Bihar and Orissa, 8 per cent in Sind, and the remaining 13 per cent in the other provinces. The proportion of irrigated to total cropped area in each province is stated in the margin. The proportion is highest in the driest province of Sind.

	Proportion of irrigated to total cropped area.
Sind	82 per cent.
Punjab	43 „
North-West Frontier Province	34 „
Ajmer-Merwara	32 „
United Provinces	31 „
Madras	28 „
Bihar and Orissa	18 „
Delhi	16 „
Bengal	9 „
Burma	8 „
Assam	6 „
Bombay	4 „
Central Provinces and Berar	3 „
Coorg	3 „
Manpur	2 „

The figures in the preceding paragraph do not take into account areas cropped more than once during the year with the help of irrigation, but indicate the extent of land actually irrigated. Counting areas cropped more than once as separate areas for each crop, the gross area of irrigated crops was 50,608,000 acres in 1914-15, as against 50,562,000 acres in the preceding year. Of this area, 42,711,000 acres, or 84 per cent, were under food crops, and 7,897,000 acres, or 16 per cent, under non-food crops. Of the irrigated food-crop area, 10,119,000 acres were cropped with wheat, 28,863,000 acres with other cereals and pulses, and 3,729,000 acres with other food crops. These statistics of irrigated crops are in some cases defective as explained in the notes at the foot of Table II (pages 46-49).

Table III. Area under crops.

The areas cultivated with the different crops represent the areas actually sown, whether the crop comes to maturity or not, except in cases where fields, owing to the failure of the first sowings, have been devoted to other crops; in such cases the area first sown is omitted. In cases where two or more crops are grown together on the same field, an estimate is made of the area covered by each, and the areas so estimated are separately returned under the respective crop headings. The estimate is made by the village accountant, or is subsequently determined on formulæ prescribed by the provincial authorities. In certain tracts, where the village staff does not exist, estimates are made on the best available information. An exception to the above rule is, however, made in the United Provinces, where the area sown with unimportant mixed crops, for which no separate heading is provided in the provincial crop statements, is assigned to the principal crops by the village accountant. In the same

province this procedure is also followed in the case of oilseeds thinly sown in combination with food-grains; in this case the whole area of the mixed field is assigned to food grains.

The gross area cultivated with crops was, as stated above, 260 million acres in 1914-15 as against 247 million acres in the preceding year, or an increase of 13 million acres or 5 per cent. The different classes of crops and the area occupied by each are stated in the margin. Of the total cropped area, food-crops occupied about 215,164,000 acres or 83 per cent, and non-food crops about 45,007,000 acres or 17 per cent. Of the food-crops, food-grains (cereals and pulses) occupied as much as 204,505,000 acres or about 79 per cent of the total cropped area, and other food-crops (condiments and spices, sugar, fruits and vegetables, and miscellaneous food-crops * together) occupied some 10,659,000 acres or only 4 per cent of the total. Of non-food crops, fibres, such as cotton, jute, hemp, etc., occupied 19,507,000 acres or 7 per cent of the total cropped area, and oilseeds occupied 15,333,000 acres or 6 per cent. The other non-food crops *—dyes, drugs and narcotics (tobacco, tea, coffee, opium, etc.), fodder crops, and miscellaneous non-food crops together—occupied some 10,167,000 acres or about 4 per cent of the total.

	Thousand acres.	Per cent of total.
Food-grains	204,505	78·6
Condiments and spices	1,323	0·5
Sugar	2,459	0·9
Fruits and vegetables	5,931	2·3
Miscellaneous food-crops	946	0·4
Total food-crops	215,164	82·7
Oilseeds	15,333	5·9
Fibres	19,507	7·5
Dyes	601	0·2
Drugs and narcotics	2,046	0·8
Fodder crops	6,363	2·5
Miscellaneous non-food crops	1,157	0·4
Total non-food crops	45,007	17·3

Food-grains.

The area under food-grains (204,505,000 acres) showed a net increase of 12,932,000 acres or 7 per cent as compared with the preceding year. The actual increase or decrease under each kind of grain is stated in the marginal table (in thousands of acres). It will be seen that the area under all the grains except jawar and ragi showed an increase. The weather conditions at sowing time were, on the whole, favourable, especially for the *rabi* crops (wheat, barley, gram, etc.). Of the total area shown in the table under food-grains (205 million acres in 1914-15), 19 per cent was in the United Provinces, † 15 per cent in the Madras Presidency, 13 per cent in Bihar and Orissa, 12 per cent in the Punjab, 11 per cent in Bengal, 10 per cent in the Bombay Presidency, 9 per cent in the Central Provinces and Berar, and the remaining 11 per cent in the other provinces.

	Thousand acres		
	1914-15	1913-14	Increase (+) or Decrease (−)
Rice	77,669	76,908	+ 761
Wheat	25,451	22,685	+2,766
Barley	7,905	7,206	+ 699
Jawar	21,22	21,405	— 182
Bajra	16,042	15,385	+ 657
Ragi	4,251	4,371	— 120
Maize	6,188	6,167	+ 21
Gram	14,364	9,297	+5,067
Other grains and pulses	31,412	28,149	+3,263

Oilseeds.

The area under oilseeds (15,333,000 acres) showed an increase of 675,000 acres or 5 per cent as compared with the preceding year. The actual increase under each kind of oilseeds is stated in the margin (in thousands of acres). Of the total area under oilseeds shown in this table (15 million acres), 22 per cent was in the Madras Presidency, 17 per cent in the Central Provinces and Berar, 12 per cent each in Bihar and Orissa and in Bengal, 10 per cent in Burma, 9 per cent in the Punjab, 6 per cent each in the

	Thousand acres		
	1914-15	1913-14	Increase
Linseed	2,526	2,269	+257
Sesamum	4,478	4,279	+199
Rape and mustard	4,144	4,083	+ 61
Other oilseeds	4,185	4,027	+158

* For a list of these crops, *vide* Appendix D.

† In the United Provinces, the whole of the area of the land sown with food-grains mixed with oilseeds is shown under food-grains. The area included under food-grains, which was really sown with oilseeds (as a mixed crop), is roughly estimated to have been 4,000,000 acres in the whole province in 1914-15. Excluding this area of 4 million acres of oilseeds, the total area under food-grains in British India in 1914-15 would come to 201 million acres instead of 205 million acres stated above

Bombay Presidency and the United Provinces,* and the remaining 6 per cent in the smaller provinces.

Condiments and spices

The total area under condiments and spices in 1914-15 was 1,323,000 acres, as against 1,288,000 acres in the preceding year, or an increase of 35,000 acres or 3 per cent. As is to be expected, spices are grown mostly in the southern parts of India: nearly half (46 per cent) of the total area under condiments and spices in 1914-15 was in the Madras Presidency.

Sugar.

The total area under sugar in 1914-15 was 2,459,000 acres as against 2,708,000 acres in the preceding year, or a decrease of 249,000 acres or 9 per cent. Of this area, about 2,303,000 acres were occupied by sugarcane, as against 2,542,000 acres occupied by that crop in the preceding year, or a decrease of 9 per cent, which was due partly to deficient moisture in the soil at sowing time and partly to scarcity of seed-cane owing to the drought of 1913. More than half (52 per cent) of the sugarcane area was in the United Provinces, 16 per cent in the Punjab, 12 per cent in Bihar and Orissa, 10 per cent in Bengal, and 3 per cent in the Madras Presidency. The other sugar-yielding plants, namely, date palm and palmyra palm, occupied a total area of 156,000 acres as against 166,000 acres in the preceding year. About 47 per cent of this area was in the Madras Presidency and 37 per cent in Bengal.

Fibres.

Fibre crops occupied 19,507,000 acres in 1914-15 as against 19,895,000 acres in the preceding year, or a decrease of 388,000 acres or 2 per cent. The actual increase or decrease under the several kinds of fibre is shown in the marginal table. The area under cotton showed a decrease of 622,000 acres or 4 per cent. Of the total cotton area, 31 per cent was in the Central Provinces and Berar, 28 per cent in the Bombay Presidency, 14 per cent in the Madras Presidency, 11 per cent in the Punjab, and 10 per cent in the United Provinces. The area under jute showed an increase of 173,000 acres or 6 per cent. About 87 per cent of the total jute area was in Bengal and the remaining 13 per cent in Bihar and Orissa and Assam. Other fibres also showed an increase of 61,000 acres or about 7 per cent as compared with the preceding year.

	Thousand acres		
	1914-15	1913-14	Increase (+) or Decrease (−)
Cotton	15,222	15,844	−622
Jute	3,309	3,136	+173
Other fibres	976	915	+ 61

Dyes.

The total area under dyes was 601,000 acres in 1914-15. Of this, the area occupied by indigo was 146,000 acres as against 169,000 acres in the preceding year, or a decrease of 23,000 acres or 14 per cent. Of the total indigo area, 49 per cent was in the Madras Presidency, 26 per cent in Bihar and Orissa, 14 per cent in the Punjab, and 8 per cent in the United Provinces. Other dyes occupied an aggregate area of 455,000 acres.

Drugs and narcotics.

The total area under drugs and narcotics was 2,046,000 acres in 1914-15 as against 1,949,000 acres in the preceding year. The actual increase under each kind of drugs and narcotics is stated in the margin. All drugs and narcotics except Cinchona and Indian hemp showed an increase, while the area under the latter two remained practically the same as in the preceding year.

	Thousand acres		
	1914-15	1913-14	Increase (+)
Opium	179	170	+9
Coffee	87	86	+1
Tea	584	572	+12
Tobacco	1,056	1,002	+54
Cinchona	5	5	...
Indian hemp (*ganja*)	2	2	...
Other drugs	133	112	+21

* The figures shown under the several heads of oilseeds in Table III against the United Provinces of Agra and Oudh represent areas under "pure" oilseeds, *i.e.*, oilseeds sown unmixed with any other crop, excluding the oilseeds which are thinly sown in combination with wheat, barley, gram, and other crops. If the areas occupied by the scattered oilseeds plants were added up, it is estimated very roughly that they would amount in 1914-15 for the whole of the United Provinces to about 4 million acres. Including this area, the total area under oilseeds in British India in 1914-15 would come to 19 million acres instead of 15 million acres stated above.

The head "fodder crops" shows only those crops which are used exclusively as fodder in normal times. These are oats, field vetch, guinea grass, lucerne, fodder jawar, and carob or locust tree. The total area under fodder crops in 1914-15 was 6,363,000 acres as against 5,910,000 acres in the preceding year. Fodder crops.

The total area occupied by fruits and vegetable crops in 1914-15 was 5,931,000 acres as against 5,721,000 acres in the preceding year. [For the names of the fruits and vegetable crops cultivated in India, see Appendix D.] Fruits and vegetables including root crops.

The total area occupied by miscellaneous crops, that is, crops not classified under any of the heads specified above, was 2,103,000 acres. Of this, about 946,000 acres were occupied by miscellaneous food crops and about 1,157,000 acres by miscellaneous non-food crops. [For the names of the crops included under these heads, see footnotes on page 119 and Appendix D.] Miscellaneous crops.

The total extent of land on which more than one crop was raised during the year was 33,030,000 acres as against 27,797,000 acres in the preceding year. Area cropped more than once.

The statistics recorded in Table IV are based mainly on cattle censuses. In Burma, Manpur Pargana, and the Central Provinces and Berar the census is taken annually, while in the United Provinces, Assam, Ajmer-Merwara, the Punjab, the North-West Frontier Province, the Bombay Presidency, the Madras Presidency, and Coorg it is taken once in five years. The last quinquennial census was taken in 1909-10 in the Bombay Presidency, in 1913-14 in the Punjab, the North-West Frontier Province, Delhi, and Ajmer-Merwara, and in 1914-15 in the United Provinces, the Madras Presidency, Assam, and Coorg. In Bengal a cattle census was taken for the first time in 1912-13, which gave the numbers of bulls and bullocks, cows, buffaloes, and young stock. [Young stock represents oxen and buffaloes not old enough for work or to produce young.] In Bihar and Orissa a census was taken in 1913-14. The figures for Bihar and Orissa prior to 1913-14, as also those for Bengal for years prior to 1912-13, are based on estimates. Live-stock in cities and cantonments are included wherever it is possible to secure their enumeration. In making up the totals for British India for each year, the figures last collected in the provinces, where the census is not taken annually, are repeated year after year until the next census is taken*. It would, therefore, serve no useful purpose to compare the total figures of one year with those of another, as the totals thus constituted do not really represent the number of stock in the year against which the figures are shown in the table. The animals may be divided into three classes, namely, (1) Bovine, comprising bulls and bullocks, cows, buffaloes, and young stock (*i.e.*, calves and buffalo calves), (2) Ovine, comprising sheep and goats, and (3) others, comprising horses and ponies, mules, donkeys, and camels. Table IV. Live-stock, ploughs and carts.

Number in thousands

	Bovine	Ovine	Others	Ploughs	Carts
Bengal	25,324	Not available			
Madras	21,761	18,192	189	4,291	998
Bombay and Sind	9,677	5,397	491	1,287	596
United Provinces	31,741	12,676	846	5,111	859
Bihar and Orissa	20,119	6,576	203	3,224	458
Punjab	15,489	9,109	1,472	2,314	295
Burma	5,882	233	97	626	651
Central Provinces and Berar	11,857	2,041	186	1,450	891
Assam	3,576	522	15	594	39
North-West Frontier Province	1,271	1,147	211	226	5
Ajmer-Merwara	351	424	11	43	12
Delhi	148	32	13	16	8
Coorg	134	4	...	34	1
Manpur	6	1	...	1	...
Total	147,336	56,354	3,734	19,217	4,813

The total number of live-stock of each of these three classes in each province, together with the numbers of ploughs and carts, is stated in the margin (in thousands). Of the total number of live-stock of the bovine class (147 millions), which is cattle proper, the United Provinces account for 22 per cent, Bengal 17 per cent, the Madras Presidency 15 per cent, Bihar and Orissa 14 per cent, the Punjab 11 per cent, the Central Provinces and Berar 8 per cent, the Bombay Presidency including Sind 7 per cent, and other provinces the remaining 6 per cent. In the case of ploughs also the United Provinces come first with 27 per cent of the total (excluding Bengal for which figures are not available), followed by Madras (22 per cent), Bihar and Orissa (17 per cent),

* It has been arranged to hold a quinquennial census of live-stock in the same year in all the provinces, as far as practicable. The next such census will be taken in 1919-20.

and the Punjab (12 per cent). In the case of stock of the ovine class (sheep and goats), however, Madras accounts for 32 per cent of the total (excluding Bengal), followed by the United Provinces (22 per cent), the Punjab (16 per cent), Bihar and Orissa (12 per cent), and the Bombay Presidency including Sind (10 per cent). In the case of carts also, Madras accounts for 21 per cent of the total (excluding Bengal), followed by the Central Provinces and Berar (19 per cent), the United Provinces (18 per cent), and Burma (14 per cent). The marginal table shows the number of live-stock of the bovine class (which is cattle proper) per 100 acres of cropped area and per 100 of the population of each province. It will be seen that the number of cattle per 100 acres of cropped area ranges between 32 in Bombay and Sind and 100 in Bengal, while the number per 100 of population ranges between 36 in Delhi and 95 in the Manpur Pargana. The average for British India, as a whole, is 65 per 100 acres of cropped area and 61 per 100 of the populati on.

	Number of cattle	
	Per 100 acres of cropped area.	Per 100 of popula-tion.
Bengal	100	57
Madras	63	53
Bombay and Sind	32	52
United Provinces	88	67
Bihar and Orissa	77	58
Punjab	58	79
Burma	41	56
Central Provinces and Berar	47	85
Assam	61	53
North-West Frontier Province	48	56
Ajmer-Merwara	94	70
Delhi	69	36
Coorg	96	77
Manpur	89	95

Table V. Land Revenue Assessment.

The varieties of land tenure in the different provinces are included in Table V and are given, as far as possible, under one or other of the following three heads, namely, (1) raiyatwari, (2) zamindari and village communities (temporarily settled), and (3) zamindari permanently settled. When the revenue is assessed by the State, permanently or temporarily, on an individual or community owning an estate, and occupying a position identical with or analogous to that of a landlord, the tenure is known as *zamindari* or village community; when the revenue is assessed on individuals who are the actual occupants, or are accepted as representing the occupants, of smaller holdings, the tenure is known as *raiyatwari*. Under either system there may be rent-paying subtenants. Zamindari tenure may be either *permanently settled*, *i.e.*, where the land revenue has been fixed in perpetuity, or *temporarily settled*, *i.e.*, where the land revenue is fixed for a period of years only. Village communities and raiyatwari tenures are as a rule temporarily settled, and the land revenue assessed on them are changeable from time to time.

The following table shows the position in the surveyed areas of the various provinces, as regards the forms of land tenure according to the latest statistics available. The figures roughly indicate the extent to which the different systems prevail :—

In thousands of acres.

Province.	Raiyatwari.	Zamindari (individual proprietors or village communities).		Total.
		Permanently settled	Temporarily settled	
Bengal	...	39,211	11,269	50,480
Madras	61,286	29,852	...	91,138
Bombay	44,876	...	3,753	48,629
Sind	30,257	...	...	30,257
United Provinces	...	7,542	60,793	68,335
Bihar and Orissa	...	41,452	11,760	53,212
Punjab	...	...	61,856	61,856
Burma	108,881	...	...	108,881
Central Provinces	12,142*	...	40,452	52,594
Berar	11,374*	...	...	11,374
Assam	25,830	3,930	1,546	31,306
North-West Frontier Province	...	...	8,438	8,438
Ajmer-Merwara	...	974	797	1,771
Delhi	...	...	368	368
Coorg	1,012	...	...	1,012
Manpur	31	...	...	31
Total	295,689	122,961	201,032	619,682

It will thus be seen that about 48 per cent of the total area is held by *rayiatwari* proprietors, while 20 per cent is held by permanently settled, and 32 per cent by temporarily settled, *zamindari* proprietors.

* Including Government forests.

The statistics for this table are collected annually in Burma, Assam, Manpur, the Punjab, Delhi, the North-West Frontier Province, and the Central Provinces and Berar, and quinquennially in Bengal, Bihar and Orissa, the United Provinces, Ajmer-Merwara, Bombay, Sind, Madras, and Coorg. According to the latest statistics available the total revenue from land (excluding cesses) for the whole of British India amounts to over R33⅓ crores. This represents the actual realisable demand* on account of the year, no account being taken of the collection of arrears for past years, nor of amounts remaining uncollected at the end of the year. The marginal table shows the total land revenue assessment, the total population, and the assessment per head of population in each province. For additional details reference should be made to the tables on pages 278 to 319.

	Total revenue from land (R1,000)	Total population (1,000)	Revenue per head R	a.
Bengal	2,74,67	44,588	0	10
Madras	6,72,94	41,405	1	11
Bombay	3,09,28	15,134	2	1
Sind	90,90	3,513	2	9
United Provinces	6,57,68	47,190	1	6
Bihar and Orissa	1,57,13	34,490	0	7
Punjab	3,94,95	19,548	2	0
Upper Burma	1,53,69	4,112	3	12
Lower Burma	3,24,42	6,465	5	0
Central Provinces	1,08,74	10,873	1	0
Berar	86,28	3,067	2	13
Assam	77,95	6,714	1	3
North-West Frontier Province.	27,37	2,255	1	3
Ajmer-Merwara	3,65	501	0	12
Delhi	3,98	413	0	15
Coorg	3,65	175	2	1
Manpur	16	7	2	6
Total	33,47,44	240,450	1	6

Table VI. Transfers of property in land.

The total number of transfers during 1914-15, as recorded in Table VI, was 917,000, of which 895,600 were by private contract or gift, and 21,400 by order of the court. The total area of the transfers by private contract or gift was 4,414,900 acres, and by order of the court 450,300 acres. These statistics are incomplete. They do not include transfers in Bengal (for which figures are not available), nor in Madras (for which the table has been discontinued from 1913-14); in Bihar and Orissa no information is available regarding transfers under orders of civil courts. As explained in the footnotes to Table VI, the figures for other provinces also are not always complete. It may be noted that voluntary transfers are those made by actual contract or gift, transfers by succession or inheritance not being taken into account: compulsory transfers are those effected through a court, civil or revenue. Transfers of land under the Land Acquisition Act and temporary transfers, such as leases, simple mortgages, and redemptions of mortgages, are excluded from the table. Mortgages with possession are treated as transfers and included in Table VI.

Appendices. Average yield of crops.

The Agricultural Department in each province maintains a statement of the average yield per acre of land of average quality, irrigated and unirrigated, for crops in each district. In order to test the accuracy of the standards of normal or average yield, and if necessary, to revise these, a system of crop-cutting experiments exists in all the provinces. Under this system plots of land of average quality are selected, and the crops grown on them are cut and weighed in the presence of responsible officers of the district staff or of the provincial agricultural department. The results of the experiments are reported to the head of the provincial agricultural department, who revises the standards in the light of these returns. This revision is ordinarily made once in five years, although crop-cutting experiments are usually carried out for the principal crops each year. The table (appendix A) shows the figures as last revised with reference to the crop-cutting experiments made up to 1911-12. As time goes on the figures become more accurate, and it may be noted that the general trend of the changes made is in an upward direction. In Bengal the yield of sugarcane has been raised from 2,460 lbs to 2,905 lbs, and that of jute from 1,200 lbs to 1,271 lbs. Maize and rice in the United Provinces have been raised from 1,050 lbs and 850 lbs to 1,100 lbs and 900 lbs, respectively. In the Punjab rapeseed has been raised from 254 lbs to 396 lbs and cotton from 74 lbs to 118 lbs. In Sind cotton has been raised from 308 lbs to 380 lbs, due

* Sums remitted on account of unoccupied lands, short crops, etc., are wholly excluded from this total amount in Madras, the North-West Frontier Province, Sind, and Burma; while such remissions only as are actually sanctioned within the year of report are excluded in the Central Provinces and Berar, the United Provinces, Bombay, and the Punjab. No deduction for remissions is made in Bengal, Bihar and Orissa, Assam, Ajmer-Merwara, Coorg, and Manpur.

mainly to the adoption of Egyptian seed in Thar and Parkar, and bajra from 776 lbs to 971 lbs. In Madras irrigated and unirrigated cotton is, respectively, 87 lbs and 55 lbs against 66 lbs and 44 lbs formerly, while irrigated jawar has been raised from 1,118 lbs to 1,379 lbs. In some instances the standards have decreased. In Bengal the average yield of winter rice has been put at 983 lbs; in the Punjab the yield of bajra at 379 lbs and of gram at 549 lbs; while the yield of maize in the North-West Frontier Province is now estimated at 1,292 lbs.

Territorial changes.

Appendices B, C, and D perhaps require little or no comment. Appendix B, which shows changes that have been made from time to time in district or provincial boundaries, will explain the variations in total areas of districts and provinces in Table I, so far as they are due to territorial changes. Appendix C explains vernacular terms used in this volume, and Appendix D the classification in Table III of the various crops cultivated in India.

Vernacular terms and classification of crops.

The charts and diagrams in the volume illustrate (1) total area cropped in 1914-15 with shares of food and non-food crops, (2) live-stock divided between bovine, ovine, and others, (3) total cultivable area, (4) uncultivable area and net area cropped, (5) culturable waste and current fallows, (6) area cropped and area under food crops, (7) area under non-food crops and irrigated area cropped, (8) and (9) areas under selected crops, (10) areas under selected crops in 1914-15 as compared with those in 1910-11, (11) shares of provinces in the areas under certain principal crops in 1914-15.

For the prices of agricultural produce, reference should be made to the volume entitled "Prices and Wages in India", 32nd issue, which has been recently published.

I have the honour to be,

SIR,

Your most obedient servant,

G. FINDLAY SHIRRAS,

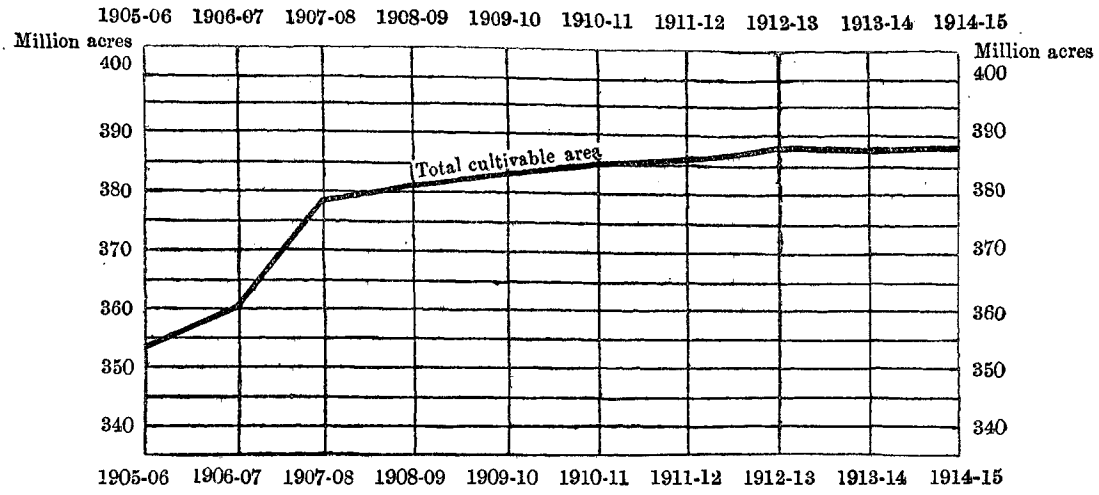
Director of Statistics.

DEPARTMENT OF STATISTICS,
Calcutta, February 5, 1917.

AREAS

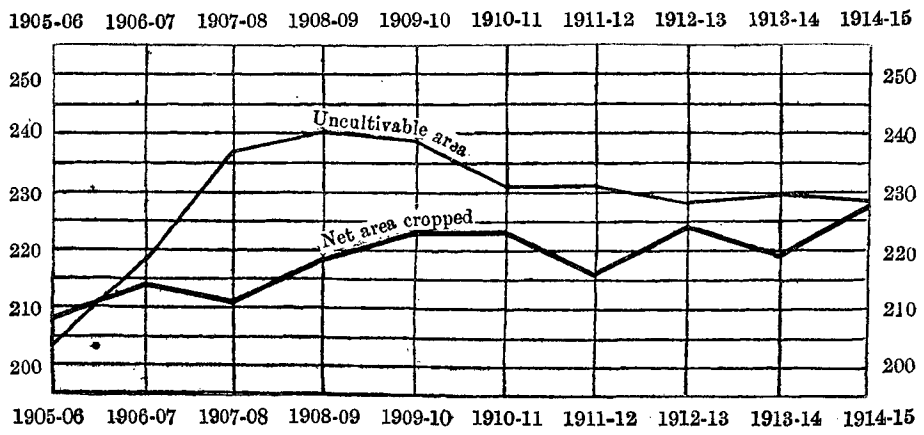
(In millions of acres)

3. Total cultivable area



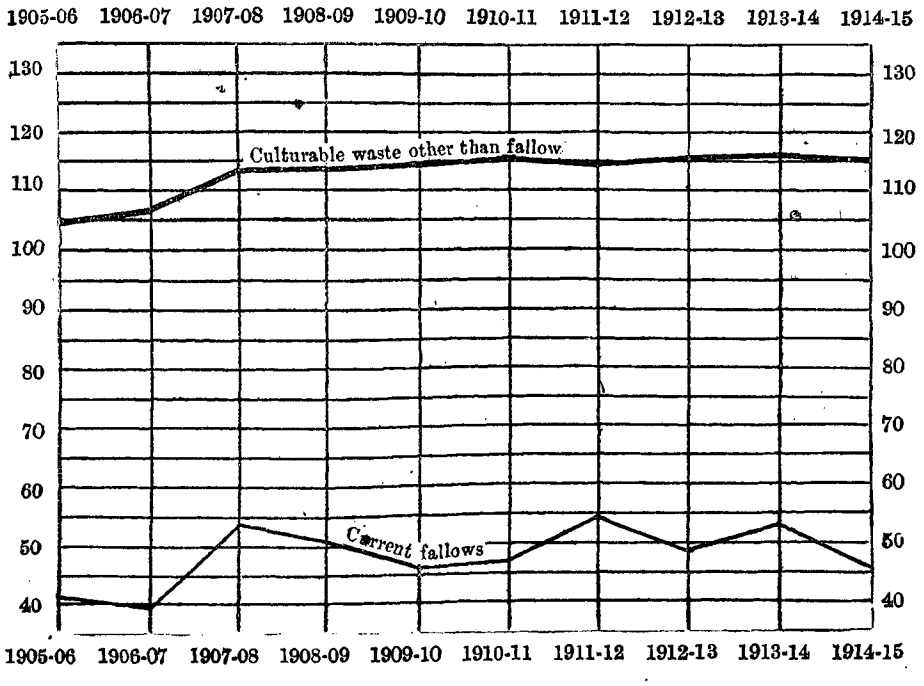
Total cultivable area represents the sum of net area cropped, culturable waste, and current fallows.

4. Uncultivable area and Net area cropped



Uncultivable area includes the area under forest.

5. Culturable waste other than fallow and Current fallows

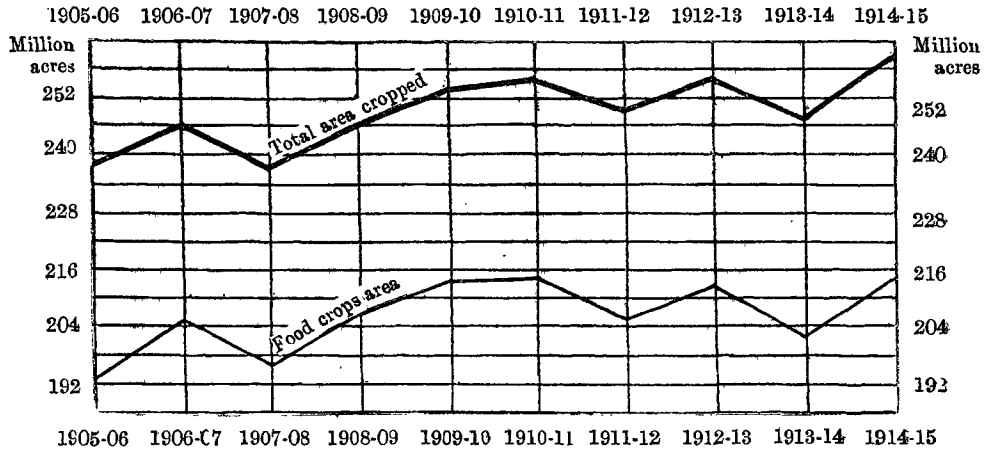


NOTE :—Statistics for years prior to 1907-08 exclude certain areas for which returns were not available.

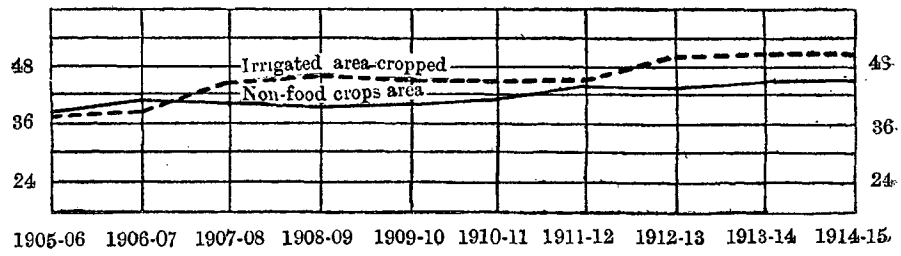
AREAS

(In millions of acres)

6. Total Area cropped and Area under food crops

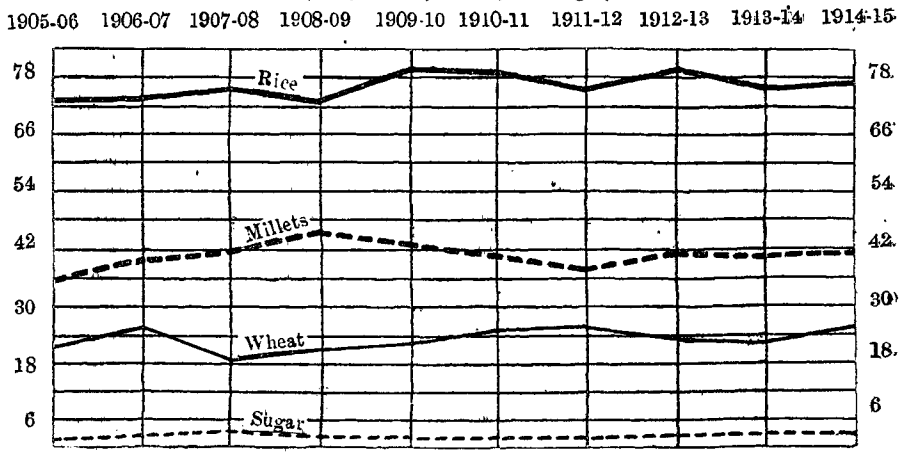


7. Area under non-food crops and Irrigated area cropped



8. Areas under selected crops

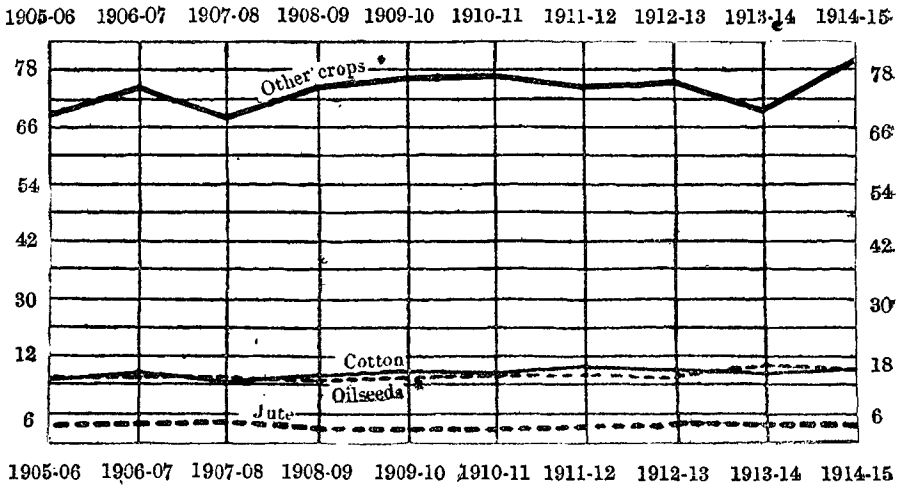
(Rice, Millets, Wheat, and Sugar)



Millets are jawar, bajra, and ragi

9. Areas under selected crops

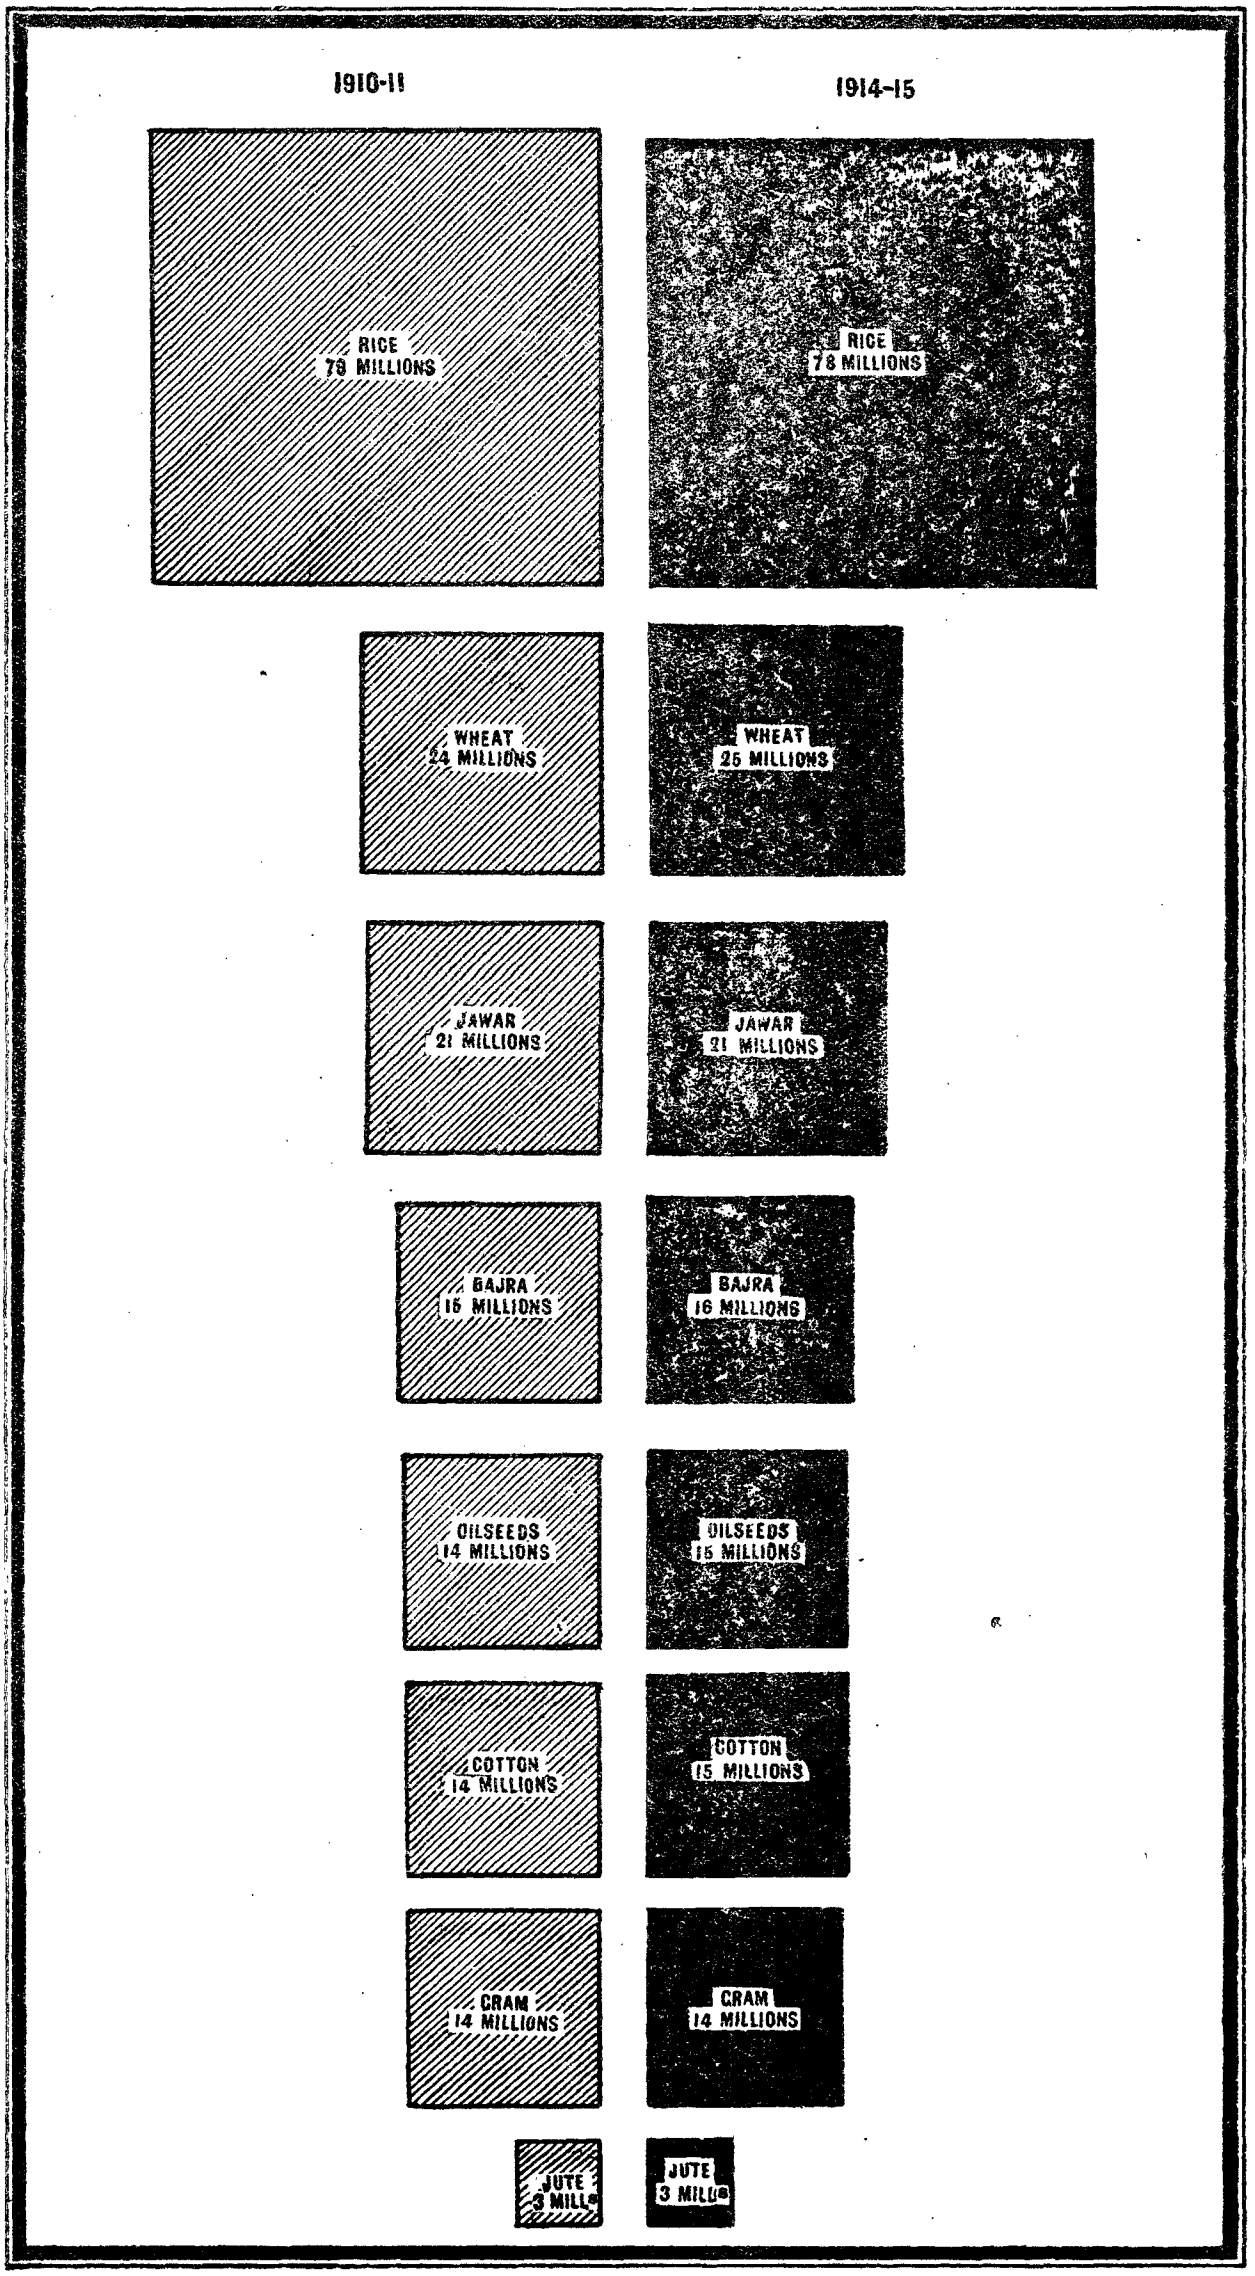
(Oilseeds, Cotton, Jute and other crops)



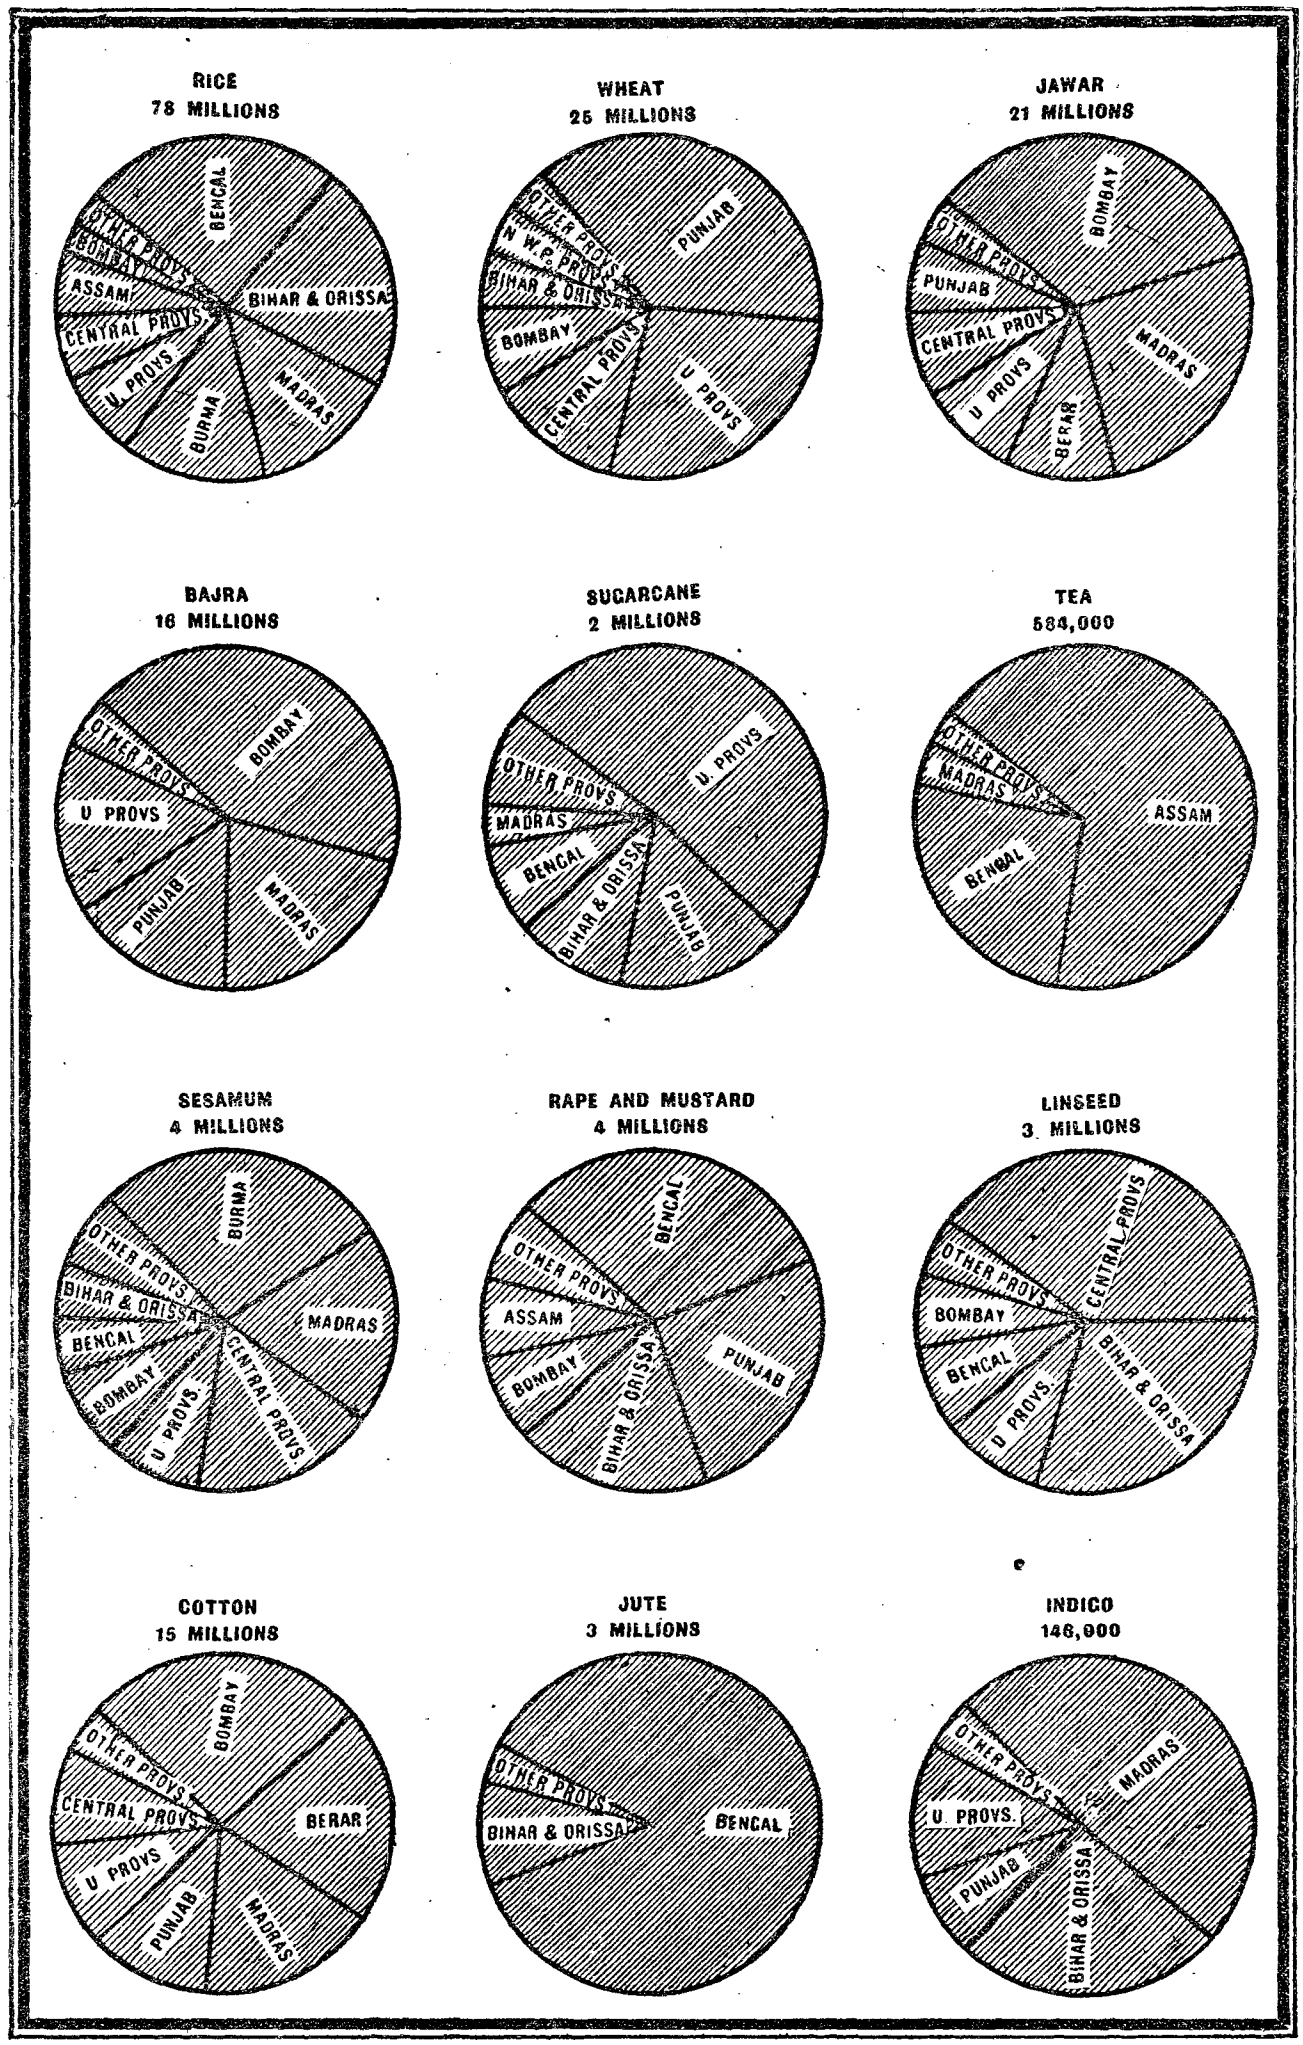
NOTE :—" Other food crops " are barley, maize, gram, minor food grains, condiments and spices, fibres other than cotton and jute, dyes, drugs and narcotics, fodder crops, fruits and vegetables and miscellaneous crops.

Statistics for years prior to 1907-08 exclude certain areas for which returns were not available.

10. Areas (in acres) under certain principal crops in 1914-15, as compared with 1910-11 (five years ago).



11. Shares of provinces in the total area (in acres) under certain principal crops in 1914-15.



NOTE.—In this diagram, the circles for the different crops have no relation to each other; they simply show the relative importance of each province in respect of each crop.

TABLES

Summary Tables of the Agricultural Statistics of British India

No. 1—GENERAL SUMMARY 1905-06 TO 1914-15

Classification of area (*Thousand acres*

	1905-06 (*a*)	1906-07 (*a*)	1907-08	1908-09	1909-10	1910-11	1911-12	1912-13	1913-14	1914-15

(a) Figures for Lower Egypt only
(b) Not including the territory occupied by the enemy
(c) Excluding Croatia-Slavonia
(d) Winter barley only
(e) Excluding the Isle of Man and the Channel Islands
(f) Excluding 4,234,000 acres where the winter wheat crop was destroyed

* Including figures for Native States, namely, 2,380,000 acres for rice, 7,190,000 acres for wheat, 938,000 acres for barley, 1,429,000 acres for maize, and 9,470,000 acres for cotton. The figures for rice, barley, and maize for Native States are, however, not complete, as returns for those crops are not furnished by a number of States.

Note.—The figures for foreign countries have been taken from the Bulletins of Agricultural and Commercial Statistics and Statistical Notes on Cereals published by the International Institute of Agriculture, Rome.

1914-15					15,476,771

(a) Increase due to adoption of the latest census figures

Column 2.—The professional survey is that carried out by the Survey of India in Northern India, and by the corresponding departments in the Southern Presidencies. The provincial areas in this column exclude Native States in direct political relations with the Government of India, but include Feudatory or Tributary States politically controlled by Local Governments, with the exception of the Shan States in Burma and the Tribal areas in the North-West Frontier Province.

Column 3.—In this column is entered the area of any Feudatory or Tributary States included in column 2.

Column 4.—Prior to 1908-09 this column showed the entire area (exclusive of Native States) for which the statistics required for Tables II and III were not forthcoming in whole or in part. This area comprised chiefly estates held in permanent settlement or on privileged tenure, which were not surveyed or which possessed no agency for the annual collection of agricultural statistics. But arrangements have since been made to prepare statistics, for the whole of this area, based either on regular returns or on estimates as has been found practicable. There is therefore no longer any unreturned area to be shown in this column.

Columns 5 and 6.—Column 5 is a check on the accuracy of column 6. In the latter "village papers" mean "the papers prepared by the village accountants." The village papers do not in several provinces relate to the whole area included in column 5; for instance, the village returns sometimes do not include the forest areas. There are also tracts in many provinces for which no village papers exist and for which estimates have to be made to complete the statistics. In all such cases, column 6 must be taken to be the total area corrected by the village papers in respect of the areas for which such papers exist. The areas of provinces and districts, which are calculated from village papers, are necessarily somewhat different from those given by the Survey Department, (*a*) because, while the survey area of a district or province is calculated in block, the area by village papers represents the added total of field and village areas; and (*b*) because the system followed as regards the inclusion or exclusion of areas covered by water, buildings, roads, and railroads, is not uniform in the two sets of returns. In provinces where no village papers exist, the figures in column 5 have been repeated in column 6. In that case they represent the area of which the details are stated in columns 2 to 6 of Table II.

Note.—(1) The variations in the figures for 1912-13 for certain districts are due to adoption of the latest census figures. The area cadastrally surveyed up to 1914-15 comprises 18,755,874 acres or about 42 per cent of the total area of the province (exclusive of Native States). The figures for the remaining area of the province are based more or less on estimates

(2) For explanations of all material changes in area according to professional survey, in this as well as in the succeeding sections of Table I, reference is invited to the table stating changes made in boundaries, Appendix P.

Column 2 states the area as ascertained by the provincial survey department, supplemented, for tracts which have not come under the operations of that department, by areas obtained with the computing scale from the Survey of India atlas sheets of the localities concerned.

Columns 5 and 6.—The statistics for the major portion of the zamindari estates and certain raiyatwari and whole inam villages are based on estimates owing to the absence of adequate agency for the collection of statistics in these tracts. Of the total area (89,491,135 acres) entered in column 6 for 1914-15 (page 20), 66,708,466 are based on actual returns and 22,782,669 on estimates.

Column 2 states the area as returned by the provincial revenue survey and settlement department, supplemented in the case of Native States by the returns of the topographical survey.

Columns 5 and 6.—The figures of column 5 are repeated in column 6, because the areas in village papers are derived from the revenue survey records. The figures for all unsurveyed villages are based on estimates. Of the total area (48,643,958 acres) entered in columns 5 and 6 for 1914-15 (page 22), 44,520,201 acres are based on actual returns and 4,123,757 acres on estimates.

(*a*) Constructed in 1912-13 out of the Hyderabad and Thar and Parkar districts

Column 2 states the area as returned by the provincial revenue survey and settlement department, supplemented in the case of Native States by the returns of the topographical survey. The revenue survey being incomplete in Sind, the exact area is not known: the column states the area of surveyed tracts *plus* the estimated area of unsurveyed tracts

Columns 5 and 6.—The figures of column 5 are repeated in column 6, because the areas in village papers are derived from the revenue survey records. The figures for all unsurveyed villages are based on estimates. Of the total area (30,089,084 acres) entered in these columns for 1914-15, 29,964 176 acres are based on actual returns and 124,908 acres on estimates

1914-15					

Columns 2, 5 and 6.—Where there has been no professional survey of the district, estimates framed in the best manner possible are accepted, subject to revision from time to time as surveys extend. Approximate figures for the Chin Hills and for the Kachin Hills (in the Bhamo, Myitkyina, and Katha districts) have been included from 1906-07 and for the Pakokku Hill Tracts from 1907-08. Of the total area (53,803,231 acres) entered in columns 5 and 6 for 1914-15 for Upper Burma (page 36), 16,855,014 acres are based on actual survey and 36,948,217 acres on estimates

The variations in the areas shown in different years under the same item in the same province or district do not necessarily represent an actual increase or decrease on the area in question. In many cases a revised classification or the correction of a faulty estimate is responsible for the change.

Column 2.—"Forests" mean "any land classed or administered as forest under any legal enactment dealing with forests." Any cultivated areas existing within such forests may be excluded and entered in column 6 (net area cropped). The forest areas do not agree in most cases with those stated in the reports on the administration of the Forest Department for various reasons, the chief amongst which are these: (1) because the forest administration reports and the statements of agricultural statistics relate in many cases to different periods, (2) because the administration reports relate exclusively to forests worked by the Forest Department, while the tables of agricultural statistics exhibit in addition forest areas administered by district officers, and (3) because, on the other hand, certain village lands worked, and returned as forests, by the Forest Department are not treated as forests in the returns of agricultural statistics and are therefore excluded from this column.

Column 3 includes all land absolutely barren, and also all land covered by buildings, water, roads, or otherwise appropriated to uses other than agriculture.

Column 4 includes groves not classed in the cropped area. Areas under bamboos and thatching grass, when not forming parts of forest areas, are included in this column.

Columns 8 to 13 state the area actually irrigated during the year, areas cropped more than once being counted once only

Columns 14 to 18 state the gross area of irrigated crops, areas cropped more than once being counted as separate areas for each crop. The excess in some cases of the total area of crops irrigated (column 18) over the total area irrigated (column 13) is thus due to the inclusion in column 18 of the area irrigated at both harvests

(*a*) Includes 1,700 acres in Rajshahi for which details are not available
(*b*) Includes 35,900 acres in Naini-Tal, Almora, and Garhwal for which details are not available
(*c*) Includes 26,777 acres in Purnea, and excludes certain other areas for which details are not available
(*d*) Includes 26,777 acres in Purnea for which details are not available
(*e*) Full details of all crops irrigated are not available

Table II—*continued*

* See explanations given in the footnotes (page 46)

(*a*) Includes reserved and protected forests only. The management of the latter having been transferred to the revenue authorities, the figures shown in the forest administration report represent the areas of reserved forests, which slightly differ from those adopted for this table because the periods embraced are different.

(*b*) Includes unculturable Government waste and unculturable *banés*.

(*c*) States the estimated area of culturable Government waste.

(*d*) Shows (1) the estimated area of culturable *banés*, and (2) the difference between the net area cropped and the gross area of the actual holdings (exclusive of *banés*). It thus includes the unculturable lands within the actual holdings, the area of which cannot be ascertained.

Column 2.—Includes the area cultivated within forests, and excludes the area of forests in the Native State of Sandur, in Bellary, not included in the village papers. As the latter is included in the forest administration report, it accounts partly for the disagreement of its figures with those in this table.

Column 4.—Includes from 1911-12 areas occupied by *babul* and casuarina trees when they do not form parts of forest areas. Prior to 1911-12, such areas were classed under "Miscellaneous non-food crops" in Table III.

Column 5.—Includes all occupied waste, that is to say, waste portions of land for which revenue is paid.

Column 6.—Of the total net cropped area for 1914-15 (34,691,788 acres) stated in this column (page 60), 28,809,156 acres are based on actual returns, and 5,882,632 acres on estimates.

Column 10.—The term "tanks" refers to a particular kind of dammed reservoirs. These reservoirs are formed by throwing dams across the valleys of small rivulets and streams to intercept water during the rains.

Column 13.—Of the total area irrigated in 1914-15 (9,739,554 acres, page 61) 7,367,611 acres are based on actual returns and 2,371,943 acres on estimates.

NOTE.—Figures for unsurveyed villages are based on estimates.

Column 2.—Includes land administered by the Forest Department whether formally declared forest under an Act or not, and differs from the area stated in the forest reports, because in certain localities, where the settlement is incomplete, the original areas are still returned by the Forest Department, while revised areas are returned in this table; also because the revenue records do not always state the most recent revisions.

Column 3.—Includes all land recorded at the survey and settlement as unculturable, though at times a very small quantity of this land is cultivated.

Column 5.—The maximum period for which land thrown out of cultivation is reckoned as fallow is ten years.

Column 6.—Of the total net cropped area (25,711,156 acres) entered in this column for 1914-15 (page 64), 24,619,862 acres are based on actual returns, and 1,091,294 acres on estimates.

(*a*) Variations due to bad season.

Columns 8 to 13.—The figures given for private canals, tanks, wells, and other sources are rough estimates.

Column 16.—By "miscellaneous food crops" are understood the crops entered in Table III, as sugar, fruits and vegetables, and miscellaneous food crops.

Table II—*continued*

No. 28—CLASSIFICATION OF THE AREA (IN ACRES) OF EACH DISTRICT IN BOMBAY—*continued*

District	Forests *	Not available for cultivation *	Culturable waste other than fallow	Current fallows *	Net area cropped *	Total	Area: Government canals	Area: Private canals

(*a*) See note on page 23

Column 2.—The figures do not agree with those in the forest administration report, because the revenue records do not state the most recent alterations of area due to erosion by the Indus which the forest report does, and because, on the other hand, the forest report does not always exhibit the most recent alteration of area effected by the revision of survey, which the revenue records do

Column 6.—Of the total net cropped area (4,500,259 acres) entered in this column for 1914-15, 4,497,666 acres are based on actual returns and 2,593 acres on estimates

Column 2.—Includes forest areas administered by the district officers of some districts. Hence the figures do not agree with those in the forest administration report which exclude these areas. This column also includes the Siwalik Range in the Dehra-Dun district.

Column 5.—The maximum period for which land left untilled is reckoned as fallow is three years.

Column 6.—Of the total net cropped area (26,877,284 acres, page 74) entered in this column for 1914-15 for the Province of Agra, 26,273,284 acres are based on actual returns and 604,000 acres on estimates.

(*a*) Increase in current fallows is due to decrease in cropped area owing to drought.

Columns 8 to 13.—Government canals include private canals except in Naini Tal, for which district separate figures for private canals have been obtained. From 1903-04, however, the areas irrigated from certain private canals in Budaun and Basti, from 1907-08 such areas in Gorakhpur, and from 1911-12 those in Dehra-Dun, which were formerly included under "other sources," have been shown under the proper head "private canals." There are very few private canals in the United Provinces.

Column 13.—Of the total area irrigated (8,288,124 acres, page 75), in the Province of Agra in 1914-15, 8,252,224 acres are based on actual returns and 35,900 acres on estimates.

Table II—*continued*

* See explanations given in the footnotes (page 68)

(a) Increase in current fallows is due to decrease in cropped area owing to drought

(b) Increase due to afforestation by the Forest Department

Column 2.—Includes all lands specially allotted to forest growth under the control of Government or any Local Board or Municipality

Column 3.—This column includes 23,680 acres of river beds in Gurgaon, 15,360 acres of mountain tracts in Simla, and 3,896,960 acres of mountain tracts in Kangra. These areas are not accounted for in the village papers, and the figures are based more or less on estimates

Column 4.—Includes large areas of Government waste not allotted for cultivation

Column 5.—The maximum period for which land is reckoned as fallow is two years; but, as a change in classification is not generally made until the year for quadrenniai statements comes round, the old classification may be retained from one to three years longer than the prescribed period. In certain districts in the south-west of the province, however, the classification is amended annually

(*a*) See note (*a*) given at foot of page 32. For statistics for the new Province of Delhi, see Table II, No. 25

(*b*) Variations due to unfavourable season

NOTE.—For tracts outside the surveyed area the figures are based on estimates framed in the best manner possible

Column 2.—The area entered in this column is that given in the forest administration report, and includes reserved forests and fuel reserves. From 1906-07 estimates of the forest areas in certain hill tracts have also been included. The forest areas in the Shan States, which are included in the Forest Administration Report, are excluded from this table, no returns of agricultural statistics being prepared for those States.

Column 3.—In settled tracts the unculturable area is taken from settlement registers, but in unsettled tracts it is obtained from the best source available.

Column 4.—Includes land thrown out of cultivation and abandoned. Groves, not classed in the cropped area, and bamboos, when not grown in forest areas, are also included in this column.

Column 5.—Includes only such land left uncultivated as is actually in possession of cultivators. In Lower Burma (excluding the Thayetmyo district) such lands are assessed at privileged rates, but in Upper Burma and in Thayetmyo no assessment is levied on and left uncultivated.

Column 2.—Shows the areas administered by the Forest Department; but the figures differ from those in the forest administration report, because the actual area of the forest is not known owing to incomplete survey, also because excisions made have not yet been taken note of in the forest registers, and because in many cases raiyatwari villages settled, thekadari villages surveyed, clearance leased villages earned in proprietary rights, and villages purchased under the waste-land sale rules, have not as yet been finally disforested and struck off the forest registers. In the case of the Chanda, Drug, Raipur, and Bilaspur districts this column also includes all areas in the zamindars' estates which fall outside the surveyed villages of those estates. These areas are almost wholly under forest and include only a negligible proportion of sparse and shifting cultivation

Column 3.—States areas covered with water, hill, or rock, and land occupied by buildings and roads

Column 4.—States (1) the waste area within holdings (including fallows of more than three years), (2) land under tree forest which is not administered under any Act dealing with forests, (3) land under scrub jungle or grass, and (4) groves not included in holdings

Column 5.—Land which has been fallow for not more than three years is reckoned as current fallow

Column 2.—Includes the forest area administered by the Forest Department, but excludes a large area of cultivated land in the Melghat taluk in Amraoti shown as forest in the forest report

Column 3.—Includes village sites, tanks, and land taken up for public purposes or devoted to uses other than agriculture; it also includes unculturable portions of culturable fields

Column 4.—Includes land available for cultivation but not given out

Column 5.—Includes occupied culturable land left fallow for private reasons, such as grazing, rotation, etc.

Column 2—The figures represent reserved forests, but exclude the areas of forest villages within the reserves which are entered under the appropriate heads of this table

Columns 3 and 4—The figures for unsurveyed tracts in Cachar and for permanently settled tracts in Sylhet are based on estimates. In the Assam Valley unsurveyed waste is divided into culturable and unculturable on the assumption that their proportion in the surveyed area holds good

Column 5—Includes generally all lands which are thrown out of cultivation or not cultivated, but which remain in the occupation of leaseholders. Figures for the Naga and the Lushai Hills are rough estimates

Column 6—The figures are obtained from the abstract crop statement for districts which have been cadastrally surveyed. The figures for the permanently settled estates of Sylhet and Goalpara and for the hill districts are estimates

(*a*) Variations due to revised classification

(*b*) Decrease due to extension of cultivation

Column 2—Includes all lands specially allotted to forest growth under the control of Government or any Local Board or Municipality, and protected village waste in Hazára administered by the district officer and other waste lands in Peshawar

Column 4—Includes large areas of Government waste not allotted for cultivation

Column 5—The maximum period for which land is reckoned as fallow is two years; but, as a change in classification is not generally made until the year for quadrennial statements comes round, the old classification may be retained from one to three years longer than the prescribed period. In Dera Ismail Khan classification is amended according to area of each class of soil actually cultivated each year

This table shows the areas actually sown, whether the crop comes to maturity or not, except in cases when fields, owing to the failure of the first sowings, have been devoted to other crops: in such cases the area first sown is omitted. In cases where two or more crops are grown together, an estimate is made of the area covered by each, and the areas so estimated are separately returned. The estimate is made by the village accountant, or is subsequently determined on formulæ prescribed by the provincial authorities

The variations in the areas shown in different years under the same crop in the same district do not in all cases represent an actual increase or decrease in the area under that crop. In certain cases a revised classification or the correction of a faulty estimate is responsible for the change

Column 10 (*other food-grains including pulses*).—Arhar (pigeon pea), barbati, lobia or chowli (asparagus), mung (green gram), kulthi (horse gram), urad (black gram), field gram, cheick (job's tear), lentils, cheena (common millet), kangni (Italian millet), kodo or varagu, kutki, (little millet), kuhudi, peas, pigeon or bottle grass, swank or shama, chickling vetch, buck wheat, wudalu or barti

Column 28 (other dyes).—Arnatto, chayroot, divi-divi, henna, madder, morinda, safflower, saffron.

Column 31.—In certain cases, notably in Madras, the areas stated under "Tea" differ from those given in the special report on tea production published separately. The principal reason is that the special report is prepared from returns received from managers and owners of estates; and these returns, especially in Southern India, are in many cases inaccurate and defective. Minor discrepancies are also due to the fact that the figures in this table deal with the agricultural year; while those in the special report deal with the calendar year.

Column 35 (other drugs and narcotics).—Aloes, arecanut, sweet basil, betel-vine, country borage, bogoda brinjal or nela mulaka, dhatura, purple flea-bane, isfagul, kolinji or vempali, senna, soap nut, sweet flag.

(a) Increase due to a revised classification of crops.

Fodder crops	Fruits and vegetables including root crops	Miscellaneous crops		Total area cropped during the year	Area cropped more than once	Net area cropped during the year	Province

The area sown with unimportant mixed crops, for which no separate heading is provided in the provincial crop statements, is assigned to the principal crop by the village accountant. The areas of important mixed crops, namely, wheat and barley, wheat and gram, barley and gram, jawar and arhar, bajra and arhar, and cotton and arhar, for which separate headings are provided in the crop statements, are distributed in accordance with prescribed formulæ and entered under the crops of which they are composed.

Columns 3, 4, 5, 6, 9, and 10.—The whole of the area of the land planted with food-grains wheat, barley, etc., mixed with oilseeds is shown under food-grains in this table. The area shown under food-grains which was really planted with oilseeds (as a mixed crop) is roughly estimated to have been 3,970,000 acres in the whole of the United Provinces of Agra and Oudh in 1914-15.

Columns 12, 13, and 14.—The figures shown in these columns represent areas under "pure" oilseeds, *i.e.*, oilseeds sown unmixed with any other crop. Besides these, the oilseeds are thinly sown in combination with wheat, barley, gram, and other crops. If the areas occupied by the scattered plants were added up, it is estimated very roughly that they would amount in 1914-15 (for the whole of the United Provinces of Agra and Oudh) to 620,000 acres of linseed, 1,000,000 acres of sesamum, and 2,350,000 acres of rapeseed.

No statistics are at present prepared by village or circle officers, except in the Sambalpur district. The figures for all other districts entered in this table are, therefore, merely estimates, except those for Patna, Gaya, Shahabad, Saran, Champaran, Muzaffarpur, Darbhanga, Monghyr, Bhagalpur, Purnea, Puri, Cuttack (exclusive of small permanently-settled areas), Balasore, Angul, the Santhal Parganas, Hazaribagh, Ranchi, and Singhbhum; the estimates for these districts are based on the figures collected during the cadastral survey

(b) See foot note on page 43

Naga Hills

The figures for the Khasi and Jaintia Hills and the Lushai Hills are rough estimates. Detailed statistics of the areas under different crops are not available for the cultivated by tribes paying house or poll tax in Lakhimpur, Sibsagar, and Kamrup. In the cacharis of these districts

In Cachar accurate statistics of the area under crops other than tea are available only for the cadastrally surveyed tracts, in Sylhet only for the Jaintia Parganas and Partabgarh, and in Goalpara only for the temporarily settled tracts. The figures for the permanently settled tracts in Sylhet and Goalpara and for the unsurveyed areas in Cachar are based on estimates. The figures for the five upper districts of the Assam valley represent the whole cropped area in these districts, with the exception of a small area

(*a*) In Coorg the table is prepared quinquennially on a census taken every five years. The last census was taken in March 1915 by the circle shánbógs, and the particulars entered in a register maintained under Rule 73 of the Rules framed under the Coorg Land and Revenue Regulation, 1899. Animals in municipal towns are included.

(*b*) An annual census is taken on the 15th March in Manpur

(*c*) The figures in columns 7 to 14 exclude Bengal (see table IV, No. 58)

(*d*) Statistics based on a census taken in 1913-14. Figures for columns 6, 11, 13 and 14 were revised in 1914-15.

(*e*) Included under "Donkeys"

(*f*) Excluding Bengal

Note.—Figures for 1912-13 are based on a cattle census taken in 1912; the figures for most of the districts, in columns 2 and 3 have, however, been revised since the publication of the previous issue of this volume. The census did not take into account the animals named in columns 7 to 11 nor ploughs and carts (columns 12 and 13). The figures for 1910-11 for the districts of the Presidency and Burdwan Divisions and for Darjeeling are based on estimates. The figures for 1907-10 for Faridpur are based on information collected during survey operations conducted in that district in the period mentioned.

Note.—A census is taken every five years in Government (raiyatwari) villages. The last quinquennial census was taken in 1914-15. In inám villages, there is no suitable agency for the work, and Collectors obtain information for these villages as best they can : it is not known to what extent any census is made in them. Previous to 1909-10, no information was available regarding live-stock in permanently settled (zamindari) estates and in towns and cantonments which did not form part of any revenue village ; but from that year statistics based on estimates are furnished for all these tracts.

(*a*) Constituted in 1910-11 out of the Cuddapah and North Arcot Districts

Note.—The figures are collected once in five years. The last quinquennial census was taken in 1909-10. All animals belonging to a family are entered against the name of the head of the family even though the animals are temporarily absent from the village. Animals belonging to other villages are excluded, and those belonging to a roving grazier who has no permanent residence are noted, but are not included in the village resources. The figures are regularly tested by circle inspectors (kanungoes). Stock statistics for the city of Bombay were collected for the first time in 1909-10.

Note.—The table is prepared quinquennially on a census in each district taken every five years. The last census, which was due in 1913-14 but could not be taken in that year owing to famine in some of the districts, was taken in 1914-15 in all the districts, except Almora, Garhwal, and the hill tracts of Naini Tal. In these latter districts the last census was taken in 1912.

Note.—The figures for 1909-10 to 1912-13 are only estimates received from time to time on the basis of settlement records or reports of police enquiries. The figures for 1913-14 shown in the table for all the districts of the Province, except Hazaribagh, Ranchi, Palamau, and Manbhum, were arrived at by a census of live-stock held in these districts towards the end of 1913. For Hazaribagh and Ranchi (excluding the area since transferred to Palamau in the case of the Ranchi District) the figures are based on information collected during survey operations; while the figures for Palamau and Manbhum are based on police reports.

Note.—A census for the whole province is taken every fifth year in the first week of February. The last census was taken in 1914. All cattle in cantonments and municipalities as also those belonging to Government are included

(*a*) Owing to redistribution of territories consequent on the formation of the province of Delhi (*vide* footnote (*a*) on page 32) the figures for Rohtak and Gurgaon were revised in 1912-13

(*b*) See footnote on page 32

Note.—Annual returns of agricultural stock are prepared by village headmen, revenue surveyors, and *taikthugyis*, the enumeration taking place from end of February to middle of March in each year. The figures include all animals in towns and also those employed in each district by Government departments, such as transport, military, police, and by municipalities.

Note.—The figures are collected annually, between the 1st January and the 15th March, by the patwaris in each village for the areas in their respective charges. The total figure is recorded in the tahsil by the kanungo in a village register. The patwari takes into account all animals including those temporarily sent elsewhere (*e.g.*, for grazing), which belong to residents of the village, and excludes animals which are temporarily in the village for grazing or other purposes, but do not belong to residents. Stock in cities, large towns, cantonments, and in forest villages are included.

Note—A census is made annually by the village officers. All cattle belonging to one owner are entered against his name, even though the animals are temporarily absent from the village. When an owner cultivates land in more than one village, the actual number in each particular village on the night of enumeration is entered in the statement for that village. Cattle belonging to other villages, but temporarily in the village for grazing, are not entered in the statement for that village.

Note.—The statistics are based on a cattle census taken every five years. The census is, however, not taken simultaneously in the different districts. In the six districts of the Assam valley and in the central and eastern sections of the North-East Frontier district the last census was taken in 1915. In Cachar it was taken in 1912, in the Garo Hills (plains portion only) in 1913, and in the temporarily settled portion of Sylhet in 1910. No statistics are available for tracts other than Jaintia parganas in Sylhet, and for the hill tracts

(*a*) For Jaintia Parganas only. The figures for 1904-05 include estimates for other tracts also, but such estimates are not available for 1909-10

(*b*) No information

(*c*) See foot note on (page 43)

1914-15	...	...	...	44,588,115	29,468,100	9,472,905	2,464,399	41,405,404

Note.—The varieties of tenure are included, as far as possible, under one or other of the following heads, namely, (1) raiyatwari, (2) zamindari and village communities (temporarily settled), and (3) zamindari (permanently settled). Areas under forests are included under the prevailing tenure of the province. In the Central Provinces and Berar, however, areas under Government forests are shown separately.

Entry 2 (a).—Areas held revenue-free or at privileged rates are deducted, but the deduction need not be made where such areas are in any case less than an entire village, and where there is any difficulty in estimating the corresponding deduction to be made in the population (head 10). In Madras, Bombay, and Berar all land on which a full assessment has not been leviable during the year (for instance, assessed unoccupied land) is classed for the purposes of this head as "area not fully assessed." Area should not be entered under this head merely because the assessment due from them has been suspended or remitted on account of short crops, or for other special reasons.

Entry 3.—This head is subdivided into (*a*) total fully assessed area for which returns are available, and (*b*) area cultivated out of the area given in head (*a*). The latter head should be equal to the former after deducting current fallows and fully assessed waste, and should be either equal to or less than the net cropped area as shown in column 6 of Table II.

(§) The land revenue assessment necessarily differs from the land revenue collections which include collections on account of former balances and exclude so much of the assessment as has not been collected during the year

* No details. † Includes 1,360,300 acres (in Dinajpur) for which details are not available

Entry 4.—Where the land revenue includes the zamindar's share, the net demand is entered, and the table states the payments due by the zamindars to Government, not those due by raiyats to the zamindars. The actual realisable demand on account of the year is entered after excluding arrears for past years. This column includes all the heads classed as "Land Revenue" in the Civil Accounts. The heads are :—(1) ordinary revenue comprising fixed collections, revenue from canals in Sind, fluctuating collections (including nazarana), over collections (Bombay), surplus collections, collections from Government estates, kyun tax (Burma); (2) sale of Government estates, (3) sale proceeds of waste lands, and redemption of land tax; (4) redemption of summary settlement cess; (5) moturpha (house tax) collections; (6) assessment of alienated lands less quit rent; (7) recoveries on account of survey and settlement charges (Bengal); (8) rents, etc., of fisheries; (9) receipts for the improvement of Government estates; (10) 12 per cent on collections from Government estates (Bengal); and (11) miscellaneous, comprising receipts on account of land registration fees, receipts from quarries and minor mineral products in forests and lands not under the management of the Forest Department, water mills rent, huccoba tax (Sind), malikana or allowances to excluded proprietors, fines and forfeitures of revenue Courts (except in Bengal and Assam), receipts under Madras Act II of 1864, capitation tax (Burma), petroleum well revenue, jade and amber revenue, thathameda tax (Burma), receipts from ruby mines (Burma), recoveries in India of law charges in England on account of appeals from India, miscellaneous receipts, rents of railway class C land and rents of buildings situated on such lands.

Entry 5.—The population is that of the last general census.

The table is prepared quinquennially, and the figures were last collected in 1912-13

Column 1.—The following classification of estates has been adopted: —

(1) *Zamindari* (*permanently settled*) including estates managed for proprietors by Government.

(2) *Zamindari* (*temporarily settled*) comprising (*a*) all temporarily settled estates, namely, those settled for periods with proprietors, and estates leased to farmers for periods; and (*b*) all estates owned by Government as proprietor.

Column 4 (*b*) includes in certain cases fully assessed current fallows.

Column 5 includes all the items falling under the head "Land Revenue" in the Civil Accounts.

Land revenue assessed on fully assessed area [col. 4(a)].	Incidence per acre of land revenue (col. 8) on fully assessed area (col. 4)		Population of fully assessed area	Land revenue assessment per head of population of fully assessed area (columns 8 and 11)	Towns of over 10,000 inhabitants		District and nature of tenure

The table is prepared quinquennially. The figures were last collected in 1913-14.

Column 3 (*a*).—In the case of raiyatwari tracts this column states the area of unoccupied assessed lands, of all unassessed poramboke, of minor inám lands in Government villages held rent-free or subject to quit-rent, and of forest lands, excluding portions of the first mentioned two classes occupied under "miscellaneous;" and in the case of zamindari tracts the areas of hills, porambokes, and minor ináms are entered. The entire area of whole inám villages is deducted in this column.

Column 3 (*b*)—Raiyatwari; includes the area of certain Agency tracts in Ganjam, Vizagapatam, and Godavari, and also the difference between the area by professional survey and the area according to village papers.

Column 4 (*a*).—The figures for the raiyatwari tenures in this column are taken from village papers which differ in some cases from the resultant of preceding columns.

Total revenue from land per head of population (cols. 5 and 6)	Land revenue assessed on fully assessed area [col. 4 (*a*)]	Incidence per acre of land revenue (col. 8) on fully assessed area (col. 4)		Population of fully assessed area	Land revenue assessment per head of population of fully assessed area (cols. 8 and 11)	Towns of over 10,000 inhabitants		District and nature of tenure

Column 4 (a).—Raiyatwari; states the total occupied area as stated in village papers.

Column 4 (b).—For certain districts areas actually cultivated and for certain others estimates, or actuals supplemented by estimates, are shown in this column.

Column 5 includes all the items falling under the head "Land Revenue" in the Civil Accounts.

Column 8.—Shows only the "ordinary revenue," as defined in the Civil Accounts, on area fully assessed.

Column 10.—The cultivated area is, in the case of raiyatwari and zamindari lands, the net cropped area out of the area given in column 4 (*a*).

Column 11 states the entire population of raiyatwari and zamindari villages, respectively.

This return was up to 1911-12 prepared annually; it will now be prepared quinquennially.

Column 1.—Lands held under special tenures, such as talukdari, mehwási, udhad-jamabandi, narvadari, and bhagdari in Gujarat and khoti and izafat in the Konkan, are classed as "zamindari and village communities (temporarily settled)".

Column 3 (*a*) includes alienated area and the area held free of revenue or the revenue of which has been reduced by special agreement, and also the fully assessed unoccupied area.

Column 3 (*b*) includes land not available for cultivation or unassessed.

Column 4 includes land under temporary cultivation, also pót ináms paying full assessment.

Column 5 states ordinary and miscellaneous land revenue appearing in the Civil Accounts.

Total revenue from land per head of population (cols. 5 and 6)	Land revenue assessed on fully assessed area [col. 4(*a*)]	Incidence per acre of land revenue (col. 8) on fully assessed area (col. 4)		Population of fully assessed area	Land revenue assessment per head of population of fully assessed area (cols. 8 and 11)	Towns of over 10,000 inhabitants		District and nature of tenure

Column 10.—The incidence is calculated from the occupied area, which, in the Presidency proper, is treated as the cultivated area for the purposes of this table, and the assessment on that area.

Column 11 includes population of pôt ináms and the like scattered areas which cannot be distinguished from the population of the fully assessed area.

Column 12.—The incidence is based on the figures given in column 11 and those in column 8, *plus* the amount of full assessment on privileged lands held in fully assessed villages at less than that assessment.

The table is prepared quinquennially, and the figures were last collected in 1911-12.

Column 3 (a) and 3 (b) exclude small revenue-free plots, for which details are not forthcoming.

Column 5 states—(1) "ordinary revenue," comprising (*a*) fixed collections, (*b*) fluctuating collections (including collections from estates under direct management, (*c*) surplus collections, and (*d*) collections from Government estates; (2) sale-proceeds of Government estates; (3) sale-proceeds of waste lands and redemption of land tax, comprising (*a*) capitalised value of abatement of land revenue, etc., and (*b*) other receipts; (4) "miscellaneous," comprising (*a*) malikana revenue, (*b*) fines and forfeitures of revenue courts, (*c*) recoveries in India of law charges in England on account of appeals from India, (*d*) rent of railway class C lands and rents of buildings situated on such lands, (*e*) recoveries on account of law charges in civil suits, (*f*) recoveries of cost of erecting boundary pillars, (*g*) contribution on account of establishment for attached estates, (*h*) miscellaneous receipts, (*i*) mutation fee, (*j*) mutation fines, (*k*) sale of waste paper, (*l*) land revenue on resumed gorait jagirs in Basti, (*m*) receipts from quarries and minor mineral products in forests and land not under the management of the forest department, (*n*) recoveries of building advance to patwaris, (*o*) water mill rent, (*p*) voluntary contributions for the maintenance of special patwari circles, and (*q*) patwari miscellaneous receipt (including receipts for sale of waste patwari records).

Column 6.—The total population of the province includes the population of the Benares State.

Total revenue from land per head of population (cols. 5 and 6)	Land revenue assessed on fully assessed area [col. 4 (*a*)]	Incidence per acre of land revenue (col. 8) on fully assessed area (col. 4)		Population of fully assessed area	Land revenue assessment per head of population of fully assessed area (cols. 8 and 11)	Towns of over 10,000 inhabitants		District and nature of tenure

No figures have been entered in columns 8 to 12 opposite "Lucknow, permanently settled," (page 303) as no portion of the permanently settled area has been fully assessed to land revenue.

Column 11 includes population of revenue-free lands when the area of such lands is less than an entire village. The inclusion does not materially affect the incidence entered in column 12.

Columns 13 and 14.—The figures are taken from the census reports of 1911.

The table is prepared quinquennially, and the figures were last collected in 1910-11. The tenure in Ajmer-Merwara is all zamindari, and includes village communities in the case of temporarily settled areas

Column 1.—The khalsa area has been classed as "Zamindari and village communities (temporarily settled)" and the jagir and istamrári areas as "Zamindari (permanently settled)"

Column 4 includes in the case of the khalsa villages the assessed cultivated area, including assessed fallows

Column 5 states ordinary and miscellaneous land revenue appearing in the Civil Accounts

†Included under Ajmer

For tracts outside the surveyed area the figures are mostly based on estimates framed in the best manner possible.

Column 1.—No areas are classed as zamindari, as no system of communal assessment prevails.

Column 3 (*a*) shows grants under Appendices I and II of the Rules under the Upper Burma Land and Revenue Regulation.

Column 3 (*b*) includes non-State lands in districts where no land revenue rates are yet imposed and where the *thathameda* rates have not yet been adjusted.

Column 4 (*a*) shows figures of State and non-State lands assessed to land revenue, including current fallows which are not assessed to land revenue. This column also includes the areas of waste land grants of which the rates have been fixed in perpetuity.

Column 5 states ordinary land revenue, *thathameda*, water rate, rents of fisheries, and items under "Miscellaneous Land Revenue," appearing in the Civil Accounts.

† Not available

Column 8 states the ordinary land revenue, as defined in the Civil Accounts on areas fully assessed.

Column 11.—The population of villages and kwins is considered as belonging to fully or not fully assessed area accordingly as the greater portion of the village or kwin lands are or are not fully assessed.

For tracts outside the surveyed area the figures are mostly based on estimates framed in the best manner possible.

Column 1.—No areas are now classed as *zamindari*, as no system of communal assessment prevails.

Column 3 (*a*) includes special grants which are not yet fully assessed.

Column 3 (*b*) includes old grants exempt from the payment of revenue under special terms.

Column 4 (*a*) states the areas of occupied lands, cultivated or left fallow; it also includes the areas of waste land grants of which the rates have been fixed in perpetuity.

Column 4 (*b*) excludes current fallows.

Column 5 shows ordinary land revenue, rents of fisheries, and the items under "Miscellaneous Land Revenue," appearing in the Civil Accounts.

Total revenue from land per head of population (cols. 5 and 6)	Land revenue assessed on fully assessed area [col. 4(a)]	Incidence per acre of land revenue (col. 8) on fully assessed area (col. 4)		Population of fully assessed area	Land revenue assessment per head of population of fully assessed area (cols. 8 and 11)	Towns of over 10,000 inhabitants		District and nature of tenure

Column 1—Zamindari (temporarily settled) includes malguzari and the kadari.
Column 2 states the area by village papers (column 6 of table I, No. 20).
Column 3(a)—Zamindari estates properly so-called (that is, excluding malguzari) are classed as not fully assessed.
Column 4(b) excludes fallows.
Column 5—The figures represent different items of land revenue for different districts, no uniform practice having been followed throughout the province.

Column 3(a)—This column states jagir, izára, and palampat villages, all unassessed land, forest areas, village sites, roads, rivers, etc.
Column 4(a)—*Pót kharáb* lands are excluded from this column, which includes only occupied lands available for cultivation.
Column 4(b) states the cultivated area in khalsa villages only.
Column 5—The figures include the revenue derived from jagir, palampat, and izára villages. As regards the items of land revenue included, the practice has not been uniform, different districts having entered different items.

Total revenue from land per head of population (cols. 5 and 6)	Land revenue assessed on fully assessed area [col. 4(*a*)]	Incidence per acre of land revenue (col. 8) on fully assessed area (col. 4)		Population of fully assessed area	Land revenue assessment per head of population of fully assessed area (cols. 8 and 11)	Towns of over 10,000 inhabitants		District and nature of tenure	
		For total area	For cultivated area			Number of towns	Aggregate population

Column 8 shows assessment on occupied lands only, as stated in column 4(*a*)
Column 10—The incidence has been calculated on the area entered in column 4(*b*), that is, the cultivated area in khalsa villages only.
Column 11 excludes population of jagir and izára villages.

Column 1—Raiyatwari includes, besides raiyatwari tenures, all unsettled Government waste and forest lands and areas in which house-tax or poll-tax is levied; it also includes certain temporarily settled estates in Sylhet which were formerly (before 1902-03) included under Zamindari (temporarily settled). *Zamindari (temporarily settled)* includes, besides temporarily settled Zamindari estates, fee-simple grants, wholly or partially revenue-free tenures, and grants under progressive assessment.

Column 5 includes all the items falling under the head "Land Revenue" in the Civil Accounts.

* No information

Right of occupancy	...	...	...	...	...	15,206	16,920	16,901	17,872	17,777

Notes—It is optional with local Governments to enter or omit transfers of lands held by tenants.

The entries under "by order of court" state not merely the transfers occasioned by debt, but all forms of transfer effected through the medium of a court. The word "court" in the entry "by order of court" should be held to include a revenue court.

Changes of entry due to succession, partitions, or simple mortgages, are not really transfers, and are excluded from the table, as also are redemptions of mortgage. All temporary transfers such as leases are also excluded, but mortgage with possession is treated as a transfer and entered in the table.

(*a*) Table discontinued.

(*a*). The statement includes all legal transfers of property (1) by voluntary action of the owners and (2) by virtue of decrees of civil, and orders of revenue, courts. Transfers ordered by courts in cases of disputed succession, and those occasioned by debt incurred by the judgment-debtors, are included under the heading "by order of court." This heading also includes transfers ordered by civil courts from registered holders to decree-holders, of lands sold by civil courts in satisfaction of decrees, and of holdings sold by the revenue authorities for arrears of revenue

(*b*) Transfers of property in land are not permitted in Manpur, except by sale and that only under special conditions.

* Not stated

Note.—Only permanent transfers, as by sale or gift, are included, when the parties concerned apply for and obtain transfers of revenue registry. These are entered under "private contract or gift." Cases in which lands are sold for arrears of revenue due to Government are also included if the lands are purchased by private parties, but excluded if the lands are purchased by Government. Transfers of tenant-right are not entered, the information not being available. The entry under the head "revenue-paying" includes raiyatwari holdings paying full assessment, and permanently-settled estates paying *peshkash*; and the entry under the head "wholly or partially revenue-free" relates to minor ináms and whole inám villages. The table has been discontinued from 1913-14

Note.—Transfers by inheritance or non-permanent transfers, such as leases or usufructuary mortgages for short periods, are excluded, but mortgages with possession are included, as also all transfers made under order of a court. Transfers of *malikana* rights, that is, rights to receive a portion of the profits of an estate not amounting to proprietary rights, have been excluded. Statistics of transfers of tenant-right are not given. Transfers by gift have been included.

Note.—Transfers of property in land were not regularly registered in Upper Burma until 1st January 1914. The information is collected by revenue officers. The statement includes cases in which land has been permanently transferred by gift, sale, or other transactions, for valuable consideration. The term "court" includes a revenue office as well as a civil court.

Note.—The figures against "proprietors" are filled up from returns compiled on the basis of mutation proceedings. Those against "tenants" are based on statements furnished by patwaris in which all transfers are entered, including transfers by mortgage with possession as well as transfers by sale, but excluding transfers by inheritance. The statement does not include leases or mortgages without possession.

Note.—The information is obtained from the Registration Department. The table includes all transfers effected by sale of fields under decree of a court (including a revenue court) either in execution of the decree or for recovery of arrears of land revenue. Private sales or recognised divisions of fields necessitating a change in the name of the registered occupant are entered under "by private contract or gift," as also are mortgages with possession. Transfers due to succession, by inheritance, simple mortgages, and leases are omitted

APPENDICES

APPENDIX A

Average yield, in pounds per acre, of the principal cultivated crops, revised with reference to the results of experiments made up to the year 1911-12.

A provisional return of the yield of the principal crops cultivated in India was first compiled in 1892, from various statistical publications, such as, agricultural and settlement reports, crop forecasts, gazetteers, replies to the enquiries of the Famine Commission, etc., and to provide for the periodical revision of the estimates a system of experimental crop cuttings was prescribed by the Government of India, the results of which were to be reported in quinquennial returns.

The instructions for the preparation of these returns are that the estimate given should be that of the average outturn on average soil in a year of average character as deduced from a consideration of the information obtained or experiments made during the years under review; so that when multiplied by the average area cropped, it may give as near an approximation as possible to the outturn of the crop in an average year. The Agricultural Department of each Province has at its disposal a provisional estimate of the average yield of land of average quality (under the two major heads of irrigated and unirrigated land) for the several crops in each district. The object of the experiments annually made is to test the accuracy of these estimates, and to enable the head of the Agricultural Department in each province to revise his provincial estimates when necessary. Should it happen that the period has been one of unfavourable conditions which have affected the experiments reported, this would not necessarily involve the reduction of the standard estimates for the district or for the province, unless there were other reasons for thinking that, as estimates of yield in average years, they had been pitched too high.

As a result of the experiments made during the preceding quinquennium (1901-02 to 1906-07), considerable modification of the standard averages for several of the crops was made in all the provinces except Bombay and Bengal. Some three or four provinces have made a few revisions of this character on the results of the experiments conducted in the quinquennium 1907-08 to 1911-12; but, on the whole, the distrust in the results of the experiments as conducted by the district staff, to which expression was given by Bombay and Bengal on the last occasion, is growing. In the Bombay Presidency a system of more scientifically conducted experiments by officers of the Agricultural Department has been substituted for the system of experiments conducted by the district staff. In the Punjab and Sind the estimates framed by settlement officers at the time of revenue settlement have been preferred where these are available, while in certain other provinces the figures of the settlement officers have been freely referred to in checking the averages. In Bengal and Bihar and Orissa, although no change has been made in the system, the results of experiments made during the last twenty years have not been considered sufficiently reliable to justify any material change in the provisional estimates framed in 1892. In Burma the system has been condemned; but the provincial authorities do not consider any change feasible for the present. [Instructions have since been issued by the Government of India for improving these returns and employing the agency of the Agricultural Department for the investigation of average crop outturns as far as possible, in all provinces.]

The leading features in the different provinces are stated in the following paragraphs:—

Bengal.—Owing to the administrative changes of 1912, by which Bihar and Orissa have been formed into a separate province, certain crops, which are important in that area but hardly grown at all in Bengal as now constituted, have been omitted from the present report. The results of the experiments made in the quinquennium under review do not warrant any general conclusions as to the average yields of the various crops, nor do they, except in the case of rice, sugarcane, and jute, afford grounds for modifying the provisional estimates hitherto adopted by the Agricultural Department (which are practically a reproduction of the estimates of 1892). The average yield of winter rice has been reduced from 1,234 lbs to 983 lbs; on the other hand, the yield of sugarcane has been raised from 2,460 lbs to 2,905 lbs and that of jute from 1,200 lbs (3 bales) to 1,271 lbs (3·1 bales). In the consolidated tables for British India, the provisional estimates, therefore, continue to appear with these modifications in the statement of provincial averages, but in the detailed table the average outturn based upon the experiments of the quinquennial period under review is shown for each district.

Madras.—The experiments accepted as unobjectionable during the quinquennium were 3,385 in number as against 3,348 in the previous quinquennium. The average assessment of the plots of land selected for experiment is in excess of the average assessment of the province; in many cases, therefore, the land selected is apparently superior to average class of land. The yield of the majority of crops has been raised, especially in the case of cotton and irrigated jawar: the yield of irrigated cotton has been raised from 66 lbs to 87 lbs and of unirrigated cotton from 44 lbs to 55 lbs, and of irrigated jawar from 1,118 lbs to 1,379 lbs. The only decreases relate to sesamum and unirrigated rice. The reported yield of paddy (unhusked rice) has been reduced by 38 per cent to obtain the yield of rice (husked).

Bombay.—The estimates of 1897 were prepared with great care and the results of the experiments made in the two quinquennia ending 1901-02 and 1906-07 were not considered sufficiently reliable to justify any revision. With the sanction of the Government of India the system of crop cutting experiments conducted by the district staff was abolished in the quinquennium under review, and a system of more scientifically conducted experiments on Government farms by the officers of the Agricultural Department was substituted. But the results as yet obtained from the experiments on Government farms are too meagre to justify a general revision of the estimates. A few changes considered to be necessary by the Provincial Director have, however, been made with great caution in the figures for certain districts.

Sind.—In many cases figures taken from the previous report have been repeated, while in several instances figures have been taken from the settlement reports. Of the experiments selected as giving results typical of an average crop during the present quinquennium three were on wheat, one on jawar, two on bajra, one on gram, and one on cotton. As a result, the provincial average has been raised in the case of wheat, jawar, bajra, gram, rapeseed and cotton, while it has been reduced in the case of sesamum ; the most important changes being the increase of the average yield of cotton from 308 lbs to 380 lbs, and that of bajra from 776 lbs to 971 lbs.

United Provinces.—The experiments made during the quinquennium under review have not necessitated any change in the provincial averages except for rice and maize. The yield of rice has been raised from 850 lbs to 900 lbs and that of maize from 1,050 lbs to 1,100 lbs.

Bihar and Orissa.—The present return relates to the province of Bihar and Orissa as constituted in 1912. Owing to carelessness in the selection of representative fields and to various other defects in the conduct of the experiments made in the quinquennium under review, the results arrived at do not afford any reliable information or justify any modification of the provisional estimates previously adopted by the Agricultural Department of the old province of Bengal on the basis of the estimates of 1892. In the consolidated tables for British India, these unrevised provisional estimates have therefore been retained in the statement of provincial averages, but in the detailed statement of district figures the average outturn based upon the experiments conducted during the quinquennium under review has been shown for each district, irrigated and unirrigated crops being classified separately.

Punjab.—The revisions of 1902 and 1907 were made on the basis of very unscientifically selected and inadequately supervised experiments carried out by the district staff without reference to the very careful estimates framed by the settlement officers at the time of revenue settlement. The present revision has been made in consultation with settlement officers in the case of districts of which the settlement is in the early stages, while in other cases the average yield has been worked out mainly from the areas and yields given in the assessment reports, and where the results differed materially from the yields fixed in 1907 without any change in agricultural conditions having taken place, the settlement officers' estimates have been preferred. There is no doubt that the yields now fixed, based as they are on the over-cautious estimates of settlement officers, are too low, but they are at any rate placed on a uniform basis. The result of the revision is a reduction of the yields of all the crops except rapeseed and sugarcane the averages for which have been raised. The most important changes are the reduction of the yield of bajra from 462 lbs to 379 lbs and of that of gram from 701 lbs to 549 lbs, and the increase of the yield of rapeseed from 254 lbs to 396 lbs.

Burma.—The number of experiments made in the quinquennium ending 1911-12 was on the whole larger than in the previous quinquennium, and, as in the past, the majority of the experiments were conducted by sub-divisional and township officers. The Provincial Director of Agriculture remarks that this arrangement is far from satisfactory, that the improvement of the system was considered, but that no change appears to be feasible for the present. In order to show the main product only, the following deductions have been made from the gross outturn of the crops, namely, for rice and jawar 33 per cent, and for cotton 70 per cent. The estimates of average outturn of rice, wheat, jawar, and gram have been lowered while those of cotton and sesamum have been raised. The figures for the bean crop now discriminate between *Pegyi* (*Dolichos lablab*) and *Pegya* (*Phaseolus lunatus*) which are the most important varieties exported.

Central Provinces and Berar.—Experiments have been selected with greater care in the present quinquennium than in the past, and due attention has been given to seasonal peculiarities and to classes of soil. The average yield has been raised in the case of rice, jawar, gram, linseed, and sugarcane, and lowered in the case of sesamum and cotton. In order to show the yield of the main product a deduction of 38 per cent has been made in the case of rice and of 70 per cent in the case of cotton.

Assam.—In the previous quinquennium figures for Assam were not shown separately, but they were combined with those for the districts of Eastern Bengal to give the average for the province of Eastern Bengal and Assam. The present return has been prepared for the province of Assam since its re-constitution on 1st April 1912. Detailed figures for each district are not available except for winter rice, rape and mustard, sugarcane, and cotton ; these show a general increase over the previous estimates. In the case of cotton a deduction varying between 50 and 60 per cent has been made to obtain the yield of cleaned cotton. In almost all districts the number of experiments conducted during the period under review fell short of that made in any of the previous periods. The results, however, are stated to have been generally

reliable and to have tallied for the most part with the estimates made by settlement officers in some of the districts where important settlement operations were in progress.

North-West Frontier Province.—In the five years under review experiments were made by the district staff in only two districts, and the figures for those districts have been checked and modified where necessary on the basis of those experiments. For the other districts the averages previously adopted on the basis of estimates framed by settlement officers have been repeated. The Provincial averages have been raised slightly for all the crops except maize for which the figure has been reduced from 1,342 lbs to 1,292 lbs.

Ajmer-Merwara.—The figures reported appear to be merely averages of the results of the experiments conducted during the five years of the period without any consideration as to whether any of those years was of an average character or not. The yield of barley, maize, and cotton has been raised and that of jawar lowered, the most important change being the reduction of the yield of jawar from 424 lbs to 137 lbs. A reduction of 70 per cent has been made, as before, to obtain the yield of cleaned cotton.

Coorg.—The only experiments made have as usual been on rice. The average yield has been lowered from 1,507 lbs to 1,483 lbs, which is still very high in comparison with the reported yield of other provinces, but is ascribed partly to increased attention being paid to rice cultivation since the decline of the coffee industry and partly to the rice lands of Coorg being watered by hill streams which contain much manurial matter. [From experiments since made the average outturn comes to 1,316 lbs.]

Mysore.—The rainfall in the quinquennium under review is stated to have been generally erratic. The average yield of rice has been reduced from 879 lbs to 841 lbs, of sesamum from 215 lbs to 199 lbs, of sugarcane from 3,279 lbs to 3,138 lbs and of cotton from 89 lbs to 79 lbs, while that of ragi has been raised from 562 lbs to 581 lbs and of horse gram from 229 lbs to 257 lbs.

APPENDIX C

VERNACULAR TERMS USED IN VOLUME I OF AGRICULTURAL STATISTICS OF INDIA

Agasi, agati, or avati (*Sesbania grandiflora*)—A vegetable crop.

Ajmud (*Carum Roxburghianum*)—A kind of spice.

Ajwan (*Carum copticum*)—A kind of spice, "Bishop's weed."

Akurkura or jevandi (*Chrysanthemum coronarium*)—A non-food crop.

Amada or mamidi allam (*Curcuma amada*)—A condiment.

Ampazham (*spondius magnifera*)—The hog plum.

Arhar (*Cajanus indicus*)—The pigeon pea.

Arunelli (*Phyllanthus distichus*)—Country star gooseberry.

Bajra (*Pennisetum typhoideum*)—The spiked millet.

Bané (Coorg)—Forest land granted for the service of the holding of rice-fields to which it is allotted, to be held free of revenue for grazing, leaf manure, firewood, and for timber required for the farm.

Barbati (*Vigna catjang*)—Asparagus, a food grain.

Barti (*see* Wudalu).

Bel (*Ægle Marmelos*)—A fruit.

Bhagdari (*see Narvadari*).

Bilimbi (*Averrhoa Bilimbi*)—A fruit.

Bimb (*Cephalandra indica*)—A fruit.

Chaplash (*Artocarpus Chaplasha*)—A tree grown mainly for timber.

Chayroot (*Oldenlandia umbellata*)—A dye.

Cheena (*Panicum miliaceum*)—The common millet.

Cheik (*Coix lachryma-jobi*)—A food grain, "Job's Tear."

Chikkudukayalu (*Dolichos lablab*)—The Indian or popat bean.

Cholam (*see* jawar).

Cholanathu (*Andropogon sorghum*)—Fodder jawar.

Chowli (*see* Barbati).

Cumbu (*see* Bajra).

Dani (*Nipa fruticans*)—A soboliferous palm, the leaves of which are used for thatching purposes, also for matting.

Dhaincha (*Sesbania aculeata*)—A plant cultivated mainly for green manure.

Dhatura (*Datura alba*)—A drug.

Dividivi (*Cæsalpinia coriaria*)—A dye.

Gajar—Carrot.

Garmal (*Coleus barbatus*)—A fruit.

Gondli (*see* Kutki).

Gorait (United Provinces)—Village watchman.

Henna (*Lawsonia alba*)—A dye.

Inám (Madras)—Alienated villages or lands granted rent-free. *Whole inám* villages are *entire* villages held on such tenure; *minor ináms* are portions of villages, generally a number of fields, held on *inám* tenure.

Isfagul (*Plantago ovata*)—A drug.

Istamrári (Punjab, Ajmer-Merwara)—A tenure which, though the revenue is assigned, is charged with a permanently fixed quit-rent.

Izáfat (Bombay)—A form of service tenure.

Izára (Berar)—Land leased under the waste-land rules on stipulated terms.

Jagír (Berar)—Alienated villages or lands granted as rewards for service either rent-free or on payment of a quit-rent; such lands are hereditary.

——(Ajmer-Merwara)—Land granted revenue-free on condition of military service or as a charitable endowment.

——(Bombay)—Estates held hereditarily or for one or more generations on political considerations, no condition of service being attached to them.

——(Coorg)—Lands granted rent-free (1) to individuals on account of services rendered to the State by themselves or their ancestors, and (2) to some religious institutions.

Jambo or naval—Black plum.

Jamma (Coorg)—A tenure under which lands are held on half the ordinary assessment on condition that the holders should perform certain services to Government, if required, such as escorting Government treasure and rendering assistance to revenue officers on tour. These lands are inalienable without special sanction.

APPENDIX C—*continued*

VERNACULAR TERMS USED IN VOLUME I OF AGRICULTURAL STATISTICS OF INDIA—*continued*

Jawar (*Sorghum vulgare*)—The great millet.

Jenugulu—Asparagus.

Jinjili (*Sesamum indicum*)—An oilseed.

Jira—Caraway.

Jodi (Madras)—Portion of the assessment reserved or left unalienated when lands were originally granted on favourable assessment. It is distinguished from quit-rent, which represents an additional charge (generally a certain proportion—one-eighth, one-fourth, one-half, or five-eighths—of the full assessment, *minus* the *jodi*) imposed when the tenures were enfranchised or converted into free-holds.

Kalpayaru—Kidney bean.

Kangni (*Panicum Italicum*)—Italian millet.

Kamranga (*Averrhoa Carambola*)—A fruit.

Kanda (*Dracontium*)—A vegetable crop.

Kankrol (*Momordica cochinchinensis*)—A vegetable crop.

Karola (*Momordica Charantia*)—A vegetable crop.

Karuvapilai (*Murraya Konigii*)—A condiment.

Kavali (*Sterculia urens*)—The Indian katura, a fruit.

Kavathu (*Dioscorea alata*)—A tuber used as a food stuff.

Kodo or *Kutki* (*Paspalum Scrobiculatum*)—A kind of millet.

Khálsa (Bombay)—Government occupancy or raiyatwari tenure.

——(Central Provinces)—Areas settled on malguzari or thekadari tenure, in contradistinction to zamindari.

——(Berar, Ajmer-Merwara)—Land paying full revenue to Government.

Khatedar (Berar)—A registered occupant whose name is entered by authority in the Government records as holding unalienated land.

Khiraj (Assam)—Land assessed to full revenue.

Khoti (Bombay)—A form of tenure, found chiefly in the Konkan, the holder of which is, in return for certain semi-proprietary rights, held responsible for payment of assessment on the area held.

Kirni (*Mimusops hexandra*)—A large tree cultivated chiefly in north-western India. It produces an olive-shaped yellow berry which is eaten chiefly during times of scarcity, and in the hot weather.

Korai—The Indian matting sedge.

Kolinji (*Tephrosia purpurea*)—A drug.

Koorka (*Strobilanthes*)—A vegetable crop.

Kuhudi (*Panicum trypheron*)—A food grain.

Kulthi (*Dolichos biflorus*)—Horse gram.

Kutki (*see* Kodo).

Kwin (Burma)—An area averaging about one square mile selected as a survey unit on account of some natural features or administrative boundaries.

Lakhiraj (Assam)—Revenue-free land.

Lobia (*see* Barbati).

Madder (*Rubia tinctorum* and *R. cordifolia*)—A dye.

Mahalkari (Bombay)—A revenue and police officer in charge of a sub-division of a taluk.

Makhan sim—The sword bean.

Malguzari (Central Provinces)—A form of tenure, the holder of which is responsible for the payment of the revenue assessed on a village.

Mamlatdar (Bombay)—The chief revenue and police officer (native) in charge of a taluk.

Mankachu (*Alocasia indica*)—A root crop.

Marua (*Elusine coracana*)—A kind of millet.

Marukkolundu (*Artemisia vulgaris*)—The Indian worm wood.

Mehwasi (Bombay)—A proprietary tenure assessable to revenue at a lump sum.

Muafi (Manpur)—Any kind of land held revenue-free either for a fixed period or in perpetuity, but the term does not ordinarily apply to jagirs.

Mung (*Phaseolus Mungo*)—Green gram.

APPENDIX C—*continued*

VERNACULAR TERMS USED IN VOLUME I OF AGRICULTURAL STATISTICS OF INDIA—*contd.*

Munsarim (Berar).—A head native revenue officer.

Narvadari, Bhagdari (Bombay).—Forms of proprietary tenure involving joint responsibility for the assessment: the revenue in the former case being fixed in the lump, and in the latter distributed by rates over fields.

Neerali (*Gynocordia odorata*).—An oilseed.

Neem or Margosa (*Melia azadirachta*).—A non-food crop.

Nela mulaka (*Solanum xanthocarpum*).—The bogoda brinjal, a drug.

Nisfkhiraj (Assam).—Land liable to pay half the revenue which is ordinarily payable for the term of settlement.

Palampat (Berar).—Land held on payment of a quit-rent, but not necessarily hereditary.

Odamula (*Ochalandra Rheedii*).—A reed.

Ol or zaminkand.—The elephant foot, a root crop.

Panchayat (Bengal).—A committee of five respectable persons nominated or appointed by local officers of Government in a village or group of villages for the settlement of petty disputes among the people and for dealing with other small local matters, such as caste, occupation, sanitation, etc.

Papay (*Carica papaya*).—A fruit.

Parpattigar (Coorg).—A revenue officer in charge of a sub-division of a taluk.

Parvar (*see* Patol).

Patel (Coorg).—Village headman appointed by Government.

Patol (*Trichosanthes dioica*).—A vegetable crop.

Peshkash (Madras).—The fixed land revenue payable to Government on all permanently-settled estates.

Pimakottai or pouna.—The mast wood.

Ponnagantikura (*Alternanthera sessilis*).—A vegetable crop.

Poramboke (Madras).—Lands reserved for public or village communal purposes.

Pót ináms (Bombay).—Lands sub-alienated in alienated villages.

Pót kharáb (Berar).—The unculturable area included in a survey number.

Puliyavara (*Oxalis corniculata*).—A vegetable crop.

Ragi (*see* Marua).

Rayatwari.—State lands leased to cultivators for a fixed term. A form of tenure in which the settlement of revenue is made by Government with each individual occupant or cultivator of the land for a given term, without the intervention of a third party.

Randhuni (*see* Ajmud).

Sabai grass (*Ischœmum Augustifolium*).—A fibre plant.

Sank-alu (*Pachyrhizus angulatus*).—A root crop.

Sapodilla (*Achras Sapota*).—A fruit.

Sebestan (*Cordia Myxa*).—A fruit.

Shanbóg (Coorg).—A village accountant appointed by Government.

Shrotriem (Madras).—Village held on grant (originally to Brahmins), wholly or partially revenue-free.

Siris tree or vagai (*Albizzia Lebbek*).—A non-food crop.

Sorrell (*Rumex vesicarius*).—A vegetable crop.

Sother.—Radish.

Swank (*Panicum frumentaceum*).—A food grain.

Talukdari (Bombay).—A form of proprietary right in force in the northern districts of Bombay.

Tejpat (*Cinnamonum Tamala* and *C. obtusifolium*).—A spice.

Thathameda (Upper Burma).—Household tax.

Thattan payara (*see* Barbati).

Thekadar (Central Provinces).—A farmer, a leaseholder, a middleman; one who receives the rents from the cultivators and pays a stipulated sum to the proprietor.

Thugyi (Burma).—A village headman.

Thetke grass (*Imperata arundinacea*).—A small perrennial grass used chiefly for thatching purposes.

APPENDIX C—*concluded*

VERNACULAR TERMS USED IN VOLUME I OF AGRICULTURAL STATISTICS OF INDIA—*concld.*

Til (*Sesamum indicum*).—An oilseed.

Uchhe (*Momordica muricata*).—A vegetable crop.

Udai (*Acacsia eburnea*).—A thorny tree used as fuel or for fencing purposes.

Udhad-jamabandi (Bombay).—A proprietary tenure subject to fixed assessment.

Umbli (Coorg).—Lands granted on reduced rates to individuals on account of services rendered to the State by themselves or their ancestors.

Unda (*Pongamia glabra*).—An oil seed.

Urad (*Phaseolus radiatus*).—Black gram.

Wudalu or barti (*Panicum flavidum*).—A food grain.

Zamindar (Central Provinces).—A chief of minor importance who, while usually holding a large and compact estate on privileged tenure, has been restricted to the rank of an ordinary subject.

Zamindari.—An estate held on a fixed assessment under a deed of permanent ownership granted by Government.

APPENDIX D

English or Vernacular	Botanical	
Jujube	Zizyphus Jujuba	38. Fruits and Vegetables including root crops.
Jute	Corchorus sp.	22. Jute.
Kachu or Kachalu (*see* Arum)	.....	.....
Kakri (*see* Melon)	.....	.....
Kalpayaru (*see* Beans, Kidney)	.....	.....
Kamranga	Averrhoa Carambola	38. Fruits and Vegetables including root crops.
Kanda	Dracontium	38. Ditto. ditto.
Kangni (*see* Millet)	.....	.....
Kankrol	Momordica cochinchinensis	38. Fruits and Vegetables including root crops.
Kaon (*see* Millet)	.....	.....
Kapok	Eriodendron anfractuosum	23. Fibres—others.
Karola	Momordica Charantia	38. Fruits and Vegetables including root crops.
Karuvapilai	Murraya Koenigii	18. Condiments and spices.
Kavali or Indian Katura	Sterculia urens	38. Fruits and Vegetable including root crops.
Kavathu, pannikkavathu, pallakavathu, kolkavathu	Dioscorea alata	38. Ditto. ditto.
Kharbuja (*see* Melon)	.....	.....
Khesari (*see* Vetch)	.....	.....
Khurfa (*see* Purslane)	.....	.....
Kidney bean (*see* Bean)	.....	.....
Kirni	Mimusops hexandra	39. Miscellaneous food crops.
Kodo (*see* Millet)	.....	.....
Korai (*see* Matting sedge, Indian)	.....	.....
Kokam (*see* Mangosteen)	.....	.....
Kolinji or vempali	Tephrosia purpurea	35. Drugs and Narcotics—others.
Koorka	Strobilanthes	38. Fruits and Vegetables including root crops.
Kuhudi	Panicum trypheron	10. Other food grains, etc.
Kulthi (*see* Gram)	.....	.....
Kutki (*see* Millet)	.....	.....
Lemon (*see* Citron)	.....	.....
Lentils	Lens esculenta or Ervam lens	10. Other food grains, etc.
Lettuce	Lactuca Scariola	38. Fruits and Vegetables including root crops.
Lime (*see* Citron)	.....	.....
Linseed	Linum usitatissimum	12. Linseed.
Lobia (*see* Barbati)	.....	.....
Locust tree (*see* Carob)	.....	.....
Lucerne	Medicago sativa	37. Fodder crops.
Madder	Rubia tinctorum and R. cordifolia.	28. Dyes—others.
Mahua	Bassia latifolia and B. longifolia.	39. Miscellaneous food crops.
Maize	Zea Mays	8. Maize.
Makhan Sim (*see* Beans, Sword)	.....	.....
Mango	Mangifera indica	38. Fruits and Vegetables including root crops.
Mangosteen or Kokam	Garcinia indica	38. „ „ „
Mankachu	Alocasia indica	38. „ „ „
Margosa or Neem tree	Melia azadirachta	40. Miscellaneous non-food crops.
Marians	Bouea burmanica	38. Fruits and Vegetables including root crops.
Marjoram	Origanum vulgare	18. Condiments and spices.
Marua (*see* Millet)	.....	.....
Marukkolundu or Indian wormwood	Artemisia vulgaris	40. Miscellaneous non-food crops.

APPENDIX D—*continued*

ALPHABETICAL LIST OF CROPS—*contd.*

Name of Crop		Heads of classification in Table III
English or Vernacular	Botanical	
Mast wood	Calophyllum inophyllum	16. Oilseeds—others.
Mati kalai (*see* Black gram)	.....	.....
Matting sedge, Indian or Korai	Cyperus corymbosus, C. tegetum.	23. Fibres—others.
Medlar, Indian	Vangueria edulis	38. Fruits and Vegetables including root crops.
Melon, Kharbuja	Cucumis Melo	38. „ „ „
„ Kakri	Cucumis Melo var. momordica.	38. „ „ „
„ Musk	Cucurbita moschata	38. „ „ „
„ Water	Citrullus vulgaris	38. „ „ „
„ White Gourd (*see* Gourd)	.....	.....
Metha (Fenugreek)	Trigonella fœnum-græcum	18. Condiments and spices.
Millet, Common or Cheena	Panicum miliaceum	10. Other food grains, etc.
„ Great or jawar or cholum	Sorghum vulgare	5. Cholum or Jawar.
„ Italian, Kangni, or Kaon	Panicum Italicum or Setaria italica	10. Other food grains, etc.
„ Kodo or Varagu	Paspalum scrobiculatum	10. „ „
„ Little, Kutki, or Gondli	Panicum miliare	10. „ „
„ Marua or Ragi	Elusine Coracana	7. Ragi or marua.
„ Spiked, Bajra or Cumbu	Pennisetum typhoideum	6. Cumbu or Bajra.
Mint or Pudina	Mentha arvensis	18. Condiments and spices.
Morinda or Al	Morinda tinctoria	28. Dyes—others.
Moth (*see* Bean)	.....	.....
Mulberry	Morus indica	40. Miscellaneous non-food crops.
Mung (*see* Gram)	.....	.....
Mustard	Brassica sp.	14. Rape and Mustard.
Naval (*see* Plum, black)	.....	.....
Neerali	Gynocordia odorata	16. Oilseeds—others.
Neem tree (*see* Margosa)	.....	.....
Niger Seed or Sorguja	Guizotia abyssinica	16. Oilseeds—others.
Nutmeg	Myristica fragrans	18. Condiments and spices.
Oats	Avena sativa	37. Fodder crops.
Odamula (reeds)	Ochalandra Rheedii	40. Miscellaneous non-food crops.
Ol (*see* Elephant foot)	.....	.....
Onion	Allium Cepa	18. Condiments and spices.
Opium	Papaver somniferum	29. Opium.
Orache, garden (*see* spinach)	.....	.....
Oranges	Citrus Aurantium	38. Fruits and Vegetables including root crops.
Palm, Date	Phœnix sylvestris	20. Sugar—others.
„ Palmyra	Borassus flabellifer	20. „ „
Papay	Carica papaya	38. Fruits and Vegetables including root crops.
Parvar or Patol	Trichosanthes dioica	38. „ „ „
Peach	Prunus persica	38. „ „ „
Peas	Pisum sativum or Pisum arvense.	10. Other food grains, etc.
Peanut (*see* Groundnut)	.....	.....
Pepper	Piper or Capsicum	18. Condiments and spices.
„ Black	Piper nigrum	18. „ „ „
„ Long	Piper longum	18. „ „ „
Pigeon or bottle grass	Setaria glauca	10. Other food grains, etc.
Pigeon pea (*see* Arhar)	.....	.....
Pimakottai, Pouna (*see* Mastwood)	.....	.....
Pine apple	Ananas sativa	38. Fruits and Vegetables including root crops.
Plantain	Musa sapientum	38. „ „ „
Plum, black, Jambo tree or Naval	Eugenia Jambolana	38. „ „ „
„ Hog, or Ampazham	Spondias mangifera	38. „ „ „
Poi (*see* Spinach)	.....	.....

APPENDIX D—*continued*

ALPHABETICAL LIST OF CROPS—*contd.*

Name of Crop		Heads of classification in Table III
English or Vernacular	Botanical	
Pomegranate	Punica granatum	38. Fruits and Vegetables including root crops.
Pomelo	Citrus decumana	38. „ „ „
Ponnagantikura	Alternanthera sessilis	38. „ „ „
Potato	Solanum tuberosum	38. „ „ „
„ Sweet	Ipomœa Batatas, Batatas edulis.	38. „ „ „
Pudina (*see* Mint)	.....	.....
Puliyavara	Oxalis corniculata	38. Fruits and Vegetables including root crops.
Pumpkin	Cucurbita pepo	38. „ „ „
Pumpkin Melon (*see* Gourd, red)	.....	.....
Radish or Sother	Raphanus sativus	38. Fruits and Vegetables including root crops.
Ragi (*see* Millet)	.....	.....
Randhuni (*see* Ajmud)	.....	.....
Rapeseed	Brassica sp.	14. Rape and Mustard.
Raspberry	Rubus lasiocarpus	38. Fruits and Vegetables including root crops.
Rhea	Bœhmeria nivea	23. Fibres—others.
Rice	Oryza sativa	2. Rice.
Rose apple (*see* Apple)	.....	.....
Roselle	Hibiscus subdariffa	38. Fruits and Vegetables including root crops.
Rubber (India)	Hevea brasiliensis, manihot Glaziovii.	40. Miscellaneous non-food crops.
Sabai grass	Ischœmum augustifolium	23. Fibres—others.
Safflower	Carthamus tinctorius	28. Dyes—others.
Saffron	Crocus sativus	28. „ „
Sage	Salvia officinalis	18. Condiments and spices.
Sam tree or Chaplash	Artocarpus Chaplasha	40. Miscellaneous non-food crops.
Sank-alu	Pachyrhizus angulatus	38. Fruits and Vegetables including root crops.
Sapodilla	Achras Sapota	38. „ „ „
Sawan (*see* Swank)	.....	.....
Sebestan	Cordia myxa	38. Fruits and Vegetables including root crops.
Senna	Cassia angustifolia and C. ovata.	35. Drugs and Narcotics—others.
Sesamum, til or jinjili	Sesamum indicum	13. Sesamum.
Shahjira (*see* Caraway, black)	.....	.....
Shama (*see* Swank)	.....	.....
Singhara or water caltrop	Trapa bispinosa	38. Fruits and Vegetables including root crops.
Siris tree or vagai	Albizzia Lebbek	40. Miscellaneous non-food crops.
Sisal hemp (*see* Hemp)	.....	.....
Soapnut or Kumkudu-Kaya	Sapindus trifoliatus	35. Drugs and Narcotics—others.
Sorguja (*see* Niger seed)	.....	.....
Sorrell	Rumex vesicarius	38. Fruits and Vegetables including root crops.
Sowa (*see* Dill)	.....	.....
Sother (*see* Radish)	.....	.....
Soy bean (*see* Bean)	.....	.....
Spelt wheat (*see* Wheat)	.....	.....
Spinach	Spinacea oleracea	38. Fruits and Vegetables including root crops.
„ Indian or poi	Basella alba	38. „ „ „
„ Mountain, or Garden Orache	Atriplex hortensis	38. „ „ „
Strawberry	Fragaria vesca	38. „ „ „
Sugarcane	Saccharum officinarum	19. Sugarcane.

APPENDIX D—*concluded*

ALPHABETICAL LIST OF CROPS—*concld.*

Name of Crop		Heads of classification in Table III
English or Vernacular	Botanical	
Sunflower	Helianthus Annuus	16. Oilseeds—others.
Swallow-wort	Calotropis sp.	23. Fibres—others.
Swank, Sawan, or Shama	Panicum frumentaceum	10. Other food grains, etc.
Sweet flag	Acorus Calamus	35. Drugs and Narcotics—others.
Sweet potato (*see* Potato)	.....	.....
Tamarind	Tamarindus indica	18. Condiments and spices.
„ Manila	Pithecolobium dulce	38. Fruits and Vegetables including root crops.
Taramira	Eruca sativa	14. Rape and Mustard.
Tea	Camellia Thea	31. Tea.
Tejpat	Cinnamonum Tamala and C. obtusifolium.	18. Condiments and spices.
Tepari (*see* Gooseberry)	.....	.....
Thattan-payara (*see* Barbati)	.....	.....
Thetkè (grass)	Imperata arundinacea	40. Miscellaneous non-food crops.
Til (*see* Sesamum)	.....	.....
Tobacco	Nicotiana Tabacum and N. Rustica.	32. Tobacco.
Tomato	Lycopersicum esculentum	38. Fruits and Vegetables including root crops.
Tori, Toria	Brassica Napus	14. Rape and Mustard.
Turmeric	Curcuma longa	18. Condiments and spices.
Turnip	Brassica Rapa	38. Fruits and Vegetables including root crops.
Uchhe	Momordica muricata	38. „ „ „
Udai	Acacsia eburnea	40. Miscellaneous non-food crops.
Unda	Pongamia glabra	16. Oilseeds—others.
Urad (*see* Gram)	.....	.....
Varagu (*see* Millet)	.....	.....
Vagai (*see* Siris tree)	.....	.....
Vempali (*see* Kolinji)	.....	.....
Vetch, Field or gawar	Cyamopsis psoralioides	37. Fodder crops.
„ Chickling or khesari	Lathyrus sativus	10. Other food grains, etc.
Water caltrop (*see* Singhara)	.....	.....
„ melon (*see* Melon)	.....	.....
Wheat	Triticum sativum	3. Wheat.
„ Buck	Fagopyrum esculentum	10. Other food grains, etc.
„ Spelt	Triticum sativum var Spelta.	3. Wheat.
Wood apple (*see* Apple)	.....	.....
Wudalu or barti	Panicum flavidum	10. Other food grains, etc.
Yams	Dioscorea sp.	38. Fruits and Vegetables including root crops.
Zaminkand (*see* Elephant foot)	.....	.....

Agricultural Statistics of India

1914-15

VOLUME II—NATIVE STATES

Report

To

THE SECRETARY TO THE GOVERNMENT OF INDIA,
DEPARTMENT OF REVENUE AND AGRICULTURE.

SIR,

I have the honour to submit the second volume of Agricultural Statistics for 1914-15. It deals with the Agricultural Statistics of Native States. As in the two previous issues, summary tables have been inserted to show the total figures relating to area, the classification of area, and the area under crops for each State or group of States, and the totals for all the reporting States. The total number of cattle as far as reported in each of the years 1905-06 to 1914-15 has also been included in the general summary table (No. 1). These statistics are defective for comparative purposes as additions have been made in the number of reporting States from time to time. Explanatory notes have been inserted at the foot of the tables. Two charts and an index for easy reference have been added to the volume. It should be noted that, for reasons explained below, the Agricultural Statistics of Native States are incomplete and are of far less accuracy than are those of British Provinces published in Volume I.

The total area of Native States in India is approximately 497,000,000 acres (777,000 square miles), with a population of 72 millions according to the Census of 1911. These are divided for the purposes of Agricultural Statistics into two main classes, namely, (1) States under the control of Local Governments and Administrations, and (2) States having direct political relations with the Government of India.

(*1*) *States under the control of Local Governments and Administrations.*—The total area of these States is 180,989,000 acres, with a population of some 27 millions. They are divided into the following main groups :—

	Area Thousand Acres	Population Thousands
Bombay and Sind States	40,843	7,412
Madras States	6,791	4,812
Punjab States	24,511	4,213
Bihar and Orissa States	18,335	3,945
Central Provinces States	19,960	2,117
Burma States (including Shan States)	38,402	1,540

	Area Thousand acres	Population Thousands
North-West Frontier Province States (including tribal areas)	16,880	1,379
United Provinces States	4,345	832
Bengal States	3,452	823
Assam States	7,970	346
Total	180,989	27,419

The total areas of all these States (with the exception of the Shan States in Burma and the tribal areas in the North-West Frontier Province) are included in the areas of the several British Provinces stated in column 2 of table I of Volume I (British India), but are shown separately in column 3 of that table in order to arrive at the net area of British territory (in column 5) dealt with in that volume. Of these States, agricultural statistics are available only for the following twenty-eight States in the Madras Presidency and the Punjab and are dealt with in this volume :—

	Area Thousand acres	Population Thousands
Madras States—		
Travancore	4,868	3,429
Cochin	904	918
Pudukkottai	754	412
Banganapalle	163	39
Sandur	102	14
Punjab States—		
Patiala	3,795	1,408
Jind	853	272
Nabha	620	249
Bahawalpur	12,700	781
Sirmur (Nahan)	631	139
Kalsia	122	56
Pataudi	34	20
Loharu	143	19
Dujana	57	25
Kapurthala	417	268
Malerkotla	107	71
Faridkot	412	130
Simla Hill States (comprising Bashahr, Jubbal, Theog, Kumbarsain, Khaneti, Bilaspur, Baghal, Ghund, Mehlog, Baghat, and Madhan)	3,231	276
Total	29,913	8,526

(2) *States having direct political relations with the Government of India.*— These are divided into the following main groups :—

	Area Thousand acres	Population Thousands
Hyderabad	52,927	13,375
Baroda	5,236	2,033
Mysore	18,865	5,806
Kashmir	54,036	3,158
Rajputana States	82,552	10,530
Central India States	49,515	9,357
Baluchistan (Native)	51,462	420
Sikkim	1,804	88
Total	316,397	44,767

No agricultural statistics are available for Hyderabad,* Baroda, Baluchistan (Native), or Sikkim. Of the remainder, returns are received only from the following eighteen States :—

	Area Thousand acres	Population Thousands
Mysore	18,865	5,806
Kashmir	54,036	3,158
Rajputana States—		
Jaipur	9,971	2,637
Bikaner	14,922	701
Marwar	22,410	2,058
Tonk	1,634	303
Alwar	2,038	792
Kishangarh	549	87
Bharatpur	1,263	559
Jhalawar	527	96
Kotah	3,638	639
Central India States—		
Gwalior	16,511	3,102
Indore	6,080	1,008
Bhopal	4,344	730
Rajgarh	613	127
Narsingarh	469	110
Barwani	754	109
Nagod	324	75
Total	158,948	22,097

The total area of all the forty-six reporting States thus amounts to 188,861,000 acres, with a population of nearly 31 millions. These States, therefore, represent 38 per cent of the total area, and 43 per cent of the total population, of all the Native States in India.

The dates from which the returns of Agricultural Statistics have been prepared in these forty-six reporting States are as follows :—

Mysore	1886-87
Jaipur	1892-93
Gwalior	1896-97
Bikaner, Marwar, Tonk	1898-99
Alwar, Bharatpur, Kishangarh, Jhalawar, Kotah	1900-01
Indore, Rajgarh, Narsingarh, Nagod, Patiala, Jind, Nabha, Bahawalpur	1907-08
Pudukkottai, Banganapalle, Sandur, Cochin, Travancore, Bhopal, Barwani, Sirmur, Kalsia, Pataudi, Loharu, Dujana, Kapurthala, Malerkotla, Faridkot, Simla Hill States (11 in number)	1908-09
Kashmir	1910-11

The period covered by this volume is the quinquennium ending 1914-15. The returns for the different States, however, relate to the years ending the date, stated below, so far as information is now available :—

Bikaner, Sandur, Banganapalle	year ended	31st March
Indore	„	in June
Mysore, Gwalior, Nagod, Pudukkottai, Rajgarh, Barwani.	„	30th June
Travancore, Cochin	„	in August
Jaipur	„	31st August
Kishangarh	„	15th September
Marwar, Kotah, Jhalawar, Bhopal	„	30th September
Tonk, Narsingarh, Bharatpur, Alwar	„	31st October

* Arrangements are being made by His Highness the Nizam's Government to prepare agricultural statistics for the Hyderabad State. The statistics for this State, when prepared, will fill the biggest gap in the Agricultural Statistics of Native States in India.

Table I, Total area.

From the total area of all the forty-six reporting States (188,861,000 acres), deduction must be made for 107,078,000 acres for which statistics are not available. These comprise chiefly unsurveyed areas and lands held on jagir, muafi, and other privileged tenures. The net area actually covered by these statistics is, therefore, only 81,783,000 acres by professional survey,* or 81,875,000 acres according to village papers.*

Table II, Classification of area.

This area is classified, for the purposes of Agricultural Statistics, as shown in the margin. About 10,195,000 acres, or 12·5 per cent of the total, are occupied by forests; and the area not available for cultivation, that is, land absolutely barren, or unculturable, or covered by buildings, water, and roads, or otherwise appropriated to uses other than agriculture, amounts to 19,507,000 acres or about 24 per cent. The balance, 52,173,000 acres or 64 per cent, represents the area available for cultivation. Of this, 15,062,000 acres, or 18 per cent of the total area, represent culturable waste, *i.e.*, land available for cultivation but not taken up, and 5,176,000 acres, or 6 per cent, were kept fallow in the year under report. The net area actually cropped in the year was thus 31,935,000 acres (or 39 per cent of the total area), which shows an increase of 3,177,000 acres as compared with the previous year. This net cropped area, however, excludes areas cropped more than once in the year. If areas cropped more than once are taken as separate areas for each crop, the gross area cropped in the year of report amounts to 34,676,000 acres as against 30,646,000 acres in the preceding year, or an increase of 4,030,000 acres or 13 per cent.

	Thousand acres	Per cent
Forests	10,195	12·5
Not available for cultivation	19,507	23·8
Culturable waste other than fallow	15,062	18·4
Current fallows	5,176	6·3
Net area cropped	31,935	39·0
Total	81,875	100

Irrigation.

The total area irrigated in the reporting States in 1914-15 was 6,049,000 acres as against 5,736,000 acres in the preceding year. Of this, 2,221,000 acres were irrigated from Government canals, 629,000 acres from private canals, 831,000 acres from tanks, 1,252,000 acres from wells, and the remaining 1,116,000 acres from other sources of irrigation. These figures, however, do not take into account areas cropped more than once during the year with the help of irrigation, but indicate the extent of land actually irrigated. If areas cropped more than once are counted as separate areas for each crop, the gross area of irrigated crops amounts to 6,522,000 acres, against 6,279,000 acres in the preceding year. Of this area, 5,658,000 acres, or 87 per cent, were under food crops.

Table III, Area under crops.

The gross area cultivated with crops in the reporting States was, as stated above, 34 million acres in 1914-15 as against 30 million acres in the preceding year, or an increase of 13 per cent. The different classes of crops and the area occupied by each, so far as details are available, are stated in the margin. Of the total cropped area, food crops occupied about 28,111,000 acres or 82 per cent and non-food crops about 6,077,000 acres or 18 per cent. Of the food-crops, food grains (cereals and pulses) occupied as much as 25,769,000 acres or 75 per cent of the total cropped area, and other food crops (condiments and spices, sugar, fruits and vegetables, and miscellaneous food crops) together occupied some 2,342,000 acres or only 7 per cent of the total. Of the non-food crops, oilseeds occupied 2,056,000 acres or 6 per cent of the total cropped area, fibres such as cotton, hemp, etc., 1,807,000 acres or 5·3 per cent of the total, and fodder crops 1,370,000 acres or 4·1 per cent. The other non-food crops—dyes, drugs and narcotics (tobacco, tea, coffee, opium, etc.), and miscellaneous non-food crops—together covered some 844,000 acres or 2·4 per cent of the total.

	Thousand acres	Per cent of total
Food-grains	25,769	75·4
Condiments and spices	231	·7
Sugar	109	·3
Fruits and vegetables	535	1·5
Miscellaneous food-crops	1,467	4·3
Total food-crops	28,111	82·2
Oil seeds	2,056	6·0
Fibres	1,807	5·3
Dyes	7	...
Drugs and narcotics	278	·8
Fodder crops	1,370	4·1
Miscellaneous non-food crops.	559	1·6
Total non-food crops.	6,077	17·8

* For explanation of the terms "professional survey" and "village papers," see footnotes to Table I (page 6) of this Volume and the Report prefixed to Volume I.

The area under food-grains (25,769,00 acres) showed a net increase of 3,054,000 acres or 13 per cent as compared with the preceding year. The actual increase or decrease under each kind of grain is stated in the marginal table. It will be seen that only rice showed a decrease of 134,000 acres, while all other food-grains showed an aggregate increase of 3,188,000 acres.

	Thousand acres		
	1914-15	1913-14	Increase(+) Decrease(−)
Rice	2,384	2,518	−134
Wheat	4,176	3,991	+185
Barley	938	854	+84
Jawar	4,088	3,685	+403
Bajra	2,991	2,587	+404
Ragi	2,302	2,240	+62
Maize	1,065	1,059	+6
Gram	3,928	2,794	+1,134
Other grains and pulses	3,697	2,987	+910

Oilseeds (linseed, sesamum, rapeseed, mustard, etc.) showed an increase of 362,000 acres or 21 per cent. The area under sugar decreased by 23,000 acres or 17 per cent, that under fibres (cotton, hemp, etc.) by 40,000 acres or 2 per cent, and that under fruits and vegetables by 59,000 acres or 10 per cent. On the other hand, the area under condiments and spices increased by 20,000 acres or 9 per cent, and that under drugs and narcotics by 53,000 acres or 24 per cent.

The total extent of land on which more than one crop was raised during the year was 2,741,000 acres as against 1,888,000 acres in the preceding year.

Live stock.

Tables IV, V, and VI are very incomplete, as figures for these tables are not furnished by many of the reporting States. Table IV is prepared by only eighteen States, namely, Mysore, Cochin, Gwalior, Indore, Bhopal, Rajgarh, Narsingarh, Barwani, Nagod, Bikaner, Marwar, Jaipur, Kishangarh, Alwar, Bharatpur, Jhalawar, Tonk, and Kotah. According to the latest statistics, the total number of live-stock of the bovine class (bulls and bullocks, cows, buffaloes, and calves) in these eighteen States is 13,875,000, that of the ovine class (sheep and goats) 8,428,000, and that of horses and ponies, mules and donkeys, and camels 410,000. The numbers of ploughs and carts are 1,898,000 and 546,000, respectively.

Table V (Land revenue) is prepared by seventeen States, namely, Mysore, Pudukkottai, Cochin, Gwalior, Indore, Bhopal, Rajgarh, Narsingarh, Barwani, Bikaner, Marwar, Jaipur, Alwar, Bharatpur, Jhalawar, Tonk, and Kotah; and Table VI (Transfers of land) is prepared by only four States, namely, Mysore, Cochin, Barwani, and Alwar.

The Appendix explains vernacular terms used in this volume, and the charts illustrate (1) the classification of the total area showing the proportion of cultivated and uncultivated lands, and (2) the total area cropped in 1914-15 with shares of food and non-food crops.

I have the honour to be,

Sir,

Your most obedient Servant,

G. FINDLAY SHIRRAS,

Director of Statistics.

DEPARTMENT OF STATISTICS,
Calcutta, June 20, 1917.

TABLES

Summary Tables

No. 1.—GENERAL SUMMARY, 1905-06 TO 1914-15

Classification of area [*Thousand acres*

	1905-06	1906-07	1907-08	1908-09	1909-10	1910-11	1911-12	1912-13	1913-14	1914-15
Area by professional survey (*a*)	47,107	47,238	60,666	71,664	72,101	79,930	82,466	82,188	82,720	81,783

Note.—The entries in this table regarding classification of area and areas under food and non-food crops comprise figures for Mysore, Jaipur, Gwalior, Bikaner, Marwar, Tonk, Alwar, Kishangarh, Bharatpur, Jhalawar, and Kotah from 1905-06; to which were added those for Indore, Rajgarh, Narsingarh, Nagod, Patiala, Jind, Nabha, and Bahawalpur from 1907-08; for Pudukkottai, Banganapalle, Sandur, Cochin, Travancore, Bhopal, Barwani, Sirmur, Kalsia, Pataudi, Laharu, Dujana, Kapurthala, Malerkotla, Faridkot, and the Simla Hill States from 1908-09, and for Kashmir from 1910-11.

*The entries regarding cattle comprise Mysore, Jaipur, Gwalior, Bikaner, Marwar, Tonk, Alwar, Kishangarh, Bharatpur Jhalawar, and Kotah from 1905-06; to which were added those for Indore, Rajgarh, and Narsingarh from 1907-08; for Bhopal, Barwani, and Nagod from 1908-09; and for Cochin from 1910-11. Detailed figures for the States for five years are given in Table IV (pages 86-87).

(*a*) Excluding areas for which no returns are available

(*b*) Condiments and spices, fruits and vegetables, and miscellaneous food crops

(*c*) Cinchona, Indian hemp, other dyes, other drugs and narcotics, and miscellaneous non-food crops

(*d*) The total of food crops and non-food crops shown here does not agree with the total area cropped shown in Summary Table No. 4 for the reason stated in the footnote to that table (page 5.)

Column 2.—The professional survey is that carried out by the Survey of India in Northern India, and by the corresponding departments in Southern India. In States where there has been no professional survey, the figures are based on the best information available.

Column 3.—In this column is deducted the entire area for which the statistics required for Tables II and III are not forthcoming in whole or in part. This area comprises chiefly estates held on privileged tenures which have not yet been surveyed and which possess at present no agency for the annual collection of agricultural statistics. As surveys extend and the organisation of village statistical establishments develops, the area in this column is reduced, and that entered in the next columns (4 and 5) and dealt with in Tables II and III is correspondingly increased.

Columns 4 and 5.– Column 4 is a check on the accuracy of column 5. In the latter, "village papers" means "the papers prepared by the village accountants." In States where no village papers exist, or where the source of information is the same for both the survey and the village papers, the figures in column 4 are necessarily repeated in column 5. The area in village papers may differ somewhat from that given by the Survey Department, (*a*) because, while the survey area is calculated in block, the area by village papers represents the added total of field and village areas, and (*b*) because the system followed as regards the inclusion or exclusion of areas covered by water, buildings, roads, and railroads is not always uniform in the two sets of returns.

(*a*) Previous year's figure repeated (*vide* footnote (*a*) on page 12)

(*b*) *Column 3* states the area of unsurveyed forests.

See explanations given in the footnotes (page 6)

(*a*) *Column 2* states the area of the State as ascertained by revenue survey. *Column 3* states the entire area of jagir villages

(*b*) *Column 2* excludes forest areas, the area of forest villages managed by the Forest Department, and about 6,980 acres of 6 unsettled jagir villages

(*c*) *Column 3* states the areas of jagir and other alienated lands

(*d*) *Column 2.*—As there has been no revenue survey so far, this column states the area of the State according to the best information available. *Column 3* states the areas of jagir and muafi villages, the boundaries of which have been demarcated, but for which the statistics required for other tables are not available. *Columns 4 and 5.*—In the absence of any revenue survey data, the figures in column 5 are repeated in column 4

(*e*) Returns for 1910-11 not having been received, the figures for 1909-10 have been repeated

(*a*) *Column 2* states the area of the State according to Settlement records

(*b*) Statistics are furnished by eleven States of this group, namely, Bashahr, Jubbal, Theog, Kumbarsain, Khaneti, Bilaspur, Baghal, Ghund, Mehlog, Baghat, and Madhan, the last two but one from 1910-11 and the last one from 1911-12. They represent about 86 per cent of the aggregate area of all the States comprised in the group. The returns, however, relate only to the settled portions of the reporting States, except Bilaspur, Baghal, and Mehlog for which complete returns have been received. *Column 2* states the area of the settled portions of the States named above, except Bilaspur, Baghal, and Mehlog for which the whole area is included

(*c*) See foot note (*c*) on page 11

(*a*) *Column 2* states the area of the State as ascertained by revenue survey. *Column 3* exhibits the area of jodi, kayamgutta, and sarvamanayam villages, and jagirs for which the statistics required for the other tables are not available at present. *Column 5.*—The figures in column 4 are repeated

(*b*) *Column 3* states the estimated areas of jagir, muafi, ubari, tanka, istamrar and such other villages as are still unsurveyed

(*c*) *Column 2* states the whole area of the State excluding the areas covered by the Indore Residency, the Mhow Cantonment and the Hirapur Thakurate. *Column 3* states the areas of jagir, istamrar, and forest villages, and also of some of the outbandi villages

(*d*) *Column 3* states the areas of jagir and such other villages as are still unsurveyed; it also includes the areas which formerly were parts of jagir villages, but which, after the completion of the settlement operations, either lapsed to or were resumed by the State

(*e*) *Column 3* states the areas of jagir and such other villages as are still unsurveyed. It also includes the area of those khalsa villages which have not yet been regularly assessed; these are chiefly the latest acquisition to khalsa under the law of escheat. *Columns 4 and 5.*—The area by village papers does not differ from the area by survey, for, although differences occur under the different classes of soil, the total area of each village is the same in both cases

* Details not available

(*a*) *Column 2* states only the khalsa area, forming about one-third of the whole area of the State. The whole area of the State according to the Census of 1911 is 9,970,560 acres, which is shown in table No. 5. *Column 3* states the area of detached revenue-free plots situated in khalsa villages

(*b*) *Column 3* states the area of jagir villages

(*c*) *Columns 2 and 4* state the area of the State according to the professional survey of 1855. *Column 5* states the area of the State according to the settlement records

(*d*) *Column 3* states the area of entire jagir and muafi villages, which have not yet been surveyed, and the detached revenue-free plots situated in khalsa villages

(*e*) *Column 2* states the whole area of the State according to the Census of 1911. *Column 3* states the areas of Bhadarwa and Punch, certain unsettled areas and frontier tracts which are not directly looked after by the Revenue Department of the State, and also certain other areas for which returns are not available. *Columns 4 and 5* entirely exclude the area of Bhadarwa (*Jagir*) and Punch and Frontier *Ilaqas*

Column 2.—The definition of the term "forests" is as follows:—"Any land classed or administered as forest under any legal enactment dealing with forests." Any cultivated areas existing within such forests may be excluded and entered in column 6 (net area cropped), an explanation being given in a note

Column 3 includes all land absolutely barren, and also all land covered by buildings, water, roads, or otherwise appropriated to uses other than agriculture

Column 4 includes groves not classed in the cropped area. Areas under bamboos and thatching grass, when not forming parts of forest areas, are included in this column

Columns 8 to 13 state the area actually irrigated during the year, areas cropped more than once being counted once only

(*a*) The statistics collected in 1908-09 have been repeated up to 1912-13, as fresh information could not be collected owing to pressure of work connected with the revenue settlement of the State

() *Column 2* states the area of reserved forests within surveyed villages

() *Column 2* states the areas of forests left unassessed. Forests in this State not having been demarcated, figures in columns 3 and 4 also include same forest areas. *Column 4* states areas of land left uncultivated for over three years, of *bir* (grass lands) and of pasture lands. *Column 5.*—The maximum period for which land thrown out of cultivation is reckoned as fallow is three years

(*d*) Includes 8,215 acres in coffee estates

Columns 14 to 18 state the gross area of irrigated crops, areas cropped more than once being counted as separate areas for each crop. This accounts for the excess in some cases of the total area of crops irrigated (column 18) over the total area irrigated (column 13)

Table II—*continued*

Column 2 states the areas of state and district forests and of plantations.

Column 3 includes not only lands absolutely unfit for cultivation, but also lands reserved for pasture, and plantations intended for public use and therefore left unassessed. A large portion of the pasture lands is fit for cultivation, and is given out for cultivation from time to time under special orders, such lands when given out for cultivation being transferred from column 3 to 5 or 6 as the case may be.

Column 4 states unoccupied assessed waste.

Column 5.—There is no system of fallows, that is, lands are not systematically left uncultivated for the purpose of giving them rest. Individuals occupy large areas and pay full assessment thereon, leaving portions uncultivated, generally for the use of their cattle. For purposes of account the difference between the areas of the lands occupied by individuals and of those actually cultivated by them is taken as fallow. The lands occupied and assessed are sometimes unfit for cultivation, having been taken up on full assessment merely for use as pasture but the exact area of all such lands cannot be ascertained, though it cannot be large.

(a) Included in column 3

Bharatpur—Column 2 includes grass preserves (locally called the State *Rundhs*) and hills. Column 4 includes areas out of cultivation or which have not been cultivated for the last four years or upwards, but excludes State grass preserves (*Rundhs*). Column 5—the maximum period for which land thrown out of cultivation is reckoned as fallow is three years. Column 8 includes area irrigated from the Bareta Bund, constructed by the State Public Works Department

Note—In this table are entered the areas actually sown, whether the crop comes to maturity or not, except in cases when fields, owing to the failure of the first sowings, have been devoted to other crops: in such cases the area first sown is omitted. In cases where two or more crops are grown together, an estimate is made of the area covered by each, and the areas so estimated are separately returned. The estimate is made by the village accountant, or is subsequently determined on formulæ prescribed by higher authorities

(a) See note on page 47

(b) The areas under mixed crops are shown under the principal crop, as it is not possible to differentiate the areas of the respective crops

Note.—Animals in towns, cities, and cantonments are included where it is possible to secure their enumeration. Oxen and buffaloes not old enough for work or to produce young are classed as "young stock"

(*a*) A cattle census is taken by the patwaris every year after the kharif crop inspection in November. Animals in towns are included

(*b*) Enumeration of live-stock is taken by the patwari every year

(*c*) Animals in cities and towns are not included

*No information

Entry 2 (a).—Areas held revenue-free or at privileged rates should be deducted, but the deduction need not be made where such areas are in any case less than an entire village, and where there is any difficulty in estimating the corresponding deduction to be made in the population head 10. Areas should not be entered in this column merely because the assessment due from them has been suspended or remitted on account of short crops, or for other special reasons.

Entry 3.—This column should be sub-divided into (*a*) total fully assessed area for which returns are available, and (*b*) area cultivated out of the area given in head (*a*). The latter head should be equal to the former after deducting current fallows and fully assessed waste.

Entry 4.—Where land revenue includes the zamindar's share, the net demand should be entered, and the table should state the payments due by the zamindars to Government, not those by the raiyats to the zamindars. The actual realisable demand on account of the year should be entered, after excluding arrears for past years. This column should include all the heads classed as "Land Revenue" in the Civil Accounts.

Entry 5.—The population in entry 5 is that of the last general census.

†*Narsingarh.*—*Item 1* states the net area by revenue survey as shown in column 4 of Table I. *Item 2* (*a*) includes forest areas (column 2 of Table II) and unculturable (column 3 of Table II) and culturable land not possessed by any cultivator. *Item 2* (*b*) states the area of minor muafis. *Item 3* (*b*) includes fallow lands left uncultivated for three years or less as full cultivation rate is assessed on them.

See explanations given in the footnotes (page 98)

* These are *khalsa* or state lands only. The whole area of the State according to the census of 1901 is stated in Table I—No. 5

† Not reported

***Alwar.*—The classes of tenure are zamindari and village communities, the former comprising *zamindari-bil-ijmal* and the latter *pattidari* and *bhaiyachara*. *Item 1* states the area by village papers (column 5 of Table I). *Item 2 (a)* shows areas covered with forests (column 2 of Table II) which are wholly revenue-free.

††*Jhalawar.*—The whole area stated in this table is classed as "Khatedari" and "Watendari" equivalent to "raiyatwari" and "zamindari" respectively. Item 1 excludes entire villages held by jagirdars and udakdars.

§ See explanation given in footnote (page 105).

Column 4 (b) states not only the area actually under crops, but also fallow lands as revenue rates are assessed on the total cultivated area, including fallows. Hence the area stated in this column exceeds the total area in Table III

Columns 5 and 6 relate only to Khalsa area, as statistics for these columns are not available for the whole area of the State

Note.—It is optional with the local authorities to enter or omit transfers of lands held by tenants. The following rules have been prescribed for the preparation of this return:—(1) Changes of entry due to succession, partitions, or simple mortgages are not really transfers and should be excluded from the table, as also should redemptions of mortgage. (2) All temporary transfers, such as leases, should also be excluded, but mortgage with possession should be treated as a transfer and entered in the table. (3) All transfers made by order of a court should also be included in the table. (4) The word "court" in the entry "by order of court" should be held to include a revenue court.

(*a*) *Mysore.*—Only permanent transfers are included as by sale or gift, in which the parties concerned apply for and obtain transfers of revenue registry in the village accounts from which the table is compiled. Thus, changes of registry under orders of civil and revenue courts as well as those effected in consequence of the sale of land for arrears of Government revenue are included.

(*b*) *Alwar.*—Transfers by mortgage with possession, sale, and gift, both of proprietary and of occupancy rights, whether by order of court or by private contract, are shown in this table. Property confiscated by order of a criminal court, and holdings transferred by order of a civil or revenue court in satisfaction of money decrees or arrears of land revenue respectively are thus included.

APPENDIX

Vernacular terms used in the Explanatory Notes.

Bhaiyachara (Alwar).—Villages held by a number of families, by possession without reference to shares.
Bir (Narsingarh).—Grass lands.
Bunds (Alwar).—Embankments.
Chauth (Bharatpur).—Land paying one-fourth of the rental.
Inám (Mysore).—Wholly or partially revenue-free tenure ; *minor ináms* are plots of inám lands situated in a village, whether Government or inám.
Istamrár (Gwalior, Indore, Bharatpur).—A tenure which, though the revenue is assigned, is charged with a permanently fixed quit-rent.
——— (Alwar).—A tenure which, though favourably assessed, is charged with a permanently fixed quit-rent.
——— (Bharatpur).—Land paying a reduced permanently fixed *jama* assessment).
Jagir (Mysore, Gwalior, Kishangarh, Kotah, Narsingarh).—Land granted revenue-free on condition of military service or as a charitable endowment.
——— (Indore, Barwani).—Land granted revenue-free on condition of military service or as a charitable endowment or in recognition of good services rendered to the State.
——— (Bikaner).—Land granted revenue-free on condition of military service or as a charitable endowment.
——— (Alwar).—Assignment of land revenue, with or without condition of military service and payment of commutation dues, granted in recognition of meritorious services to relations of the ruling chief or other high officials of the State.
——— (Kishangarh).—Land granted revenue-free on condition of military service either actually rendered or fulfilled by a rateable money contribution.
Jagirdar (Jhalawar).—Holder of jagir land.
Jodi (Mysore).—A whole inám village paying quite-rent to Government.
Kayamgutta (Mysore).—A whole village granted by the State on fixed money-rent.
Khalsa (Gwalior, Jaipur, Bikaner, Marwar, Bharatpur).—Land paying full revenue to the State.
Khatedari (Jhalawar).—Same as *raiyatwari.*
Muafi (Gwalior, Alwar, Kotah, Bharatpur, Kishangarh).—Land granted free of revenue.
Out-bandi (Indore).—Assessment of revenue calculated at a fixed rate per plough.
Patel (Mysore).—Village headman appointed by Government.
Pattidari (Alwar).—Villages held by a number of families, by shares, ancestral or customary.
Patwari (Nirsingarh).—Village revenue officer or accountant.
Raiyatwari (Bharatpur).—State area leased to cultivators for a fixed term.
Rundhs (Bharatpur).—State grass preserves.
Sarvamanayam (Mysore).—An inám village, wholly revenue-free.
Shanbóg (Mysore).—A village accountant appointed by Government.
Tanka (Gwalior).—Estate held by certain families who were in power when the country was annexed and who were left in possession of their estates on payment of a fixed annual tribute, or *tanka,* bearing but a small proportion to the annual assets.
Ubari (Gwalior).—Land held at an abatement of the full land revenue.
Watendari (Jhalawar).—Same as *Zamindari.*
Zamindari (Bharatpur).—Estate on a fixed assessment under a deed of permanent ownership granted by the State.
Zamindari-bil-ijmal (Alwar).—Villages held jointly by a body of owners.

Agricultural Statistics of India

1915-16

VOLUME I—BRITISH INDIA

Report

To

THE SECRETARY TO THE GOVERNMENT OF INDIA,
DEPARTMENT OF REVENUE AND AGRICULTURE.

SIR,

I have the honour to submit the first volume of Agricultural Statistics for 1915-16. This annual volume is the thirty-second of the series started in 1886, with statistics for 1884-85. The changes that have been effected in this volume under orders of Government are three:—(1) returns of areas under crops, of live-stock, and of land revenue, etc., are now shown for a period of twenty years in place of ten years in the summary table No. 1; (2) these returns are also shown for a period of ten years in the provincial tables in place of five years as hitherto; and (3) in the district tables the returns are shown for two years only. A series of charts and an index for easy reference have been added to the volume.

The statistics are compiled from annual returns furnished by Local Governments and Administrations. Detailed information as to the sources from which the figures are collected in the different provinces is given in footnotes to the respective tables for each province. The statistics consist of six separate tables, namely, I—Area; II—Classification of area; III—Area under crops; IV—Live-stock, ploughs, and carts; V—Land Revenue Assessment; and VI—Transfers of property in land. The totals of the figures given in these tables are shown in a series of summary tables, to which a table on world crops is added. In addition to these, there are four appendices:—A, B, C, and D. Appendix A deals with the average yield per acre of principal crops; Appendix B shows the changes made in district and provincial boundaries; Appendix C gives the meaning of vernacular terms used in the volume; and Appendix D contains an alphabetical list of crops cultivated in India and their classification in Table III. This volume, it may be noted, deals with the agricultural statistics of British Provinces, while Volume II deals with those of Native States* as far as they are reported.

The returns for each province relate to the following dates:—

Bengal, Bihar and Orissa, Assam, Coorg, and Manpur	Year ended	31st March
Central Provinces and Berar	,,	31st May
North-West Frontier Province	,,	15th June
United Provinces, Madras, Burma, and Ajmer-Merwara	,,	30th ,,
Bombay	,,	31st July
Punjab and Delhi	,,	30th September

It may be noted that the statistics relating to areas irrigated (Table II) and areas under crops and specification of crops (Table III) generally include both the *kharif* and the *rabi* crops, and relate to the year closing with the harvesting of the *rabi* or spring crops.

* In Appendix A (Volume I), however, figures relating to Mysore are included.

The total area of India is 1,799,000 square miles, or 1,151,645,000 acres, with a population of 315 millions according to the census of 1911. This may be divided as follows :—

	Acres.	Population.
(1) British Provinces (including Native States under the control of Local Governments and Administrations) .	749,277,000	267,164,000
(2) Native States having direct political relations with the Government of India	316,397,000	44,767,000
(3) Specially administered territories in Burma (Shan States) and in the North-West Frontier Province (Tribal areas, etc.) not included under (1)	51,265,000	2,738,000
(4) British Baluchistan (including administered areas) . . .	34,706,000	414,000
Total .	1,151,645,000	315,083,000

No returns of agricultural statistics are prepared for (3) specially administered territories in Burma and in the North-West Frontier Province, nor for (4) British Baluchistan.

Table I. Total area.

The total area of the British Provinces dealt with in this volume—749,277,000 acres, or 1,171,000 square miles—includes 129,756,000 acres, with a population of some 26 millions, belonging to Feudatory and Tributary States, which are under the control of Local Governments and Administrations. These include in Burma the Mongmit State, the Hkamte Long State, and the Upper Chindwin States ; in Assam, Manipur and the Khasi and Jaintia Hill States ; in Bengal, Cooch Bihar and Hill Tippera ; in Bihar and Orissa, the Tributary States of Orissa and Chota Nagpur ; in the United Provinces, Rampur, Tehri, and Benares ; in the Punjab, the Phulkian States, the States of the Bahawalpur Agency, the Jalandhar Division States, and the Simla Hill States ; in the North-West Frontier Province, the Phulera and Upper Tanawal States ; in Sind, the Khairpur State ; in Bombay, the Gujarat States (excluding Baroda), the Konkan States, the Deccan States, the Satara Jagirs, and the Southern Mahratta States ; in the Central Provinces, the Chhattisgarh States ; and in Madras, the States of Travancore, Cochin, Pudukkottai, Banganapalle, and Sandur. Of these States, Agricultural Statistics are prepared for most of the States in the Punjab and all the States in Madras ; but they are dealt with in Volume II along with the States having direct political relations with the Government of India.

Thus, by deducting 129,756,000 acres belonging to Feudatory and Tributary States from the total area of 749,277,000 acres included in British Provinces, a balance of 619,521,000 acres is left (as shown in Table I), which represents the area of British territory according to professional survey. The professional survey is that carried out by the Survey of India in Northern India, and by the corresponding departments in the Southern Presidencies. The Agricultural Statistics are, however, prepared in a number of provinces or parts of provinces from "village papers," *i.e.*, papers prepared by the village accountants for the purposes of assessment and collection of land revenue. The area given in the village papers of the United Provinces, the Central Provinces and Berar, Madras, the Punjab, and the North-West Frontier Province differs to some extent from the area ascertained by professional survey. The causes of this difference are : (*a*) while the survey area of a district or province is calculated in block, the area by village papers represents the added total of field and village areas ; and (*b*) the system followed as regards the inclusion or exclusion of areas covered by water, buildings, roads, and rail roads, is not uniform in the two sets of returns. Substituting the area by village papers for the area by survey in respect of provinces and tracts where the two sets of returns differ, the actual area of British territory for which statistics are given in this volume is 616,338,000 acres, or 963,000 square miles, as against 619,521,000 acres or 968,000 square miles according to the professional survey.

This area is classified, for the purposes of Agricultural Statistics, as shown in the margin. About 85,079,000 acres, or 14 per cent of the total, are occupied by forests; and the area not available for cultivation, *i.e.*, land absolutely barren or unculturable or covered by buildings, water, and roads, or otherwise appropriated to uses other than agriculture, amounts to 143,930,000 acres or 23 per cent. The balance, 387,329,000 acres or 63 per cent, represents the area available for cultivation. Of this, 113,820,000 acres, or 19 per cent of the total area, represent culturable waste other than fallow, *i.e.*, land available for cultivation but not taken up, and 51,731,000 acres, or 8 per cent, were kept fallow in the year of report. The net area actually cropped in the year was therefore 221,778,000 acres, or 36 per cent of the total area, as against 227,682,000 acres in the preceding year. The proportion of cropped to total area and the number of population per 100 acres of cropped area in each province are stated in the margin. The proportion of cropped to total area in the year of report was highest in Bombay and lowest in Sind. This net cropped area of 221,778,000 acres, however, excludes areas cropped more than once in the year. If areas cropped more than once are taken as separate areas for each crop, the gross area cropped in the year of report amounts to 254,882,000 acres, as against 260,641,000 acres in the preceding year.

Table II. Classification of area

	Thousand acres	Per cent
Forests	85,079	14
Not available for cultivation	143,930	23

Burma	13 „	74
Sind	11 „	108
British India	36 „	108

The term "forests" in the returns of Agricultural Statistics means "any land classed or administered as forest under any legal enactment dealing with forests." Any cultivated areas existing within such forests may, however, be excluded, and entered in the column "net area cropped." The forest areas returned in the Agricultural Statistics do not agree in most cases with those stated in the reports on the administration of the Forest Department for various reasons,* the chief amongst which are the following:—(1) the forest administration reports and the returns of agricultural statistics relate in many cases to different periods; (2) the administration reports relate exclusively to forests worked by the Forest Department, while the tables of agricultural statistics include, in addition, forest areas administered by district officers; and (3) certain village lands worked by the Forest Department and returned as forest lands by that Department are not treated as forests in the returns of agricultural statistics but are included under the proper heads of cultivated or uncultivated lands as the case may be. Of the total forest area returned in the agricultural statistics (85,079,000 acres in 1915-16), 24 per cent lies in Burma, 20 per cent in the Central Provinces and Berar, 15 per cent in the Madras Presidency, 11 per cent in the United Provinces, 10 per cent in the Bombay Presidency, and the remaining 20 per cent in other provinces.

Forests.

As can naturally be expected, most of the barren and unculturable lands lie in the hilly tracts of Burma and of southern India and in the dry and deserty regions of north-western India. Of the total area "not available for cultivation" (143,930,000 acres in 1915-16), about 31 per cent lies in Burma, 16 per cent in the Madras Presidency, 10 per cent in Sind, and 9 per cent in the Punjab.

Area not available for cultivation.

The head "culturable waste other than fallow" shows lands available for cultivation but not taken up. It includes areas such as groves not classed in the cropped area, and areas under bamboos and thatching grass when not forming parts of forest areas.* Of the total culturable waste lands

Culturable waste other than fallow.

* For detailed explanations in respect of provinces, *see* notes at foot of Table II, Nos. 26 to 40.

(113,820,000 acres in 1915-16), 22 per cent is in Burma, 15 per cent in the Punjab, 13 per cent in Assam, 12 per cent in the Central Provinces and Berar, 10 per cent in the Madras Presidency, and the remaining 28 per cent in other provinces.

Current fallows.

The maximum period for which land left uncultivated is reckoned as fallow varies in the different provinces, from two years in the Punjab and the North-West Frontier Province to ten years in the Bombay Presidency, according to local laws and customs. After this period the land, if still left uncultivated, is treated as abandoned and included under the head "culturable waste." Owing to this diversity of practice, the classification as between "culturable waste" and "current fallows" is of doubtful statistical accuracy; a plot of land, for instance, left uncultivated for, say, six years, would be treated as fallow in the Bombay Presidency, but as culturable waste in the Punjab. The total area returned as "current fallow" in 1915-16 was 51,731,000 acres, as against 45,897,000 acres in the preceding year, or an increase of 13 per cent. The increase may be attributed to the deficient rainfall of the year particularly in western and north-western India.

Irrigation.

The total area irrigated in 1915-16 was 46,898,000 acres, as against 47,194,000 acres in the preceding year. Of this area, 18,378,000 acres were irrigated from Government canals, 2,354,000 acres from private canals, 6,861,000 acres from tanks, 12,550,000 acres from wells, and 6,755,000 acres from other sources of irrigation. In India irrigation on an extensive scale is ordinarily resorted to in tracts where the rainfall is most precarious. In Lower Burma, Assam, Eastern Bengal, and the Malabar Coast (including the Konkan), where the rainfall is ordinarily heavy, the crops hardly need the help of irrigation, unless there is an unusual scarcity of rain. Of the total area irrigated in 1915-16, 25 per cent was in the Punjab, 24 per cent in the United Provinces, 21 per cent in the Madras Presidency, 10 per cent in Bihar and Orissa, 7 per cent in Sind, and the remaining 13 per cent in the other provinces. The proportion of irrigated to total cropped area in each province is stated in the margin. The proportion is highest in the driest province of Sind.

	Proportion of irrigated to total cropped area.
Sind	98 per cent.
Punjab	52 „
North-West Frontier Province	48 „
United Provinces	31 „
Madras	29 „

Bihar and Orissa	17 „
Bengal	9 „
Burma	8 „
Assam	7 „
Bombay	4 „
Coorg	3 „
Central Provinces and Berar	2 „
Manpur	2 „

The figures in the preceding paragraph do not take into account areas cropped more than once during the year with the help of irrigation, but indicate the extent of land actually irrigated. Counting areas cropped more than once as separate areas for each crop, the gross area of irrigated crops was 50,923,000 acres in 1915-16, as against 50,608,000 acres in the preceding year. Of this area, about 86 per cent were under food crops, and the remainder under non-food crops. Of the irrigated food-crop area, 10,056,000 acres were cropped with wheat, 30,131,000 acres with other cereals and pulses, and 3,860,000 acres with other food crops. These statistics of irrigated crops are in some cases defective as explained in the notes at the foot of Table II (pages 39—45).

Table III. Area under crops.

The areas cultivated with the different crops represent the areas actually sown, whether the crop comes to maturity or not, except in cases where fields, owing to the failure of the first sowings, have been devoted to other crops; in such cases the area first sown is omitted. In cases where two or more crops are grown together on the same field, an estimate is made of the area covered by each, and the areas so estimated are separately returned under the respective crop headings. The estimate is made by the village accountant, or is subsequently determined on formulæ prescribed by the provincial authorities. In certain tracts, where the village staff does not exist, estimates are made on the best available information. An exception to the above rule is, however, made in the United Provinces, where the area sown with unimportant mixed crops, for which no separate heading is provided in the provincial crop statements, is assigned to the principal crops by the village accountant. In the same

province this procedure is also followed in the case of oilseeds thinly sown in combination with food-grains ; in this case the whole area of the mixed field is assigned to food grains.

The gross area cultivated with crops was, as stated above, 255 million acres in 1915-16, as against 261 million acres in the preceding year, or a decrease of 2 per cent. The different classes of crops and the area occupied by each are stated in the margin. Of the total cropped area, food-crops occupied about 214,594,000 acres or 84 per cent, and non-food crops about 39,818,000 acres or 16 per cent. Of the food-crops, food-grains (cereals and pulses) occupied as much as 203,735,000 acres or about 80 per cent of the total cropped area, and other food-crops (condiments and spices, sugar, fruits and vegetables, and miscellaneous food-crops* together) occupied some 10,859,000 acres or only 4 per cent of the total. Of non-food crops, fibres, such as cotton, jute, hemp, etc., occupied 14,572,000 acres or nearly 6 per cent of the total cropped area, and oilseeds occupied 14,236,000 acres or 5½ per cent. The other non-food crops *—dyes, drugs and narcotics (tobacco, tea, coffee, opium, etc.), fodder crops, and miscellaneous non-food crops together—occupied some 11,010,000 acres or about 4 per cent of the total.

	Thousand acres.	Per cent of total.
Food-grains	203,735	80·1
Condiments and spices	1,522	0·6
Sugar	2,551	1·0
Fruits and vegetables	5,698	2·2
Miscellaneous food-crops	1,088	0·4
Total food-crops	214,594	84·3
Oilseeds	14,236	5·6
Fibres	14,572	5·8
Dyes	838	0·3
Drugs and narcotics	2,090	0·8
Fodder crops	7,076	2·8
Miscellaneous non-food crops	1,006	0·4
Total non-food crops	39,818	15·7

Food-grains.

The area under food-grains (203,735,000 acres) showed a net decrease of 770,000 acres or 0·4 per cent as compared with the preceding year. The actual increase or decrease under each kind of grain is stated in the marginal table (in thousands of acres). The weather conditions were not altogether favourable, owing to a weak and irregular monsoon and inadequate and untimely winter rains, particulary in northern and western India. Of the total area shown in the table under food-grains (204 million acres in 1915-16) 20 per cent was in the United Provinces,† 15 per cent in the Madras Presidency, 13 per cent in Bihar and Orissa, 11 per cent in Bengal, 10 per cent each in the Bombay Presidency, the Central Provinces and Berar, and the Punjab, and the remaining 11 per cent in the other provinces.

	Thousand acres.		
	1915-16	1914-15	Increase (+) or Decrease (−)
Rice	78,680	77,669	+1,011
Wheat	23,871	25,451	−1,580
Barley	8,013	7,905	+108
Jawar	23,051	21,223	+1,828
Bajra	14,343	16,042	−1,699
Ragi	4,338	4,251	+87
Maize	6,735	6,188	+547
Gram	13,559	14,364	−805
Other grains and pulses	31,145	31,412	−267

Oilseeds.

The area under oilseeds (14,236,000 acres) showed a decrease of 1,098,000 acres as compared with the preceding year. The actual decrease under each kind of oilseeds is stated in the margin (in thousands of acres). Of the total area under oilseeds shown in this table (14 million acres), 19 per cent was in the Madras Presidency, 17 per cent in the Central Provinces and Berar, 14 per cent in Bihar and Orissa, 13 per cent in Bengal, 10 per cent in Burma, 9 per cent in the Punjab, 7 per cent in the

	Thousand acres.		
	1915-16	1914-15	Decrease
Linseed	2,451	2,526	−75
Sesamum	4,135	4,478	−343
Rape and mustard	4,076	4,144	−68
Other oilseeds	3,574	4,186	−612

* For a list of these crops, *vide* Appendix D.

† In the United Provinces, the whole of the area of the land sown with food-grains mixed with oilseeds is shown under food-grains. The area included under food-grains, which was really sown with oilseeds (as a mixed crop), is roughly estimated to have been 4,000,000 acres in the whole province in 1915-16. Excluding this area of 4 million acres of oilseeds, the total area under food-grains in British India in 1915-16 would come to 200 million acres instead of 204 million acres stated above.

Bombay Presidency, 6 per cent in the United Provinces,* and the remaining 5 per cent in the smaller provinces.

Condiments and spices.

The total area under condiments and spices in 1915-16 was 1,522,000 acres, as against 1,323,000 acres in the preceding year, or an increase of 199,000 acres or 15 per cent. As is to be expected, spices are grown mostly in the southern parts of India: nearly half (49 per cent) of the total area under condiments and spices in 1915-16 was in the Madras Presidency.

Sugar.

The total area under sugar in 1915-16 was 2,551,000 acres, as against 2,459,000 acres in the preceding year, or an increase of 92,000 acres or 3·7 per cent. Of this area, about 2,378,000 acres were occupied by sugarcane, as against 2,303,000 acres occupied by that crop in the preceding year. More than half (53 per cent) of the sugarcane area was in the United Provinces, 15 per cent in the Punjab, 11 per cent in Bihar and Orissa, 10 per cent in Bengal, and 4 per cent in the Madras Presidency. The other sugar-yielding plants, namely, date palm and palmyra palm, occupied a total area of 172,000 acres as against 156,000 acres in the preceding year. About 56 per cent of this area was in the Madras Presidency and 29 per cent in Bengal.

Fibres.

Fibre crops occupied 14,572,000 acres in 1915-16 as against 19,507,000 acres in the preceding year, or a decrease of 4,935,000 acres or 25 per cent. The actual decrease under the several kinds of fibre is shown in the marginal table.

	Thousand acres		
	1915-16	1914-15	Decrease (−)
Cotton	11,435	15,222	−3,787
Jute	2,349	3,309	−960
Other fibres	788	976	−188

The area under cotton showed a decrease of 25 per cent, attributed chiefly to the low prices of cotton obtained in the preceding year, and also in some provinces to the vagaries of the season. Of the total cotton area, 35 per cent was in the Central Provinces and Berar, 28 per cent in the Bombay Presidency, 18 per cent in the Madras Presidency, 7 per cent each in the Punjab, and the United Provinces. The area under jute showed a decrease of 29 per cent attributed mainly to low prices due to the war. About 89 per cent of the total jute area was in Bengal and the remaining 11 per cent in the adjoining provinces of Bihar and Orissa and Assam. Other fibres also showed a decrease of 19 per cent as compared with the preceding year.

Dyes.

The total area under dyes was 838,000 acres in 1915-16. Of this, the area occupied by indigo was 351,000 acres as against 146,000 acres in the preceding year, or an increase of 205,000 acres or 140 per cent. The increase was due to high prices of indigo on account of the war. Of the total indigo area, 63 per cent was in the Madras Presidency, 17 per cent in Bihar and Orissa, 12 per cent in the United Provinces, and 6 per cent in the Punjab. Other dyes occupied an aggregate area of 487,000 acres.

Drugs and narcotics.

The total area under drugs and narcotics was 2,090,000 acres in 1915-16 as against 2,046,000 acres in the preceding year. The actual increase or decrease under each kind of drugs and narcotics is stated in the margin. All drugs and narcotics, except tobacco, cinchona, and Indian hemp, showed an increase. The area under tobacco decreased, while the area under the latter two remained practically the same as in the preceding year.

	Thousand acres		
	1915-16	1914-15	Increase (+) or Decrease (—)
Opium	182	179	+3
Coffee	91	87	+4
Tea	593	584	+9
Tobacco	1,027	1,056	−29
Cinchona	5	5	...
Indian hemp (*ganja*)	2	2	...
Other drugs	190	133	+57

* The figures shown under the several heads of oilseeds in Table III against the United Provinces of Agra and Oudh represent areas under "pure" oilseeds, *i.e.*, oilseeds sown unmixed with any other crop, excluding the oilseeds which are thinly sown in combination with wheat, barley, gram, and other crops. If the areas occupied by the scattered oilseeds plants were added up, it is estimated very roughly that they would amount in 1915-16 for the whole of the United Provinces to about 4 million acres. Including this area, the total area under oilseeds in British India in 1915-16 would come to 18 million acres instead of 14 million acres stated above.

The head "fodder crops" shows only those crops which are used exclusively as fodder in normal times. These are oats, field vetch, guinea grass, lucerne, fodder jawar, and carob or locust tree. The total area under fodder crops in 1915-16 was 7,076,000 acres as against 6,363,000 acres in the preceding year. Fodder crops.

The total area occupied by fruits and vegetable crops in 1915-16 was 5,698,000 acres as against 5,931,000 acres in the preceding year. [For the names of the fruits and vegetable crops cultivated in India, see Appendix D.] Fruits and vegetables including root crops.

The total area occupied by miscellaneous crops, that is, crops not classified under any of the heads specified above, was 2,094,000 acres. Of this, about 1,088,000 acres were occupied by miscellaneous food crops and about 1,006,000 acres by miscellaneous non-food crops. [For the names of the crops included under these heads, see footnotes on page 103 and Appendix D.] Miscellaneous crops.

The total extent of land on which more than one crop was raised during the year was 33,104,000 acres as against 33,030,000 acres in the preceding year. Area cropped more than once.

The statistics recorded in Table IV are based mainly on cattle censuses. In Burma, Manpur Pargana, and the Central Provinces and Berar the census is taken annually, while in the United Provinces, Assam, Ajmer-Merwara, the Punjab, Delhi, the North-West Frontier Province, the Bombay Presidency, the Madras Presidency, and Coorg it is taken once in five years. The last quinquennial census was taken in 1915-16 in the Bombay Presidency, in 1913-14 in the Punjab, the North-West Frontier Province, Delhi, and Ajmer-Merwara, and in 1914-15 in the United Provinces, the Madras Presidency, Assam, and Coorg. In Bengal a cattle census was taken for the first time in 1912-13, which gave the numbers of bulls and bullocks, cows, buffaloes, and young stock. [Young stock represents oxen and buffaloes not old enough for work or to produce young.] In Bihar and Orissa a census was taken in 1913-14. The figures for Bihar and Orissa prior to 1913-14, as also those for Bengal for years prior to 1912-13, are based on estimates. Live-stock in cities and cantonments are included wherever it is possible to secure their enumeration. In making up the totals for British India for each year, the figures last collected in the provinces, where the census is not taken annually, are repeated year after year until the next cattle census is taken.* It would, therefore, serve no useful purpose to compare the total figures of one year with those of another, as the totals thus constituted do not really represent the number of stock in the year against which the figures are shown in the table. The animals may be divided into three classes, namely, (1) Bovine, comprising bulls and bullocks, cows, buffaloes, and young stock (*i.e.*, calves and buffalo calves), (2) Ovine, comprising sheep and goats, and (3) others, comprising horses and ponies, mules, donkeys, and camels. Table IV. Live-stock, ploughs and carts.

Number in thousands

	Bovine	Ovine	Others	Ploughs	Carts
Bengal	25,324	Not available			
Madras	21,761	18,192	189	4,291	998
Bombay	9,206	4,038	212	1,121	618
Sind	2,179	1,616	319	278	56
United Provinces	31,741	12,676	846	5,111	859
Bihar and Orissa	20,098	6,541	203	3,221	458
Punjab	15,489	9,109	1,472	2,314	295
Burma	5,851	234	102	625	656
Central Provinces and Berar	11,890	2,019	188	1,426	901
Assam	3,576	522	15	594	40
North-West Frontier Province	1,271	1,147	211	226	5
Ajmer-Merwara	274	447	10	40	12
Delhi	148	32	13	16	8
Coorg	134	4	...	34	1
Manpur	6	1	...	1	...
Total	148,948	56,578	3,780	19,298	4,907

The total number of live-stock of each of these three classes in each province, together with the numbers of ploughs and carts, is stated in the margin (in thousands). Of the total number of live-stock of the bovine class (149 millions), which is cattle proper, the United Provinces account for 21 per cent, Bengal 17 per cent, the Madras Presidency 15 per cent, Bihar and Orissa 13 per cent, the Punjab 10 per cent, the Central Provinces and Berar and the Bombay Presidency including Sind 8 per cent each, and other provinces the remaining 8 per cent. In the case of ploughs also the United Provinces come first with 26 per cent of the total (excluding Bengal for which figures are not available), followed by Madras (22 per cent), Bihar and Orissa (17 per cent),

* It has been arranged to hold a quinquennial census of live-stock in the same year in all the provinces, as far as practicable. The next such census will be taken in 1919-20.

and the Punjab (12 per cent). In the case of stock of the ovine class (sheep and goats), however, Madras accounts for 32 per cent of the total (excluding Bengal), followed by the United Provinces (22 per cent), the Punjab (16 per cent), Bihar and Orissa (12 per cent), and the Bombay Presidency including Sind (10 per cent). In the case of carts, Madras accounts for 20 per cent of the total (excluding Bengal), followed by the Central Provinces and Berar and the United Provinces (18 per cent each), the Bombay Presidency including Sind (14 per cent) and Burma (13 per cent). The marginal table shows the number of live-stock of the bovine class (which is cattle proper) per 100 acres of cropped area and per 100 of the population of each province. It will be seen that the number of cattle per 100 acres of cropped area ranges between 34 in Bombay and 104 in Bengal, while the number per 100 of population ranges between 36 in Delhi and 86 in the Manpur Pargana. The average for British India, as a whole, is 67 per 100 acres of cropped area and 62 per 100 of the population.

	Number of cattle	
	Per 100 acres of cropped area.	Per 100 of population.
Bengal	104	57
Madras	63	53
Bombay	34	61
Sind	67	62
United Provinces	88	67
Bihar and Orissa	77	58
Punjab	69	79
Burma	41	55
Central Provinces and Berar	47	85
Assam	61	53
North-West Frontier Province	66	56
Ajmer-Merwara	94	55
Delhi	73	36
Coorg	96	77
Manpur	86	86

Table V. Land Revenue Assessment.

The varieties of land tenure in the different provinces are included in Table V and are given, as far as possible, under one or other of the following three heads, namely, (1) raiyatwari, (2) zamindāri and village communities (temporarily settled), and (3) zamindari permanently settled. When the revenue is assessed by the State, permanently or temporarily, on an individual or community owning an estate, and occupying a position identical with or analogous to that of a landlord, the tenure is known as *zamindari* or village community; when the revenue is assessed on individuals who are the actual occupants, or are accepted as representing the occupants, of smaller holdings, the tenure is known as *raiyatwari*. Under either system there may be rent-paying subtenants. Zamindari tenure may be either *permanently settled*, *i.e.*, where the land revenue has been fixed in perpetuity, or *temporarily settled*, *i.e.*, where the land revenue is fixed for a period of years only. Village communities and raiyatwari tenures are as a rule temporarily settled, and the land revenue assessed on them are changeable from time to time.

The following table shows the position in the surveyed areas of the various provinces, as regards the forms of land tenure according to the latest statistics available. The figures roughly indicate the extent to which the different systems prevail :—

In thousands of acres.

Province.	Raiyatwari.	Zamindari (individual proprietors or village communities).		Total.
		Permanently settled	Temporarily settled	
Bengal	...	39,211	11,269	50,480
Madras	61,286	29,852	...	91,138
Bombay	44,733	...	3,910	48,643
Sind	30,098	...	...	30,098
United Provinces	...	7,542	60,793	68,334
Bihar and Orissa	...	41,452	11,760	53,212
Punjab	...	...	61,856	61,856
Burma	109,005	...	...	109,005
Central Provinces	12,139*	...	40,458	52,597
Berar	11,375*	...	...	11,375
Assam	25,750	3,930	1,625	31,305
North-West Frontier Province	...	...	8,438	8,438
Ajmer-Merwara	...	974	797	1,771
Delhi	...	...	367	367
Coorg	1,012	...	...	1,012
Manpur	31	...	...	31
Total	295,429	122,960	201,273	619,662

It will thus be seen that about 48 per cent of the total area is held by *rayiatwari* proprietors, while 20 per cent is held by permanently settled, and 32 per cent by temporarily settled, *zamindari* proprietors.

* Including Government forests.

The statistics for this table are collected annually in Burma, Assam, Manpur, the Punjab, Delhi, the North-West Frontier Province, and the Central Provinces and Berar, and quinquennially in Bengal, Bihar and Orissa, the United Provinces, Ajmer-Merwara, Bombay, Sind, Madras, and Coorg. According to the latest statistics available the total revenue from land (excluding cesses) for the whole of British India amounts to over ₹34 crores. This represents the actual realisable demand* on account of the year, no account being taken of the collection of arrears for past years, nor of amounts remaining uncollected at the end of the year. The marginal table shows the total land revenue assessment, the total population, and the assessment per head of population in each province. For additional details reference should be made to the tables on pages 212—223.

	Total revenue from land (₹1,000)	Total population (1,000)	Revenue per head ₹	a.
Bengal	2,74,67	44,588	0	10
Madras	6,72,94	41,405	1	10
Bombay	3,28,52	15,134	2	3
Sind	1,01,80	3,513	2	14
United Provinces	6,57,68	47,190	1	6
Bihar and Orissa	1,57,13	34,490	0	7
Punjab	4,23,93	19,545	2	3
Upper Burma	1,61,04	4,112	3	15
Lower Burma	3,29,97	6,465	5	2
Central Provinces	1,09,92	10,873	1	0
Berar	86,16	3,067	2	13
Assam	79,24	6,714	1	3

Delhi	3,49	413	0	14
Coorg	3,65	175	2	1
Manpur	16	7	2	6
Total	34,19,29	240,447	1	7

Table VI. Transfers of property in land.

The total number of transfers during 1915-16, as recorded in Table VI, was 926,000, of which 887,000 were by private contract or gift, and 39,000 by order of the court. The total area of the transfers by private contract or gift was 4,270,000 acres, and by order of the court 635,000 acres. These statistics are incomplete. They do not include transfers in Bengal (for which figures are not available), nor in Madras (for which the table has been discontinued from 1913-14); in Bihar and Orissa no information is available regarding transfers under orders of civil courts. As explained in the footnotes to Table VI, the figures for other provinces also are not always complete. It may be noted that voluntary transfers are those made by actual contract or gift, transfers by succession or inheritance not being taken into account: compulsory transfers are those effected through a court, civil or revenue. Transfers of land under the Land Acquisition Act and temporary transfers, such as leases, simple mortgages, and redemptions of mortgages, are excluded from the table. Mortgages with possession are treated as transfers and included in Table VI.

Appendices. Average yield of crops.

The Agricultural Department in each province maintains a statement of the average yield per acre of land of average quality, irrigated and unirrigated, for crops in each district. In order to test the accuracy of the standards of normal or average yield, and if necessary, to revise these, a system of crop-cutting experiments exists in all the provinces. Under this system plots of land of average quality are selected, and the crops grown on them are cut and weighed in the presence of responsible officers of the district staff or of the Provincial Agricultural Department. The results of the experiments are reported to the head of the Provincial Agricultural Department, who revises the standards in the light of these returns. This revision is ordinarily made once in five years, although crop-cutting experiments are usually carried out for the principal crops each year. The table (appendix A) shows the figures as last revised with reference to the crop-cutting experiments made up to 1911-12. As time goes on the figures become more accurate, and it may be noted that the general trend of the changes made is in an upward direction. In Bengal the yield of sugarcane has been raised from 2,460 lbs to 2,905 lbs, and that of jute from 1,200 lbs to 1,271 lbs. Maize and rice in the United Provinces have been raised from 1,050 lbs and 850 lbs to 1,100 lbs and 900 lbs, respectively. In the Punjab rapeseed has been raised from 254 lbs to 396 lbs and cotton from 74 lbs to 118 lbs. In Sind cotton has been raised from 308 lbs to 380 lbs, due

* Sums remitted on account of unoccupied lands, short crops, etc., are wholly excluded from this total amount in the case of provinces where all remissions are granted within the year to which the return relates, but in provinces where remissions are not granted or are only partially granted within the year, no deduction is made on account of remissions.

mainly to the adoption of Egyptian seed in Thar and Parkar, and bajra from 776 lbs to 971 lbs. In Madras irrigated and unirrigated cotton is, respectively, 87 lbs and 55 lbs against 66 lbs and 44 lbs formerly, while irrigated jawar has been raised from 1,118 lbs to 1,379 lbs. In some instances the standards have decreased. In Bengal the average yield of winter rice has been put at 983 lbs ; in the Punjab the yield of bajra at 379 lbs and of gram at 549 lbs ; while the yield of maize in the North-West Frontier Province has been put at 1,292 lbs.

Territorial changes.

Appendices B, C, and D perhaps require little or no comment. Appendix B, which shows changes that have been made from time to time in district or provincial boundaries, will explain the variations in total areas of districts and provinces in Table I, so far as they are due to territorial changes. Appendix C explains vernacular terms used in this volume, and Appendix D the classification in Table III of the various crops cultivated in India.

Vernacular terms and classification of crops.

The charts and diagrams in the volume illustrate (1) total area cropped in 1915-16 with shares of food and non-food crops, (2) live-stock divided between bovine, ovine, and others, (3) total cultivable area, (4) uncultivable area and net area cropped, (5) culturable waste and current fallows, (6) area cropped and area under food crops, (7) area under non-food crops and irrigated area cropped, (8) and (9) areas under selected crops, (10) shares of provinces in the areas under certain principal crops in 1915-16.

For the prices of agricultural produce, reference should be made to the volume entitled "Prices and Wages in India", 32nd issue.

I have the honour to be,

SIR,

Your most obedient servant,

G. FINDLAY SHIRRAS,

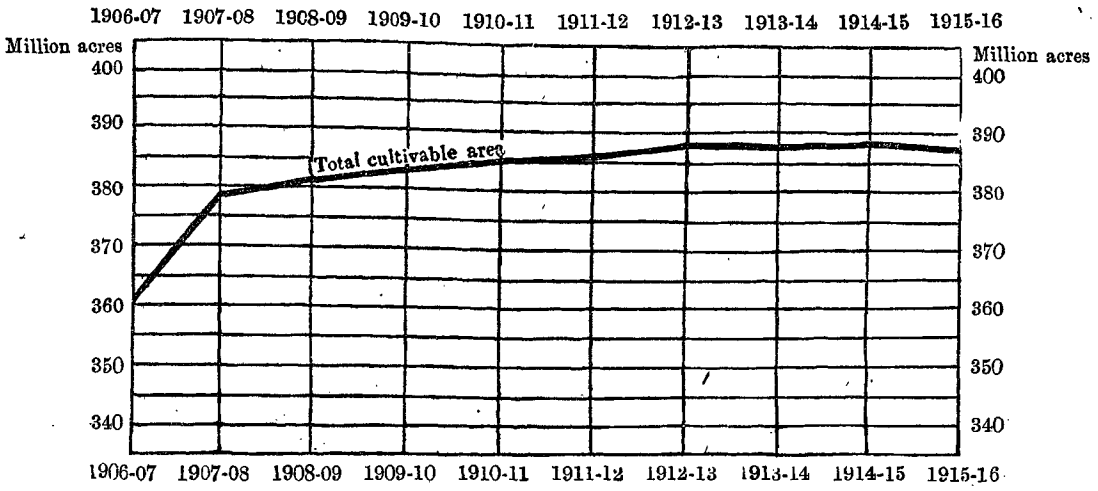
Director of Statistics.

DEPARTMENT OF STATISTICS,
Calcutta, February 23, 1918.

AREAS

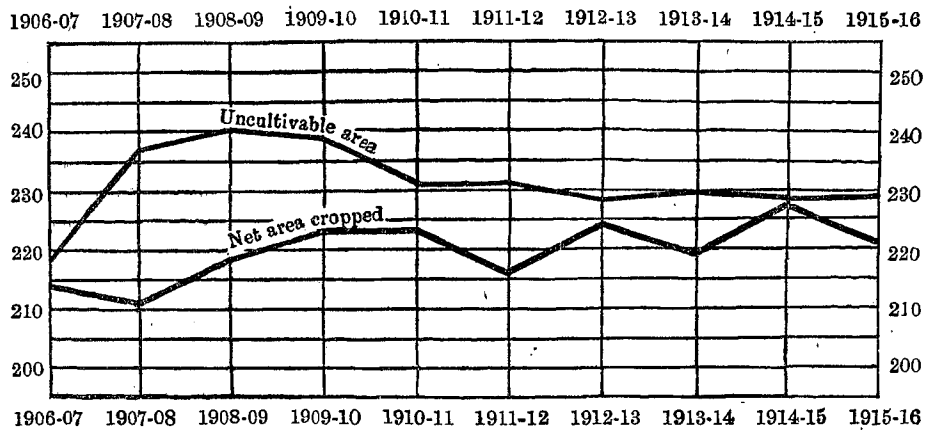
(In millions of acres)

3. Total cultivable area



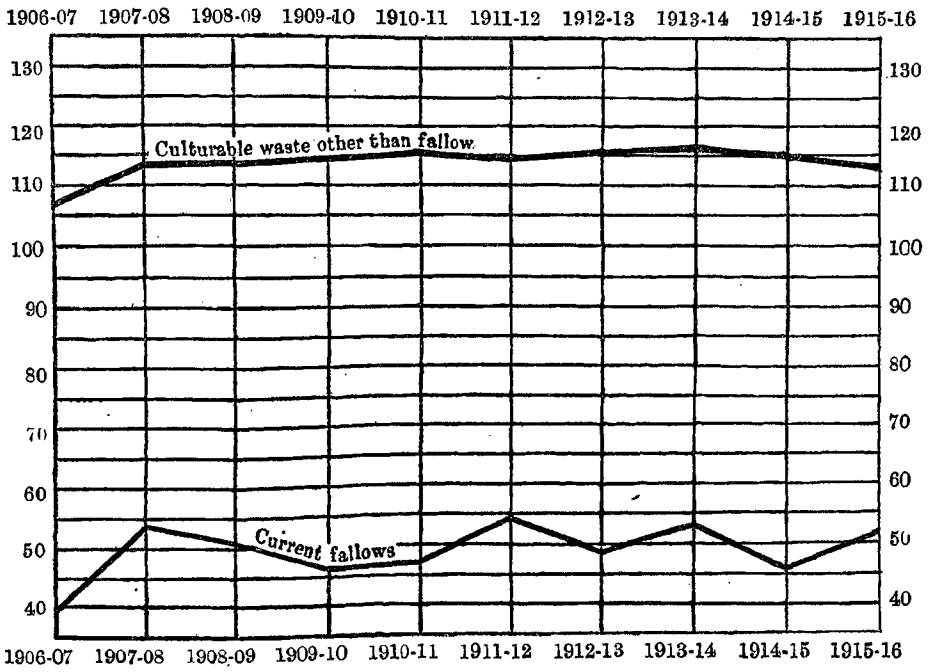
Total cultivable area represents the sum of net area cropped, culturable waste, and current fallows.

4. Uncultivable area and Net area cropped



Uncultivable area includes the area under forest.

5. Culturable waste other than fallow and current fallows

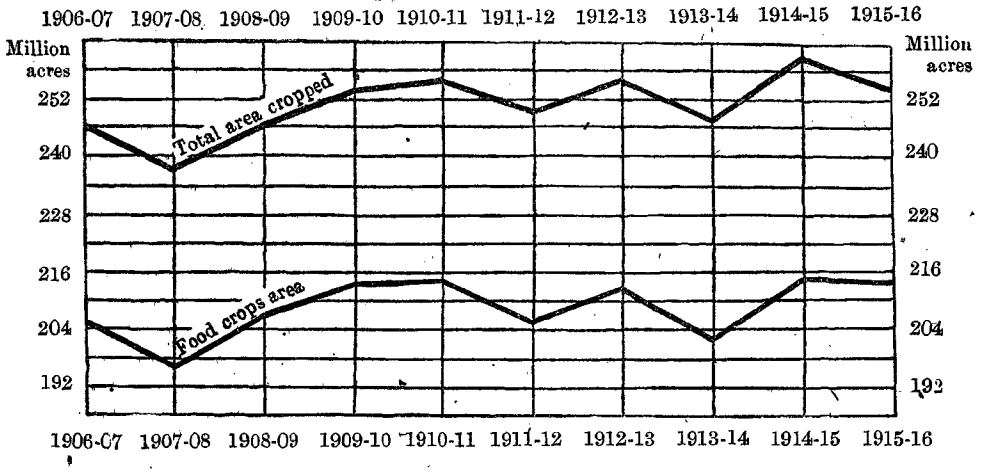


NOTE :—Statistics for years prior to 1907-08 exclude certain areas for which returns were not available.

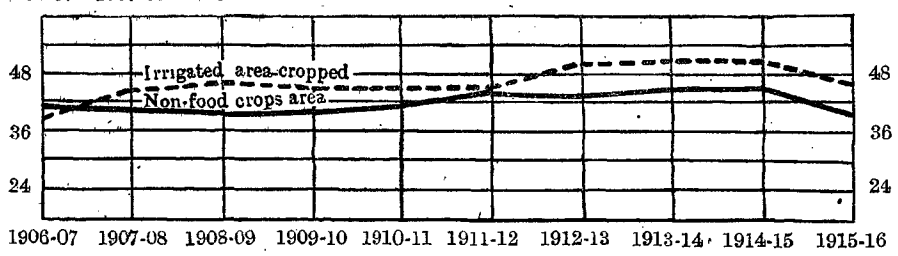
AREAS

(In millions of acres)

6. Total area cropped and area under food crops

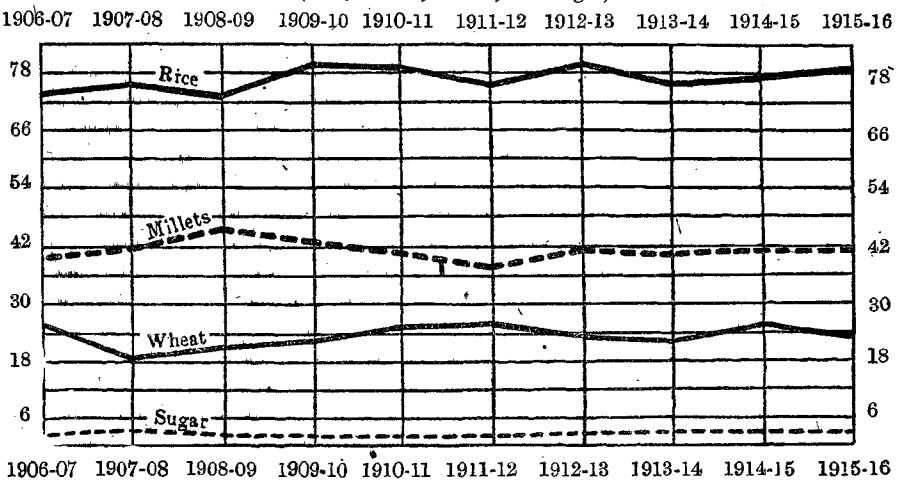


7. Area under non-food crops and irrigated area cropped



8. Areas under selected crops

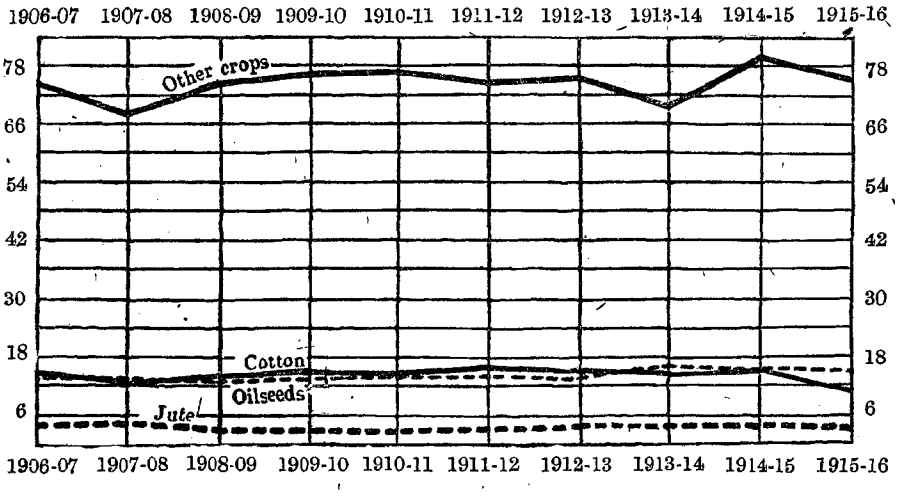
(Rice, Millets, Wheat, and Sugar)



Millets are jawar, bajra, and ragi

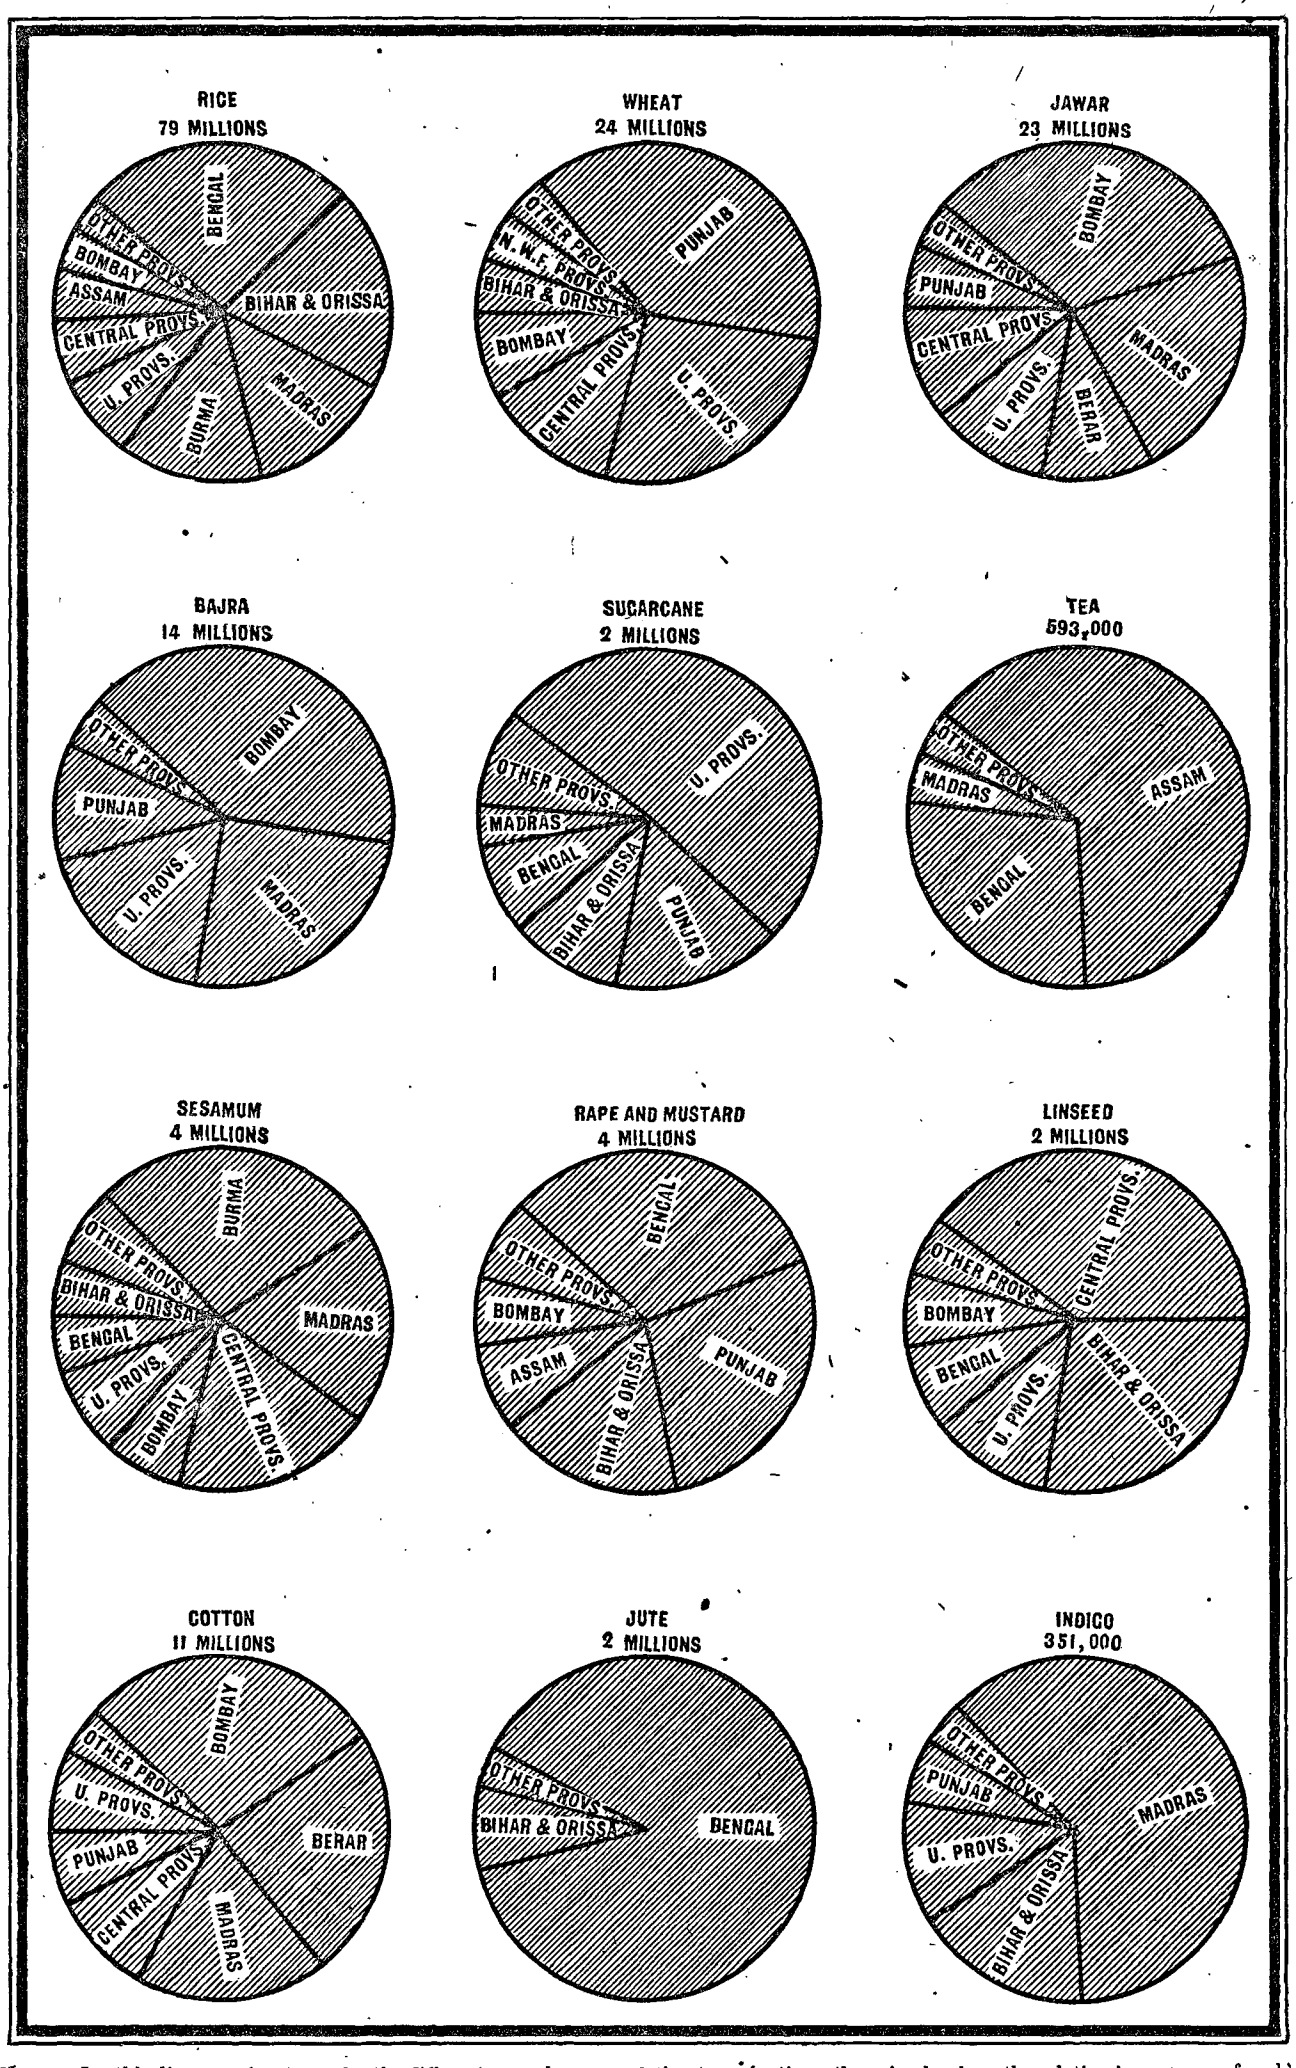
9. Areas under selected crops

(Oilseeds, Cotton, Jute and other crops)



NOTE:—"Other food crops" are barley, maize, gram, minor food grains, condiments and spices, fibres other than cotton and jute, dyes, drugs and narcotics, fodder crops, fruits and vegetables and miscellaneous crops.
Statistics for years prior to 1907-08 exclude certain areas for which returns were not available.

10. Shares of provinces in the total area (in acres) under each crop in 1915-16



NOTE:—In this diagram, the circles for the different crops have no relation to each other; they simply show the relative importance of each province in respect of each crop.

TABLES

Summary Tables of the Agricultural Statistics of British India

No. 1—GENERAL SUMMARY 1896-97 TO 1915-16

Classification of area (*Thousand acres*

	1896-97 (a)	1897-98 (a)	1898-99 (a)	1899-00 (a)	1900-01 (a)	1901-02 (a)	1902-03 (a)	1903-04 (a)	1904-05 (a)	1905-06 (a)

(*a*) Figures for Lower Egypt only

(*b*) Not including the territory occupied by the enemy

(*c*) Excluding the Isle of Man and the Channel Islands

* Including figures for Native States, namely, 3,537,000 acres for rice, 6,587,000 acres for wheat, 869,000 acres for barley, 2,104, acres for maize, and 1,417,405 acres for cotton. The figures for rice, barley, and maize for Native States are, however, not complete, as returns for those crops are not furnished by a number of States.

Note.—The figures for foreign countries have been taken from the Bulletins of Agricultural and Commercial Statistics and Statistical Notes on Cereals published by the International Institute of Agriculture, Rome

(*a*) Includes Bihar and Orissa and excludes Eastern Bengal upto 1910-11.
(*b*) Increase due to adoption of the latest census figures.

Column 2.—The professional survey is that carried out by the Survey of India in Northern India, and by the corresponding departments in the Southern Presidencies. The provincial areas in this column exclude Native States in direct political relations with the Government of India, but include Feudatory or Tributary States politically controlled by Local Governments, with the exception of the Shan States in Burma and the Tribal areas in the North-West Frontier Province.

Column 3.—In this column is entered the area of any Feudatory or Tributary States included in column 2.

Column 4.—Prior to 1908-09 this column showed the entire area (exclusive of Native States) for which the statistics required for Tables II and III were not forthcoming in whole or in part. This area comprised chiefly estates held in permanent settlement or on privileged tenure, which were not surveyed or which possessed no agency for the annual collection of agricultural statistics. But arrangements have since been made to prepare statistics, for the whole of this area, based either on regular returns or on estimates as has been found practicable. There is therefore no longer any unreturned area to be shown in this column.

Columns 5 and 6.—Column 5 is a check on the accuracy of column 6. In the latter "village papers" mean "the papers prepared by the village accountants." The village papers do not in several provinces relate to the whole area included in column 5; for instance, the village returns sometimes do not include the forest areas. There are also tracts in many provinces for which no village papers exist and for which estimates have to be made to complete the statistics. In all such cases, column 6 must be taken to be the total area corrected by the village papers in respect of the areas for which such papers exist. The areas of provinces and districts, which are calculated from village papers, are necessarily somewhat different from those given by the Survey Department, (*a*) because, while the survey area of a district or province is calculated in block, the area by village papers represents the added total of field and village areas; and (*b*) because the system followed as regards the inclusion or exclusion of areas covered by water, buildings, roads, and railroads, is not uniform in the two sets of returns. In provinces where no village papers exist, the figures in column 5 have been repeated in column 6. In that case they represent the area of which the details are stated in columns 2 to 6 of Table II.

Column 2 states the area as ascertained by the provincial survey department, supplemented, for tracts which have not come under the operations of that department, by areas obtained with the computing scale from the Survey of India atlas sheets of the localities concerned.

Columns 5 and 6.—The statistics for the major portion of the zamindari estates and certain raiyatwari and whole inam villages are based on estimates, owing to the absence of adequate agency for the collection of statistics in these tracts. Of the total area (89,534,674 acres) entered in column 6 for 1915-16 (page 19), 66,456,333 acres are based on actual returns and 23,078,341 acres on estimates.

Column 2 states the area as returned by the provincial revenue survey and settlement department, supplemented in the case of Native States by the returns of the topographical survey.

Columns 5 and 6.—The figures of column 5 are repeated in column 6, because the areas in village papers are derived from the revenue survey records. The figures for all unsurveyed villages are based on estimates. Of the total area (48,642,709 acres) entered in columns 5 and 6 for 1915-16 (page 21), 44,554,252 acres are based on actual returns and 4,088,457 acres on estimates.

1915-16	33,970,076	3,872,000	.....	30,098,076	30,098,076

Column 2 states the area as returned by the provincial revenue survey and settlement department, supplemented in the case of Native States by the returns of the topographical survey. The revenue survey being incomplete in Sind, the exact area is not known: the column states the area of surveyed tracts *plus* the estimated area of unsurveyed tracts.

Columns 5 and 6.—The figures of column 5 are repeated in column 6, because the areas in village papers are derived from the revenue survey records. The figures for all unsurveyed villages are based on estimates. Of the total area (30,098,076 acres) entered in these columns for 1915-16, 29,973,168 acres are based on actual returns and 124,908 acres on estimates.

Columns 2, 5 and 6.—Where there has been no professional survey of the district, estimates framed in the best manner possible are accepted, subject to revision from time to time as surveys extend. Approximate figures for the Chin Hills and for the Kachin Hills (in the Bhamo, Myitkyina, and Katha districts) have been included from 1906-07 and for the Pakokku Hill Tracts from 1907-08. Of the total area (53,802,903 acres) entered in columns 5 and 6 for 1915-16 for Upper Burma (page 30), 16,080,702 acres are based on actual survey and 37,722,201 acres on estimates.

The variations in the areas shown in different years under the same item in the same province or district do not necessarily represent an actual increase or decrease on the area in question. In many cases a revised classification or the correction of a faulty estimate is responsible for the change.

Column 2.—"Forests" mean "any land classed or administered as forest under any legal enactment dealing with forests." Any cultivated areas existing within such forests may be excluded and entered in column 6 (net area cropped). The forest areas do not agree in most cases with those stated in the reports on the administration of the Forest Department for various reasons, the chief amongst which are these: (1) because the forest administration reports and the statements of agricultural statistics relate in many cases to different periods, (2) because the administration reports relate exclusively to forests worked by the Forest Department, while the tables of agricultural statistics exhibit in addition forest areas administered by district officers, and (3) because, on the other hand, certain village lands worked, and returned as forests, by the Forest Department are not treated as forests in the returns of agricultural statistics and are therefore excluded from this column.

Column 3 includes all land absolutely barren, and also all land covered by buildings, water, roads, or otherwise appropriated to uses other than agriculture.

Column 4 includes groves not classed in the cropped area. Areas under bamboos and thatching grass, when not forming parts of forest areas, are included in this column.

(*a*) See footnote (*a*) on page 12.

Columns 8 to 13 state the area actually irrigated during the year, areas cropped more than once being counted once only.

Columns 14 to 18 state the gross area of irrigated crops, areas cropped more than once being counted as separate areas for each crop. The excess in some cases of the total area of crops irrigated (column 18) over the total area irrigated (column 13) is thus due to the inclusion in column 18 of the area irrigated at both harvests.

(*a*) Includes 1,750 acres in Rajshahi for which details are not available.

(*b*) Includes 1,700 acres in Rajshahi for which details are not available.

(*c*) Includes 26,777 acres in Purnea for which details are not available.

(*d*) Statistics of the area of crops irrigatad were not collected, so the figures shown in column 13 are repeated in this column in order to make the totals for British India complete as far as possible.

(*e*) Includes 14,435 acres for which details are not available.

Table II—*continued*

No. 25.—CLASSIFICATION OF THE AREA (IN ACRES) OF EACH PROVINCE IN BRITISH INDIA—*continued*

Province	Forests *	Not available for cultivation *	Culturable waste other than fallow *	Current fallows	Net area cropped	Total	Area irrigated: Government canals	Area irrigated: Private canals

* See explanations given in the footnotes (page 38)

(*a*) Includes reserved and protected forests only. The management of the latter having been transferred to the revenue authorities, the figures shown in the forest administration report represent the areas of reserved forests, which slightly differ from those adopted for this table because the periods embraced are different.

(*b*) Includes unculturable Government waste and unculturable *banés*.

(*c*) States the estimated area of culturable Government waste.

(*d*) Shows (1) the estimated area of culturable *banés*, and (2) the difference between the net area cropped and the gross area of the actual holdings (exclusive of *banés*). It thus includes the unculturable lands within the actual holdings, the area of which cannot be ascertained.

Column 2.—Includes the area cultivated within forests, and excludes the area of forests in the Native State of Sandur, in Bellary, not included in the village papers. As the latter is included in the forest administration report, it accounts partly for the disagreement of its figures with those in this table.

Column 4.—Includes areas occupied by *babul* and casuarina trees when they do not form parts of forest areas. Prior to 1911-12, such areas were classed under "Miscellaneous non-food crops" in Table III.

Column 5.—Includes all occupied waste, that is to say, waste portions of land for which revenue is paid.

Column 6.—Of the total net cropped area for 1915-16 (34,448,793 acres) stated in this column (page 52), 28,234,115 acres are based on actual returns, and 6,214,678 acres on estimates.

Column 10.—The term "tanks" refers to a particular kind of dammed reservoirs. These reservoirs are formed by throwing dams across the valleys of small rivulets and streams to intercept water during the rains.

Column 13.—Of the total area irrigated in 1915-16 (9,974,131 acres, page 53) 7,438,965 acres are based on actual return and 2,535,166 acres on estimates.

NOTE.—Figures for unsurveyed villages are based on estimates.

Column 2.—Includes land administered by the Forest Department whether formally declared forest under an Act or not, and differs from the area stated in the forest reports, because in certain localities, where the settlement is incomplete, the original areas are still returned by the Forest Department, while revised areas are returned in this table; also because the revenue records do not always state the most recent revisions.

Column 3.—Includes all land recorded at the survey and settlement as unculturable, although at times a very small quantity of this land is cultivated.

Column 5.—The maximum period for which land thrown out of cultivation is reckoned as fallow is ten years.

Column 6.—Of the total net cropped area (27,058,324 acres) entered in this column for 1915-16 (page 56), 25,899,006 acres are based on actual returns, and 1,159,318 acres on estimates.

Column 2.—The figures do not agree with those in the forest administration report, because the revenue records do not state the most recent alterations of area due to erosion by the Indus which the forest report does, and because, on the other hand, the forest report does not always exhibit the most recent alteration of area effected by the revision of survey, which the revenue records do.

Column 6.—Of the total net cropped area (3,254,495 acres) entered in this column for 1915-16, 3,254,261 acres are based on actual returns and 234 acres on estimates.

Column 2.—Includes forest areas administered by the district officers of some districts. Hence the figures do not agree with those in the forest administration report which exclude these areas. This column also includes the Siwalik Range in the Dehra-Dun district.

Column 5.—The maximum period for which land left untilled is reckoned as fallow is three years.

Column 6.—Of the total net cropped area (26,892,596 acres, page 64) entered in this column for 1915-16 for the Province of Agra, 26,288,596 acres are based on actual returns and 604,000 acres on estimates.

Columns 8 to 13.—Government canals include private canals except in Dehra-Dun, Naini Tal, Budaun, and Basti, for which districts separate figures for private canals have been obtained. There are very few private canals in the United Provinces.

Column 13.—Of the total area irrigated (8,485,752 acres, page 65), in the Province of Agra in 1915-16, 8,449,852 acres are based on actual returns and 35,900 acres on estimates.

Column 2.—Includes all lands specially allotted to forest growth under the control of Government or any Local Board or Municipality.

Column 3.—This column includes 23,680 acres of river beds in Gurgaon, 15,360 acres of mountain tracts in Simla, and 3,896,960 acres of mountain tracts in Kangra. These areas are not accounted for in the village papers, and the figures are based more or less on estimates.

Column 4.—Includes large areas of Government waste not allotted for cultivation.

Column 5.—The maximum period for which land is reckoned as fallow is two years; but, as a change in classification is not generally made until the year for quadrennial statements comes round, the old classification may be retained from one to three years longer than the prescribed period. In certain districts in the south-west of the province, however, the classification is amended annually.

NOTE.—For tracts outside the surveyed area the figures are based on estimates framed in the best manner possible.

Column 2.—The area entered in this column is that given in the forest administration report, and includes reserved forests and fuel reserves. Estimates of the forest areas in certain hill tracts are also included. The forest areas in the Shan States, which are included in the Forest Administration Report, are excluded from this table, no returns of agricultural statistics being prepared for those States.

Column 3.—In settled tracts the unculturable area is taken from settlement registers, but in unsettled tracts it is obtained from the best source available.

Column 4.—Includes land thrown out of cultivation and abandoned. Groves, not classed in the cropped area, and bamboos, when not grown in forest areas, are also included in this column.

Column 5.—Includes only such land left uncultivated as is actually in the possession of cultivators. In Lower Burma (excluding the Thayetmyo district) such lands are assessed at privileged rates, but in Upper Burma and in Thayetmyo no assessment is levied on land left uncultivated.

Column 2—Shows the areas administered by the Forest Department; but the figures differ from those in the forest administration report, because the actual area of the forest is not known owing to incomplete survey, also because excisions made have not yet been taken note of in the forest registers, and because in many cases raiyatwari villages settled, thekadari villages surveyed, clearance leased villages earned in proprietary rights, and villages purchased under the waste-land sale rules, have not as yet been finally disforested and struck off the forest registers. In the case of the Chanda, Drug, Raipur, and Bilaspur districts this column also includes all areas in the zamindars' estates which fall outside the surveyed villages of those estates. These areas are almost wholly under forest and include only a negligible proportion of sparse and shifting cultivation.

Column 3.—States areas covered with water, hill, or rock, and land occupied by buildings and roads.

Column 4.—States (1) the waste area within holdings (including fallows of more than three years), (2) land under tree forest which is not administered under any Act dealing with forests, (3) land under scrub jungle or grass, and (4) groves not included in holdings.

Column 5.—Land which has been fallow for not more than three years is reckoned as current fallow.

Column 2.—Includes the forest area administered by the Forest Department, but excludes a large area of cultivated land in the Melghat taluk in Amraoti shown as forest in the forest report.

Column 3.—Includes village sites, tanks, and land taken up for public purposes or devoted to uses other than agriculture; it also includes unculturable portions of culturable fields.

Column 4.—Includes land available for cultivation but not given out.

Column 5.—Includes occupied culturable land left fallow for private reasons, such as grazing, rotation, etc.

Column 2—The figures represent reserved forests, but exclude the areas of forest villages within the reserves which are entered under the appropriate heads of this table.

Columns 3 and 4—The figures for unsurveyed tracts in Cachar and for permanently settled tracts in Sylhet are based on estimates. In the Assam Valley unsurveyed waste is divided into culturable and unculturable on the assumption that their proportion in the surveyed area holds good.

Column 5—Includes generally all lands which are thrown out of cultivation or not cultivated for three years, but which remain in the occupation of leaseholders. Figures for the Hills districts except the plains portion of the Garo Hills are rough estimates.

Column 6—The figures are obtained from the abstract crop statement for districts which have been cadastrally surveyed. The figures for the permanently settled estates of Sylhet and Goalpara and for the hill districts are estimates.

(*a*) Figures not available.

(*b*) Includes culturable waste.

Column 2—Includes all lands specially allotted to forest growth under the control of Government or any Local Board or Municipality, and protected village waste in Hazára administered by the district officer and other waste lands in Peshawar.

Column 4—Includes large areas of Government waste not allotted for cultivation.

Column 5—The maximum period for which land is reckoned as fallow is two years; but, as a change in classification is not generally made until the year for quadrennial statements comes round, the old classification may be retained from one to three years longer than the prescribed period. In Dera Ismáil Khan classification is amended according to area of each class of soil actually cultivated each year.

(a) Variations due to untimely and deficient rain.

This table shows the areas actually sown, whether the crop comes to maturity or not, except in cases when fields, owing to the failure of the first sowings, have been devoted to other crops: in such cases the area first sown is omitted. In cases where two or more crops are grown together, an estimate is made of the area covered by each and the areas so estimated are separately returned. The estimate is made by the village accountant, or is subsequently determined on formulæ prescribed by the provincial authorities.

The variations in the areas shown in different years under the same crop in the same district do not in all cases represent an actual increase or decrease in the area under that crop. In certain cases a revised classification or the correction of a faulty estimate is responsible for the change.

Column 10 (*other food-grains including pulses*).—Arhar (pigeon pea), barbati, lobia or chowli (asparagus), mung (green gram), kulthi (horse gram), urad (black gram), field gram, cheick (job's tear), lentils, cheena (common millet), kangni (Italian millet), kodo or varagu, kutki, (little millet), kuhudi, peas, pigeon or bottle grass, swank or shama, chickling vetch, buck wheat, wudalu or barti.

(*a*) See footnote (*a*) on page 12.

Column 28 (other dyes).—Arnatto, chayroot, divi-divi, henna, madder, morinda, safflower, saffron.

Column 31.—In certain cases, notably in Madras, the areas stated under "Tea" differ from those given in the special report on tea production published separately. The principal reason is that the special report is prepared from returns received from managers and owners of estates; and these returns, especially in Southern India, are in many cases inaccurate and defective. Minor discrepancies are also due to the fact that the figures in this table deal with the agricultural year; while those in the special report deal with the calendar year.

Column 35 (other drugs and narcotics).—Aloes, arecanut, sweet basil, betel-vine, country borage, bogoda brinjal or nela mulaka, dhatura, purple flea-bane, isfagul, kolinji or vempali, senna, soap nut, sweet flag.

(a) Increase due to a revised classification of crops.

The area sown with unimportant mixed crops, for which no separate heading is provided in the provincial crop statements is assigned to the principal crop by the village accountant. The areas of important mixed crops, namely, wheat and barley, wheat and gram, barley and gram, jawar and arhar, bajra and arhar, and cotton and arhar, for which separate headings are provided in the crop statements, are distributed in accordance with prescribed formulæ and entered under the crops of which they are composed.

Columns 3, 4, 5, 6, 9, and 10.—The whole of the area of the land planted with food-grains wheat, barley, etc., mixed with oilseeds is shown under food-grains in this table. The area shown under food-grains which was really planted with oilseeds (as a mixed crop) is roughly estimated to have been 4,150,000 acres in the whole of the United Provinces of Agra and Oudh in 1915-16.

Oilseeds						Condiments and spices	Sugar		Fibres				District

Columns 12, 13, and 14.—The figures shown in these columns represent areas under "pure" oilseeds, *i.e.*, oilseeds sown unmixed with any other crop. Besides these, the oilseeds are thinly sown in combination with wheat, barley, gram, and other crops. If the areas occupied by the scattered plants were added up, it is estimated very roughly that they would amount in 1915-16 (for the whole of the United Provinces of Agra and Oudh) to 650,000 acres of linseed, 1,100,000 acres of sesamum, and 2,406,000 acres of rapeseed.

(*a*) Decrease due to scanty rains and low prices.

No statistics are at present prepared by village or circle officers, except in the Sambalpur district. The figures for all other districts entered in this table are, therefore, merely estimates, except those for Patna, Gaya, Shahabad, Saran, Champaran, Muzaffarpur, Darbhanga, Monghyr, Bhagalpur, Purnea, Puri, Cuttack (exclusive of small permanently-settled areas), Balasore, Angul, the Santhal Parganas, Hazaribagh, Ranchi, and Singhbhum; the estimates for these districts are based on the figures collected during the cadastral survey.

In Cachar accurate statistics of the area under crops other than tea are available only for the cadastrally surveyed tracts, in Sylhet only for the Jaintia Parganas and Partabgarh, and in Goalpara only for the temporarily settled tracts. The figures for the permanently settled tracts in Sylhet and Goalpara and for the unsurveyed areas in Cachar are based on estimates. In the case of jute the figures for Sylhet and Goalpara are based on a jute census taken every year for the final forecast of the crop. The figures for the five upper districts of the Assam valley represent the whole cropped area in these districts, with the exception of a small area cultivated by tribes paying house or poll tax in Lakhimpur, Sibsagar, and Kamrup. In the Garo Hills district returns of areas under different crops are available for the plains tracts only, while those for the hill portions are estimates. The figures for the other hills districts are rough estimates. Detailed statistics of the areas under different crops are not available for the Naga Hills

(a) Includes gram

Note.—Live-stock in cities and cantonments are included wherever it is possible to secure their enumeration. Oxen and buffaloes not old enough for work or to produce young are treated as "young stock".

(a) Figures not available.

(b) Included under "mules".

(c) Figures from 1908-09 to 1910-11 which are based on estimates, include Bihar and Orissa but exclude Eastern Bengal.

Table IV—*continued*

No. 57—LIVE-STOCK, PLOUGHS, AND CARTS IN EACH PROVINCE IN BRITISH INDIA.

Province and year of enumeration	Bulls and bullocks	Cows	Buffaloes		Young stock (calves and buffalo calves)	Sheep	Goats	Horses and ponies	Mules	Donkeys	Camels	Ploughs	Carts

(*a*) In Coorg the table is prepared quinquennially on a census taken every five years. The last census was taken in March 1915 by the circle shánbógs, and the particulars entered in a register maintained under Rule 73 of the Rules framed under the Coorg Land and Revenue Regulation, 1899. Animals in municipal towns are included.

(*b*) An annual census is taken on the 15th March in Manpur.

(*c*) The figures in columns 7 to 14 exclude Bengal (see Table IV, No. 58).

(*d*) Statistics based on a census taken in 1913-14. Figures for columns 6, 11, 13 and 14 were revised in 1914-15.

(*e*) Included under "Donkeys".

(*f*) Excluding Bengal.

(*g*) Excluding Eastern Bengal.

(*h*) For the general decrease in the figures for this year see footnote to table No. 70.

Note.—Figures for 1912-13 are based on a cattle census taken in 1912; the figures for most of the districts, in columns 2 and 3 have, however, subsequently been revised. The census did not take into account the animals named in columns 7 to 11 nor ploughs and carts (columns 12 and 13). The figures for 1910-11 for the districts of the Presidency and Burdwan Divisions and for Darjeeling are based on estimates. The figures for 1909-10 for Faridpur are based on information collected during survey operations conducted in that district.

Note.—A census is taken every five years in Government (raiyatwari) villages. The last quinquennial census was taken in 1914-15. In inám villages, there is no suitable agency for the work, and Collectors obtain information for these villages as best they can : it is not known to what extent any census is made in them. Previous to 1909-10, no information was available regarding live-stock in permanently settled (zamindari) estates and in towns and cantonments which did not form part of any revenue village ; but from that year statistics based on estimates are furnished for all these tracts.

(*a*) Constituted in 1910-11 out of the Cuddapah and North Arcot Districts

Note.—The figures are collected once in five years. The last quinquennial census was taken in 1915-16. Prior to 1915-16 all animals belonging to a family were entered against the name of the head of the family even though the animals were temporarily absent from the village. Animals belonging to other villages were excluded, and those belonging to a roving grazier having no permanent residence were noted, but were not included in the village resources. In the census of 1915-16 all animals present in the village were recorded, although some of them might belong to other villages, as in the case of the population census. The figures are regularly tested by circle inspectors (kanungoes). Stock statistics for the city of Bombay were collected for the first time in 1909-10.

(*a*) Represents figures for both East and West Khandesh.

Note.—The table is prepared quinquennially on a census in each district taken every five years. The last census, which was due in 1913-14 but could not be taken in that year owing to famine in some of the districts, was taken in 1914-15 in all the districts, except Almora, Garhwal, and the hill tracts of Naini Tal. In these latter districts the last census was taken in 1912.

Note.—The figures for years prior to 1913-14 are only estimates received from time to time on the basis of settlement records or reports of police enquiries. The figures for 1913-14 shown in the table for all the districts of the Province, except Hazaribagh, Ranchi, Palamau, and Manbhum, were arrived at by a census of live-stock held in these districts towards the end of 1913. For Hazaribagh and Ranchi (excluding the area since transferred to Palamau in the case of the Ranchi district) the figures are based on information collected during survey operations; while the figures for Palamau and Manbhum are based on police reports. Corrections were made in the figures for Hazaribagh in 1915-16.

Note.—A census for the whole province is taken every fifth year in the first week of February. The last census was taken in 1914. All cattle in cantonments and municipalities as also those belonging to Government are included

(*a*) Owing to redistribution of territories consequent on the formation of the province of Delhi (*vide* footnote (*a*) on page 14) the figures for Rohtak and Gurgaon were revised in 1912-13

(*b*) See footnote on page 14

Note.—Annual returns of agricultural stock are prepared by village headmen, revenue surveyors, and *taikthuggyis*, the enumeration taking place from end of February to middle of March in each year. The figures include all animals in towns and also those employed in each district by Government departments, such as transport, military, police, and by municipalities.

(*a*) Estimated figures

Note.—The figures are collected annually, between the 1st January and the 15th March, by the patwaris in each village for the areas in their respective charges. The total figure is recorded in the tahsil by the kanungo in a village register. The patwari takes into account all animals including those temporarily sent elsewhere (*e.g.*, for grazing), which belong to residents of the village, and excludes animals which are temporarily in the village for grazing or other purposes, but do not belong to residents. Stock in cities, large towns, cantonments, and in forest villages are included.

Note.—A census is made annually by the village officers. All cattle belonging to one owner are entered against his name, even though the animals are temporarily absent from the village. When an owner cultivates land in more than one village, the actual number in each particular village on the night of enumeration is entered in the statement for that village. Cattle belonging to other villages, but temporarily in the village for grazing, are not entered in the statement for that village.

Note.—The statistics are based on a cattle census taken every five years. The census is, however, not taken simultaneously in the different districts. In the six districts of the Assam valley and in the central and eastern sections of the North-East Frontier district the last census was taken in 1915. In Cachar it was taken in 1912, in the Garo Hills (plains portion only) in 1913, and in the temporarily settled portion of Sylhet in 1910. No statistics are available for tracts other than Jaintia Parganas in Sylhet, and for the hill tracts.

(*a*) For Jaintia Parganas only. The figures for 1904-05 include estimates for other tracts also, but such estimates are not available for 1909-10.

(*b*) Excluding permanently settled tracts.

(*c*) Constructed in 1914-15 out of Lakhimpur.

(*d*) No information.

(*a*) Excludes Bihar and Orissa districts constituted into a separate province.

Note.—The varieties of tenure are included as far as possible, under one or other of the following heads, namely, (1) raiyatwari, (2) zamindari and village communities (temporarily settled), and (3) zamindari (permanently settled). Areas under forests are included under the prevailing tenure of the province. In the Central Provinces and Berar, however, areas under Government forests are shown separately.

Column 3 (*a*).—Areas held revenue-free or at privileged rates are deducted, but the deduction need not be made where such areas are in any case less than an entire village and where there is any difficulty in estimating the corresponding deduction to be made in the population (*column* 11). In Madras, Bombay, and Berar all land on which a full assessment has not been leviable during the year (for instance, assessed unoccupied land) is classed for the purposes of this column as "area not fully assessed." Area should not be entered under this head merely because the assessment due from them has been suspended or remitted on account of short crops, or for other special reasons.

Column 4.—This head is subdivided into (*a*) total fully assessed area for which returns are available, and (*b*) area cultivated out of the area given in head (*a*). The latter head should be equal to the former after deducting current fallows and fully assessed waste, and should be either equal to or less than the net cropped area as shown in column 6 of Table II.

(§) The land revenue assessment necessarily differs from the land revenue collections which include collections on account of former balances and exclude so much of the assessment as has not been collected during the year.

* No details.

† Includes 1,360,300 acres (in Dinajpur) for which details are not available.

‡ Table made quinquennial after 1911-12.

¶ Increase due to inclusion of certain Zamindari villages which were formerly included under Raiyatwari.

Column 5.—Where the land revenue includes the zamindar's share, the net demand is entered, and the table states the payments due by the zamindars to Government, not those due by raiyats to the zamindars. The actual realisable demand on account of the year is entered after excluding arrears for past years. This column includes all the heads classed as "Land Revenue" in the Civil Accounts. The heads are :—(1) ordinary revenue comprising fixed collections, revenue from canals in Sind, fluctuating collections (including nazarana), over collections (Bombay), surplus collections, collections from Government estates, kyun tax (Burma); (2) sale of Government estates, (3) sale proceeds of waste lands, and redemption of land tax; (4) redemption of summary settlement cess; (5) moturpha (house tax) collections; (6) assessment of alienated lands less quit rent; (7) recoveries on account of survey and settlement charges (Bengal); (8) rents, etc., of fisheries; (9) receipts for the improvement of Government estates; (10) 12 per cent on collections from Government estates (Bengal); and (11) miscellaneous, comprising receipts on account of land registration fees, receipts from quarries and minor mineral products in forests and lands not under the management of the Forest Department, water mills rent, huccoba tax (Sind), malikana or allowances to excluded proprietors, fines and forfeitures of revenue Courts (except in Bengal and Assam), receipts under Madras Act II of 1864, capitation tax (Burma), petroleum well revenue, jade and amber revenue, thathameda tax (Burma), receipts from ruby mines (Burma), recoveries in India of law charges in England on account of appeals from India, miscellaneous receipts, rents of railway class C land and rents of buildings situated on such lands.

Column 6.—The population is that of the last general census.

* No details

Entry 8.—As in entry 5, but only ordinary land revenue on fully assessed areas is entered

Entry 9.—To be entry 8, divided by entry 4 (*a*)

Entry 10.—To be entry 8, divided by entry 4 (*b*)

† Includes Rs. 15,19,026 for Dinajpur for which details are not available

The table is prepared quinquennially, and the figures were last collected in 1912-13

Column 1.—The following classification of estates has been adopted:—

(1) *Zamindari (permanently settled)* including estates managed for proprietors by Government.

(2) *Zamindari (temporarily settled)* comprising (*a*) all temporarily settled estates, namely, those settled for periods with proprietors, and estates leased to farmers for periods; and (*b*) all estates owned by Government as proprietor.

Column 4 (*b*) includes in certain cases fully assessed current fallows.

Column 5 includes all the items falling under the head "Land Revenue" in the Civil Accounts.

Land revenue assessed on fully assessed area [col. 4(*a*)].	Incidence per acre of land revenue (col. 8) on fully assessed area (col. 4)		Population of fully assessed area	Land revenue assessment per head of population of fully assessed area (columns 8 and 11)	Towns of over 10,000 inhabitants		District and nature of tenure

The table is prepared quinquennially. The figures were last collected in 1913-14

Column 3 (a).—In the case of raiyatwari tracts this column states the area of unoccupied assessed lands, of all unassessed poramboke, of minor inám lands in Government villages held rent-free or subject to quit-rent, and of forest lands, excluding portions of the first mentioned two classes occupied under "miscellaneous;" and in the case of zamindari tracts the areas of hills, porambokes, and minor ináms are entered. The entire area of whole inám villages is deducted in this column

Column 3 (b).—Raiyatwari; includes the area of certain Agency tracts in Ganjam, Vizagapatam, and Godavari, and also the difference between the area by professional survey and the area according to village papers

Column 4 (a).—The figures for the raiyatwari tenures in this column are taken from village papers which differ in some cases from the resultant of preceding columns

Total revenue from land per head of population (cols. 5 and 6)	Land revenue assessed on fully assessed area [col. 4 (*a*)]	Incidence per acre of land revenue (col. 8) on fully assessed area (col. 4)		Population of fully assessed area	Land revenue assessment per head of population of fully assessed area (cols. 8 and 11)	Towns of over 10,000 inhabitants		District and nature of tenure	
		For total area	For cultivated area			Number of towns	Aggregate population

Column 4 (*a*).—Raiyatwari; states the total occupied area as stated in village papers

Column 4 (*b*).—For certain districts areas actually cultivated and for certain others estimates, or actuals supplemented by estimates, are shown in this column

Column 5 includes all the items falling under the head "Land Revenue" in the Civil Accounts

Column 8.—Shows only the "ordinary revenue," as defined in the Civil Accounts, on area fully assessed

Column 10.—The cultivated area is, in the case of raiyatwari and zamindari lands, the net cropped area out of the area given in column 4 (*a*)

Column 11 states the entire population of raiyatwari and zamindari villages, respectively

Table V—*continued*

No. 76—INCIDENCE OF THE LAND REVENUE ASSESSMENT ON THE AREA AND POPULATION OF EACH DISTRICT IN BOMBAY IN 1915-16

District and nature of tenure		Total area (in acres) by survey, less feudatories [col. 2 of table I minus col. 3 of same table]	Deduct		Balance, that is, fully assessed area (in acres) for which figures are available		Total revenue from land (excluding cesses) of district (col. 2)	Population of district (col. 2)
			Area (in acres) not fully assessed	Area (in acres) for which the figures required for this table are not available	Total	Cultivated

This return is prepared quinquennially

Column 1.—Lands held under special tenures, such as talukdari, mehwasi, udhad-jamabandi, narvadari, and bhagdari in Gujarat and khoti and izafat in the Konkan, are classed as "zamindari and village communities (temporarily settled)"

Column 3 (a) includes alienated area and the area held free of revenue or the revenue of which has been reduced by special agreement, and also the fully assessed unoccupied area

Column 3 (b) includes alienated cultivated and zamindari cultivated (estimated) land

Column 4 includes land under temporary cultivation, also pôt ináms paying full assessment

Column 5 states ordinary and miscellaneous land revenue appearing in the Civil Accounts. On the average of the last five years about 2·5 per cent of the total revenue entered in this column was remitted on account of unoccupied lands, short crops, etc.

Column 10.—The incidence is calculated from the occupied area, which, in the Presidency proper, is treated as the cultivated area for the purposes of this table, and the assessment on that area.

Column 11 includes population of pót ináms and the like scattered areas which cannot be distinguished from the population of the fully assessed area.

Column 12.—The incidence is based on the figures given in column 11 and those in column 8, *plus* the amount of full assessment on privileged lands held in fully assessed villages at less than that assessment.

Table V—*continued*

Sind
- This return is prepared quinquennially
- *Column 3 (a)* includes fallows and fully assessed unoccupied area
- *Column 4* excludes fallows and fully assessed unoccupied area [see note to column 3 (*a*)]. Fallows are assessed once in five years
- *Column 5* states ordinary and miscellaneous land revenue appearing in the Civil Accounts. On the average last of the five years about 6·3 per cent. of the total revenue entered in this column was remitted on account of unoccupied lands, short crops, etc.

North-West Frontier
- *Columns 3 (a) and 3 (b)* include villages receiving frontier remissions and istamrari tenures
- *Column 4 (b)* includes fully assessed current fallows which bore any crop in the preceding year
- *Column 5* shows all the items falling under the head "Land Revenue" in the Civil Accounts, including assigned revenue

No figures have been entered in columns 8 to 12 opposite "Lucknow, permanently settled," (page 237) as no portion of the permanently settled area has been fully assessed to land revenue

Column 11 includes population of revenue-free lands when the area of such lands is less than an entire village. The inclusion does not materially affect the incidence entered in column 12

Columns 13 and 14.—The figures are taken from the census reports of 1911

	GRAND TOTAL	1,770,921	154,321	...	1,616,600	265,778	3,61,504	501,395

The table is prepared quinquennially, and the figures were last collected in 1915-16. The tenure in Ajmer-Merwara is all zamindari, and includes village communities in the case of temporarily settled areas

Column 1.—The khalsa area has been classed as "Zamindari and village communities (temporarily settled)" and the jagir and istamrári areas as "Zamindari (permanently settled)"

Column 4 includes in the case of the khalsa villages the assessed cultivated area, including assessed fallows

Column 5 states ordinary and miscellaneous land revenue appearing in the Civil Accounts

†Included under Ajmer

The table is prepared quinquennially, and the figures were last collected in 1912

Column 1.—The following classification of estates has been adopted:—

(1) *Zamindari (permanently settled)* including estates managed for proprietors by Government;

(2) *Zamindari (temporarily settled)* comprising (*a*) all temporarily settled estates, namely, those settled for periods with proprietors, and estates leased to farmers for periods; and (*b*) all estates owned by Government as proprietor

Column 5 includes all the items falling under the head "Land Revenue" in the Civil Accounts

Land revenue assessed on fully assessed area [col. 4 (*a*)]	Incidence per acre of land revenue (col. 8) on fully assessed area (col. 4)		Population of fully assessed area	Land revenue assessment per head of population of fully assessed area (columns 8 and 11)	Towns of over 10,000 inhabitants		District and nature of tenure

For tracts outside the surveyed area the figures are mostly based on estimates framed in the best manner possible

Column 1.—No areas are classed as zamindari, as no system of communal assessment prevails

Column 3 (*a*) shows grants under Appendices I and II of the Rules under the Upper Burma Land and Revenue Regulation

Column 3 (*b*) includes non-State lands in districts where no land revenue rates are yet imposed and where the *thathameda* rates have not yet been adjusted

Column 4 (*a*) shows figures of State and non-State lands assessed to land revenue, including current fallows which are not assessed to land revenue. This column also includes the areas of waste land grants of which the rates have been fixed in perpetuity

Column 5 states ordinary land revenue, *thathameda*, water rate rents of fisheries, and items under "Miscellaneous Land Revenue," appearing in the Civil Accounts

Total revenue from land per head of population (cols. 5 and 6)	Land revenue assessed on fully assessed area [col. 4(a)]	Incidence per acre of land revenue (col. 8) on fully assessed area (col. 4)		Population of fully assessed area	Land revenue assessment per head of population of fully assessed area (cols. 8 and 11)	Towns of over 10,000 inhabitants		District and nature of tenure

Column 1—Zamindari (temporarily settled) includes malguzari and thekadari
Column 2 states the area by village papers (column 6 of table I, No. 20)
Column 3(a)—Zamindari estates properly so-called (that is, excluding malguzari) are classed as not fully assessed
Column 4(b) excludes fallows
Column 5—The figures represent different items of land revenue for different districts, no uniform practice having been followed throughout the province

Total revenue from land per head of population (cols. 5 and 6)	Land revenue assessed on fully assessed area [col. 4(*a*)]	Incidence per acre of land revenue (col. 8) on fully assessed area (col. 4)		Population of fully assessed area	Land revenue assessment per head of population of fully assessed area (cols. 8 and 11)	Towns of over 10,000 inhabitants		District and nature of tenure

Notes—It is optional with local Governments to enter or omit transfers of lands held by tenants

The entries under "by order of court" state not merely the transfers occasioned by debt, but all forms of transfer effected through the medium of a court. The word "court" in the entry "by order of court" should be held to include a revenue court.

Changes of entry due to succession, partitions, or simple mortgages, are not really transfers, and are excluded from the table, as also are redemptions of mortgage. All temporary transfers such as leases are also excluded, but mortgage with possession is treated as a transfer and entered in the table

(*a*) The statement includes all legal transfers of property (1) by voluntary action of the owners and (2) by virtue of decrees of civil, and orders of revenue, courts. Transfers ordered by courts in cases of disputed succession, and those occasioned by debt incurred by the judgment-debtors, are included under the heading "by order of court." This heading also includes transfers ordered by civil courts from registered holders, to decree-holders, of lands sold by civil courts in satisfaction of decrees, and of holdings sold by the revenue authorities for arrears of revenue

(*b*) Transfers of property in land are not permitted in Manpur, except by sale and that only under special conditions.

(*c*) Not stated

Note.—Transfers by inheritance or non-permanent transfers, such as leases or usufructuary mortgages for short periods, are excluded but mortgages with possession are included, as also all transfers made under order of a court. Transfers of *malikana* rights, that is, rights to receive a portion of the profits of an estate not amounting to proprietary rights, have been excluded. Statistics of transfers of tenant-right are not given. Transfers by gift have been included.

Note.—Transfers of property in land were not regularly registered in Upper Burma until 1st January 1914. The information is collected by revenue officers. The statement includes cases in which land has been permanently transferred by gift, sale, or other transactions, for valuable consideration. The term "court" includes a revenue office as well as a civil court

(*a*) No information (*b*) Less than an acre (*c*) Details for districts not given

Note.—The figures against "proprietors" are filled up from returns compiled on the basis of mutation proceedings. Those against "tenants" are based on statements furnished by patwaris in which all transfers are entered, including transfers by mortgage with possession, as well as transfers by sale, but excluding transfers by inheritance. The statement does not include leases or mortgages without possession

Note.—The information is obtained from the Registration Department. The table includes all transfers effected by sale of fields under decree of a court (including a revenue court) either in execution of the decree or for recovery of arrears of land revenue. Private sales or recognised divisions of fields necessitating a change in the name of the registered occupant are entered under "by private contract or gift," as also are mortgages with possession. Transfers due to succession, by inheritance, simple mortgages, and leases are omitted

Note.—The figures exclude all changes due to successions, partitions, simple mortgages, redemptions of mortgages, and temporary transfers such as leases; but mortgages with possession are included. The column "by order of court" includes transfers occasioned by debt incurred by judgment-debtors, as also all other transfers effected by order of courts, civil and revenue

APPENDICES

APPENDIX A

Average yield, in pounds per acre, of the principal cultivated crops, revised with reference to the results of experiments made up to the year 1911-12.

A provisional return of the yield of the principal crops cultivated in India was first compiled in 1892, from various statistical publications, such as, agricultural and settlement reports, crop forecasts, gazetteers, replies to the enquiries of the Famine Commission, etc., and to provide for the periodical revision of the estimates a system of experimental crop cuttings was prescribed by the Government of India, the results of which were to be reported in quinquennial returns.

The instructions for the preparation of these returns are that the estimate given should be that of the average outturn on average soil in a year of average character as deduced from a consideration of the information obtained or experiments made during the years under review ; so that when multiplied by the average area cropped, it may give as near an approximation as possible to the outturn of the crop in an average year. The Agricultural Department of each Province has at its disposal a provisional estimate of the average yield of land of average quality (under the two major heads of irrigated and unirrigated land) for the several crops in each district. The object of the experiments annually made is to test the accuracy of these estimates, and to enable the head of the Agricultural Department in each province to revise his provincial estimates when necessary. Should it happen that the period has been one of unfavourable conditions which have affected the experiments reported, this would not necessarily involve the reduction of the standard estimates for the district or for the province, unless there were other reasons for thinking that, as estimates of yield in average years, they had been pitched too high.

As a result of the experiments made during the preceding quinquennium (1901-02 to 1906-07), considerable modification of the standard averages for several of the crops was made in all the provinces except Bombay and Bengal. Some three or four provinces have made a few revisions of this character on the results of the experiments conducted in the quinquennium 1907-08 to 1911-12 ; but, on the whole, the distrust in the results of the experiments as conducted by the district staff, to which expression was given by Bombay and Bengal on the last occasion, is growing. In the Bombay Presidency a system of more scientifically conducted experiments by officers of the Agricultural Department has been substituted for the system of experiments conducted by the district staff. In the Punjab and Sind the estimates framed by settlement officers at the time of revenue settlement have been preferred where these are available, while in certain other provinces the figures of the settlement officers have been freely referred to in checking the averages. In Bengal and Bihar and Orissa, although no change has been made in the system, the results of experiments made during the last twenty years have not been considered sufficiently reliable to justify any material change in the provisional estimates framed in 1892. In Burma the system has been condemned ; but the provincial authorities do not consider any change feasible for the present. [Instructions have since been issued by the Government of India for improving these returns and employing the agency of the Agricultural Department for the investigation of average crop outturns as far as possible, in all provinces.]

The leading features in the different provinces are stated in the following paragraphs :—

Bengal.—Owing to the administrative changes of 1912, by which Bihar and Orissa have been formed into a separate province, certain crops, which are important in that area but hardly grown at all in Bengal as now constituted, have been omitted from the present report. The results of the experiments made in the quinquennium under review do not warrant any general conclusions as to the average yields of the various crops, nor do they, except in the case of rice, sugarcane, and jute, afford grounds for modifying the provisional estimates hitherto adopted by the Agricultural Department (which are practically a reproduction of the estimates of 1892). The average yield of winter rice has been reduced from 1,234 lbs to 983 lbs ; on the other hand, the yield of sugarcane has been raised from 2,460 lbs to 2,905 lbs and that of jute from 1,200 lbs (3 bales) to 1,271 lbs (3·1 bales). In the consolidated tables for British India, the provisional estimates, therefore, continue to appear with these modifications in the statement of provincial averages, but in the detailed table the average outturn based upon the experiments of the quinquennial period under review is shown for each district.

Madras.—The experiments accepted as unobjectionable during the quinquennium were 3,385 in number as against 3,348 in the previous quinquennium. The average assessment of the plots of land selected for experiment is in excess of the average assessment of the province in many cases, therefore, the land selected is apparently superior to average class of land. The yield of the majority of crops has been raised, especially in the case of cotton and irrigated jawar : the yield of irrigated cotton has been raised from 66 lbs to 87 lbs and of unirrigated cotton from 44 lbs to 55 lbs, and of irrigated jawar from 1,118 lbs to 1,379 lbs. The only decreases relate to sesamum and unirrigated rice. The reported yield of paddy (unhusked rice) has been reduced by 38 per cent to obtain the yield of rice (husked).

Bombay.—The estimates of 1897 were prepared with great care and the results of the experiments made in the two quinquennia ending 1901-02 and 1906-07 were not considered sufficiently reliable to justify any revision. With the sanction of the Government of India the system of crop cutting experiments conducted by the district staff was abolished in the quinquennium under review, and a system of more scientifically conducted experiments on Government farms by the officers of the Agricultural Department was substituted. But the results as yet obtained from the experiments on Government farms are too meagre to justify a general revision of the estimates. A few changes considered to be necessary by the Provincial Director have, however, been made with great caution in the figures for certain districts.

Sind.—In many cases figures taken from the previous report have been repeated, while in several instances figures have been taken from the settlement reports. Of the experiments selected as giving results typical of an average crop during the present quinquennium three were on wheat, one on jawar, two on bajra, one on gram, and one on cotton. As a result, the provincial average has been raised in the case of wheat, jawar, bajra, gram, rapeseed and cotton, while it has been reduced in the case of sesamum ; the most important changes being the increase of the average yield of cotton from 308 lbs to 380 lbs, and that of bajra from 776 lbs to 971 lbs.

United Provinces.—The experiments made during the quinquennium under review have not necessitated any change in the provincial averages except for rice and maize. The yield of rice has been raised from 850 lbs to 900 lbs and that of maize from 1,050 lbs to 1,100 lbs.

Bihar and Orissa.—The present return relates to the province of Bihar and Orissa as constituted in 1912. Owing to carelessness in the selection of representative fields and to various other defects in the conduct of the experiments made in the quinquennium under review, the results arrived at do not afford any reliable information or justify any modification of the provisional estimates previously adopted by the Agricultural Department of the old province of Bengal on the basis of the estimates of 1892. In the consolidated tables for British India, these unrevised provisional estimates have therefore been retained in the statement of provincial averages, but in the detailed statement of district figures the average outturn based upon the experiments conducted during the quinquennium under review has been shown for each district, irrigated and unirrigated crops being classified separately.

Punjab.—The revisions of 1902 and 1907 were made on the basis of very unscientifically selected and inadequately supervised experiments carried out by the district staff without reference to the very careful estimates framed by the settlement officers at the time of revenue settlement. The present revision has been made in consultation with settlement officers in the case of districts of which the settlement is in the early stages, while in other cases the average yield has been worked out mainly from the areas and yields given in the assessment reports, and where the results differed materially from the yields fixed in 1907 without any change in agricultural conditions having taken place, the settlement officers' estimates have been preferred. There is no dobbt that the yields now fixed, based as they are on the over-cautious estimates of settlement officers, are too low, but they are at any rate placed on a uniform basis. The result of the revision is a reduction of the yields of all the crops except rapeseed and sugarcane the averages for which have been raised. The most important changes are the reduction of the yield of bajra from 462 lbs to 379 lbs and of that of gram from 701 lbs to 549 lbs, and the increase of the yield of rapeseed from 254 lbs to 396 lbs.

Burma.—The number of experiments made in the quinquennium ending 1911-12 was on the whole larger than in the previous quinquennium, and, as in the past, the majority of the experiments were conducted by sub-divisional and township officers. The Provincial Director of Agriculture remarks that this arrangement is far from satisfactory, that the improvement of the system was considered, but that no change appears to be feasible for the present. In order to show the main product only, the following deductions have been made from the gross outturn of the crops, namely, for rice and jawar 33 per cent, and for cotton 70 per cent. The estimates of average outturn of rice, wheat, jawar, and gram have been lowered while those of cotton and sesamum have been raised. The figures for the bean crop now discriminate between *Pegyi* (*Dolichos lablab*) and *Pegya* (*Phaseolus lunatus*) which are the most important varieties exported.

Central Provinces and Berar.—Experiments have been selected with greater care in the present quinquennium than in the past, and due attention has been given to seasonal peculiarities and to classes of soil. The average yield has been raised in the case of rice, jawar, gram, linseed, and sugarcane, and lowered in the case of sesamum and cotton. In order to show the yield of the main product a deduction of 38 per cent has been made in the case of rice and of 70 per cent in the case of cotton.

Assam.—In the previous quinquennium figures for Assam were not shown separately, but they were combined with those for the districts of Eastern Bengal to give the average for the province of Eastern Bengal and Assam. The present return has been prepared for the province of Assam since its re-constitution on 1st April 1912. Detailed figures for each district are not available except for winter rice, rape and mustard, sugarcane, and cotton ; these show a general increase over the previous estimates. In the case of cotton a deduction varying between 50 and 60 per cent has been made to obtain the yield of cleaned cotton. In almost all districts the number of experiments conducted during the period under review fell short of that made in any of the previous periods. The results, however, are stated to have been generally

reliable and to have tallied for the most part with the estimates made by settlement officers in some of the districts where important settlement operations were in progress.

North-West Frontier Province.—In the five years under review experiments were made by the district staff in only two districts, and the figures for those districts have been checked and modified where necessary on the basis of those experiments. For the other districts the averages previously adopted on the basis of estimates framed by settlement officers have been repeated. The Provincial averages have been raised slightly for all the crops except maize for which the figure has been reduced from 1,342 lbs to 1,292 lbs.

Ajmer-Merwara.—The figures reported appear to be merely averages of the results of the experiments conducted during the five years of the period without any consideration as to whether any of those years was of an average character or not. The yield of barley, maize, and cotton has been raised and that of jawar lowered, the most important change being the reduction of the yield of jawar from 424 lbs to 137 lbs. A reduction of 70 per cent has been made, as before, to obtain the yield of cleaned cotton.

Coorg.—The only experiments made have as usual been on rice. The average yield has been lowered from 1,507 lbs to 1,483 lbs, which is still very high in comparison with the reported yield of other provinces, but is ascribed partly to increased attention being paid to rice cultivation since the decline of the coffee industry and partly to the rice lands of Coorg being watered by hill streams which contain much manurial matter. [From experiments since made the average outturn comes to 1,316 lbs.]

Mysore.—The rainfall in the quinquennium under review is stated to have been generally erratic. The average yield of rice has been reduced from 879 lbs to 841 lbs, of sesamum from 215 lbs to 199 lbs, of sugarcane from 3,279 lbs to 3,138 lbs and of cotton from 89 lbs to 79 lbs, while that of ragi has been raised from 562 lbs to 581 lbs and of horse gram from 229 lbs to 257 lbs.

APPENDIX C

VERNACULAR TERMS USED IN VOLUME I OF AGRICULTURAL STATISTICS OF INDIA

Agasi, agati, or avati (*Sesbania grandiflora*)—A vegetable crop.

Ajmud (*Carum Roxburghianum*)—A kind of spice.

Ajwan (*Carum copticum*)—A kind of spice, "Bishop's weed."

Akurkura or jevandi (*Chrysanthemum coronarium*)—A non-food crop.

Amada or mamidi allam (*Curcuma amada*)—A condiment.

Ampazham (*spondius magnifera*)—The hog plum.

Arhar (*Cajanus indicus*)—The pigeon pea.

Arunelli (*Phyllanthus distichus*)—Country star gooseberry.

Bajra (*Pennisetum typhoideum*)—The spiked millet.

Bané (Coorg)—Forest land granted for the service of the holding of rice-fields to which it is allotted, to be held free of revenue for grazing, leaf manure, firewood, and for timber required for the farm.

Barbati (*Vigna catjang*)—Asparagus, a food grain.

Barti (*see* Wudalu).

Bel (*Ægle Marmelos*)—A fruit.

Bhagdari (*see Narvadari*).

Bilimbi (*Averrhoa Bilimbi*)—A fruit.

Bimb (*Cephalandra indica*)—A fruit.

Chaplash (*Artocarpus Chaplasha*)—A tree grown mainly for timber.

Chayroot (*Oldenlandia umbellata*)—A dye.

Cheena (*Panicum miliaceum*)—The common millet.

Cheik (*Coix lachryma-jobi*)—A food grain, "Job's Tear."

Chikkudukayalu (*Dolichos lablab*)—The Indian or popat bean.

Cholam (*see* jawar).

Cholanathu (*Andropogon sorghum*)—Fodder jawar.

Chowli (*see* Barbati).

Cumbu (*see* Bajra).

Dani (*Nipa fruticans*)—A soboliferous palm, the leaves of which are used for thatching purposes, also for matting.

Dhaincha (*Sesbania aculeata*)—A plant cultivated mainly for green manure.

Dhatura (*Datura alba*)—A drug.

Dividivi (*Cæsalpinia coriaria*)—A dye.

Gajar—Carrot.

Garmal (*Coleus barbatus*)—A fruit.

Gondli (*see* Kutki).

Gorait (United Provinces)—Village watchman.

Henna (*Lawsonia alba*)—A dye.

Inám (Madras)—Alienated villages or lands granted rent-free. *Whole inám* villages are *entire* villages held on such tenure; *minor ináms* are portions of villages, generally a number of fields, held on *inám* tenure.

Isfagul (*Plantago ovata*)—A drug.

Istamrári (Punjab, Ajmer-Merwara)—A tenure which, though the revenue is assigned, is charged with a permanently fixed quit-rent.

Izáfat (Bombay)—A form of service tenure.

Izára (Berar)—Land leased under the waste-land rules on stipulated terms.

Jagír (Berar)—Alienated villages or lands granted as rewards for service either rent-free or on payment of a quit-rent; such lands are hereditary.

——(Ajmer-Merwara)—Land granted revenue-free on condition of military service or as a charitable endowment.

——(Bombay)—Estates held hereditarily or for one or more generations on political considerations, no condition of service being attached to them.

——(Coorg)—Lands granted rent-free (1) to individuals on account of services rendered to the State by themselves or their ancestors, and (2) to some religious institutions.

Jambo or naval—Black plum.

Jamma (Coorg)—A tenure under which lands are held on half the ordinary assessment on condition that the holders should perform certain services to Government, if required, such as escorting Government treasure and rendering assistance to revenue officers on tour. These lands are inalienable without special sanction.

APPENDIX C—*continued*

VERNACULAR TERMS USED IN VOLUME I OF AGRICULTURAL STATISTICS OF INDIA—*continued*

Jawar (*Sorghum vulgare*)—The great millet.

Jenugulu—Asparagus.

Jingili (*Sesamum indicum*)—An oilseed.

Jira—Caraway.

Jodi (Madras)—Portion of the assessment reserved or left unalienated when lands were originally granted on favourable assessment. It is distinguished from quit-rent, which represents an additional charge (generally a certain proportion—one-eighth, one-fourth, one-half, or five-eighths—of the full assessment, *minus* the *jodi*) imposed when the tenures were enfranchised or converted into free-holds.

Kalpayaru—Kidney bean.

Kangni (*Panicum Italicum*)—Italian millet.

Kamranga (*Averrhoa Carambola*)—A fruit.

Kanda (*Dracontium*)—A vegetable crop.

Kankrol (*Momordica cochinchinensis*)—A vegetable crop.

Karola (*Momordica Charantia*)—A vegetable crop.

Karuvapilai (*Murraya Konigii*)—A condiment.

Kavali (*Sterculia urens*)—The Indian katura, a fruit.

Kavathu (*Dioscorea alata*)—A tuber used as a food stuff.

Kodo or *Kutki* (*Paspalum Scrobiculatum*)—A kind of millet.

Khálsa (Bombay)—Government occupancy or raiyatwari tenure.

——(Central Provinces)—Areas settled on malguzari or thekadari tenure, in contradistinction to zamindari.

——(Berar, Ajmer-Merwara)—Land paying full revenue to Government.

Khatedar (Berar)—A registered occupant whose name is entered by authority in the Government records as holding unalienated land.

Khirai (Assam)—Land assessed to full revenue.

Khoti (Bombay)—A form of tenure, found chiefly in the Konkan, the holder of which is, in return for certain semi-proprietary rights, held responsible for payment of assessment on the area held.

Kirni (*Mimusops hexandra*)—A large tree cultivated chiefly in north-western India. It produces an olive-shaped yellow berry which is eaten chiefly during times of scarcity, and in the hot weather.

Korai—The Indian matting sedge.

Kelinji (*Tephrosia purpurea*)—A drug.

Koorka (*Strobilanthes*)—A vegetable crop.

Kuhudi (*Panicum trypheron*)—A food grain.

Kulthi (*Dolichos biflorus*)—Horse gram.

Kutki (*see* Kodo).

Kwin (Burma)—An area averaging about one square mile selected as a survey unit on account of some natural features or administrative boundaries.

Lakhiraj (Assam)—Revenue-free land.

Lobia (*see* Barbati).

Madder (*Rubia tinctorum* and *R. cordifolia*)—A dye.

Mahalkari (Bombay)—A revenue and police officer in charge of a sub-division of a taluk.

Makhan sim—The sword bean.

Malguzari (Central Provinces)—A form of tenure, the holder of which is responsible for the payment of the revenue assessed on a village.

Mamlatdar (Bombay)—The chief revenue and police officer (native) in charge of a taluk.

Mankachu (*Alocasia indica*)—A root crop.

Marua (*Elusine coracana*)—A kind of millet.

Marukkolundu (*Artemisia vulgaris*)—The Indian worm wood.

Mehwasi (Bombay)—A proprietary tenure assessable to revenue at a lump sum.

Muafi (Manpur)—Any kind of land held revenue-free either for a fixed period or in perpetuity, but the term does not ordinarily apply to jagirs.

Mung (*Phaseolus Mungo*)—Green gram.

APPENDIX C—*continued*

VERNACULAR TERMS USED IN VOLUME I OF AGRICULTURAL STATISTICS OF INDIA—*contd.*

Munsarim (Berar).—A head native revenue officer.

Narvadari, Bhagdari (Bombay).—Forms of proprietary tenure involving joint responsibility for the assessment: the revenue in the former case being fixed in the lump, and in the latter distributed by rates over fields.

Neerali (*Gynocordia odorata*).—An oilseed.

Neem or Margosa (*Melia azadirachta*).—A non-food crop.

Nela mulaka (*Solanum xanthocarpum*).—The bogoda brinjal, a drug.

Nisfkhiraj (Assam).—Land liable to pay half the revenue which is ordinarily payable for the term of settlement.

Palampat (Berar).—Land held on payment of a quit-rent, but not necessarily hereditary.

Odamula (*Ochalandra Rheedii*).—A reed.

Ol or zaminkand.—The elephant foot, a root crop.

Panchayat (Bengal).—A committee of five respectable persons nominated or appointed by local officers of Government in a village or group of villages for the settlement of petty disputes among the people and for dealing with other small local matters, such as caste, occupation, sanitation, etc.

Papay (*Carica papaya*).—A fruit.

Parpattigar (Coorg).—A revenue officer in charge of a sub-division of a taluk.

Parvar (*see* Patol).

Patel (Coorg).—Village headman appointed by Government.

Patol (*Trichosanthes dioica*).—A vegetable crop.

Peshkash (Madras).—The fixed land revenue payable to Government on all permanently-settled estates.

Pimakottai or pouna.—The mast wood.

Ponnagantikura (*Alternanthera sessilis*).—A vegetable crop.

Poramboke (Madras).—Lands reserved for public or village communal purposes.

Pót ináms (Bombay).—Lands sub-alienated in alienated villages.

Pót kharáb (Berar).—The unculturable area included in a survey number.

Puliyavara (*Oxalis corniculata*).—A vegetable crop.

Ragi (*see* Marua).

Rayatwari.—State lands leased to cultivators for a fixed term. A form of tenure in which the settlement of revenue is made by Government with each individual occupant or cultivator of the land for a given term, without the intervention of a third party.

Randhuni (*see* Ajmud).

Sabai grass (*Ischœmum Augustifolium*).—A fibre plant.

Sank-alu (*Pachyrhizus angulatus*).—A root crop.

Sapodilla (*Achras Sapota*).—A fruit.

Sebestan (*Cordia Myxa*).—A fruit.

Shanbóg (Coorg).—A village accountant appointed by Government.

Shrotriem (Madras).—Village held on grant (originally to Brahmins), wholly or partially revenue-free.

Siris tree or vagai (*Albizzia Lebbek*).—A non-food crop.

Sorrell (*Rumex vesicarius*).—A vegetable crop.

Sother.—Radish.

Swank (*Panicum frumentaceum*).—A food grain.

Talukdari (Bombay).—A form of proprietary right in force in the northern districts of Bombay.

Tejpat (*Cinnamomum Tamala* and *C. obtusifolium*).—A spice.

Thathameda (Upper Burma).—Household tax.

Thattan payara (*see* Barbati).

Thekadar (Central Provinces).—A farmer, a leaseholder, a middleman; one who receives the rents from the cultivators and pays a stipulated sum to the proprietor.

Thugyi (Burma).—A village headman.

Thetke grass (*Imperata arundinacea*).—A small perennial grass used chiefly for thatching purposes.

APPENDIX C—*concluded*

VERNACULAR TERMS USED IN VOLUME I OF AGRICULTURAL STATISTICS OF INDIA—*concld.*

Til (*Sesamum indicum*).—An oilseed.

Uchhe (*Momordica muricata*).—A vegetable crop.

Udai (*Acacsia eburnea*).—A thorny tree used as fuel or for fencing purposes.

Udhad-jamabandi (Bombay).—A proprietary tenure subject to fixed assessment.

Umbli (Coorg).—Lands granted on reduced rates to individuals on account of services rendered to the State by themselves or their ancestors.

Unda (*Pongamia glabra*).—An oil seed.

Urad (*Phaseolus radiatus*).—Black gram.

Wudalu or barti (*Panicum flavidum*).—A food grain.

Zamindar (Central Provinces).—A chief of minor importance who, while usually holding a large and compact estate on privileged tenure, has been restricted to the rank of an ordinary subject.

Zamindari.—An estate held on a fixed assessment under a deed of permanent ownership granted by Government.

APPENDIX D

ALPHABETICAL LIST OF CROPS CULTIVATED IN INDIA AND THEIR CLASSIFICATION IN TABLE III.

Name of Crop		Heads of classification in Table III
English or Vernacular	Botanical	
Agasi, agati or avati	Sesbania grandiflora	38. Fruits and Vegetables including root crops.
Agave	Agave spp.	23. Fibres—others.
Ajmud or Randhuni	Carum Roxburghianum	18. Condiments and spices.
Ajwan or Bishop's weed	Carum Copticum	18. ,, ,, ,,
Akurkura (*see* Chrysanthemum)	.....	.....
Al (*see* Morinda)	.....	.....
Aloes	Aloe vera	35. Drugs and Narcotics—others.
Alya (*see* Cress)	.....	.....
Amada or Mamidi allam	Curcuma Amada	18. Condiments and spices.
Amaranths	Amarantus	39. Misc. food crops.
Ampazham (*see* Plum)	.....	.....
Anise seed	Pimpinella Anisum	18. Condiments and spices.
Apple, wood	Feronia elephantum	38. Fruits and Vegetables including root crops.
,, Rose	Eugenia Jambos	38. ,, ,, ,,
,, Custard	Anona squamosa and A. reticulata.	38. ,, ,, ,,
Areca nut or Betel nut	Areca Catechu	35. Drugs and Narcotics—others.
Arhar or pigeon pea	Cajanus indicus	10. Other food grains, etc.
Arnatto or Arnotto	Bixa Orellana	28. Dyes—others.
Arrowroot, West Indian	Maranta arundinacea	39. Misc. food crops.
,, Wild or East Indian	Curcuma augustifolia	39. ,, ,, ,,
Artichoke	Cynara Scolymus or Centauria Cardunculus.	38. Fruits and Vegetables including root crops.
Arum (edible), Kachu or Kachalu	Colocasia Antiquorum	38. ,, ,, ,,
Arunelli (*see* Gooseberry, country star)	.....	.....
Bajra (*see* Millet)	.....	.....
Barbati, Lobia, Jumgulu, Thattan-payara or Chowli (Asparagus)	Vigna Catjang	10. Other food grains, etc
Barley	Hordeum vulgare	4. Barley.
Barti (*see* Wudalu)	.....	.....
Basil, sweet	Ocimum Basilicum	35. Drugs and Narcotics—others.
Beans	Phaseolus lunatus	38. Fruits and Vegetables including root crops.
,, Asparagus (*see* Barbati)	.....	.....
,, Sword or Makhan Sim	Canavalia ensiformis, C. gladiata.	38. Fruits and Vegetables including root crops.
,, French	Phaseolus vulgaris	38. ,, ,, ,,
,, Goa	Psophocarpus tetragonolobus	38. ,, ,, ,,
,, Indian, Chikkudikayalu, or Popat	Dolichos lablab	38. ,, ,, ,,
,, Kidney, Moth, or Kalpayaru	Phaseolus aconitifolius	38. ,, ,, ,,
,, Soy	Glycine hispida	38. ,, ,, ,,
Beetroot	Beta vulgaris	38. ,, ,, ,,
Bel	Ægle Marmelos	38. ,, ,, ,,
Betel vine	Piper Betle	35. Drugs and Narcotics—others.
,, nut (*see* Arecanut)	.....	.....
Bhindi (*see* Hibiscus, edible)	.....	.....
Bilimbi	Averrhoa Bilimbi	38. Fruits and Vegetables including root crops.
Bimb	Cephalandra indica	38. ,, ,, ,,
Bishop's weed (*see* Ajwan)	.....	.....
Borage, country	Coleus aromaticus	35. Drugs and Narcotics—others.
Brinjal	Solanum Melongena, S. longum.	38. Fruits and Vegetables including root crops.
,, bogoda or nela mulaka	Solanum xanthocarpum	35. Drugs and Narcotics—others.
Buck wheat (*see* Wheat)	.....	.....

APPENDIX D—*continued*

ALPHABETICAL LIST OF CROPS—*contd.*

Name of Crop		Heads of classification in Table III
English or Vernacular	Botanical	
Cabbage	Brassica oleracea	38. Fruits and Vegetables including root crops.
Caraway or Jira	Carum Carui	18. Condiments and spices.
„ Black or Shahjira	Carum Bulbocastanum	18. „ „ „
Cardamom Aromatic	Amomum aromaticum	18. „ „ „
„ greater	„ subulatum	18. „ „ „
„ lesser	Elettaria Cardamomum	18. „ „ „
Carob or Locust tree	Ceratonia Siliqua	37. Fodder crops.
Carrot or Gajar	Daucus Carota	38. Fruits and Vegetables including root crops.
Cashew nut	Anacardium occidentale	38. „ „ „
Cassava	Manihot utilissima and M. palmata.	38. „ „ „
Castor	Ricinus communis	16. Oilseeds—others.
Cauliflower	Brassica oleracea	38. Fruits and Vegetables including root crops.
Celery	Apium graveolens	38. „ „ „

Chayroot	Oldenlandia umbellata	28. Dyes—others.
Cheena (*see* Millet)	.....	.....
Cheik (*see* Job's Tear)	.....	.....
Chicory	Cichorium Intybus	38. Fruits and Vegetables including root crops.
Chickling Vetch (*see* Vetch)	.....	.....
Chillies	Capsicum sp.	18. Condiments and spices.
Chikkudukavalu (*see* Beans, Indian)	.....	.....
Cholum (*see* Millet)	.....	.....
Cholanathu (fodder Cholum)	Andropogon Sorghum	37. Fodder crops.
Chowli (*see* Barbati)	.....	.....
Chrysanthemum, Akurkura, or Jevandi	Chrysanthemum coronarium.	40. Miscellaneous non-food crops.
Cinchona	Cinchona sp.	33. Cinchona.
Cinnamon	Cinnamonum zeylanicum	18. Condiments and spices.
Citron or lime or lemon	Citrus medica	38. Fruits and Vegetables including root crops.
Cloves	Eugenia caryophyllata or Caryophyllus aromaticus.	18. Condiments and spices.
Coconut	Cocos nucifera	38. Fruits and Vegetables including root crops.
Coffee	Coffea arabica	30. Coffee.
Coriander	Coriandrum sativum	18. Condiments and spices.
Cotton	Gossypium sp.	21. Cotton.
Cress	Lepidium sativum	38. Fruits and Vegetables including root crops.
Cucumber	Cucumis sativus	38 „ „ „
Cumbu (*see* Millet)	.....	.....
Cumin	Cuminum Cyminum	18. Condiments and spices.
Custard Apple (*see* Apple)	.....	.....
Dani	Nipa fruticans	40. Miscellaneous non-food crops.
Date palm (*see* Palm)	.....	.....
Dhaincha	Sesbania aculeata	40. Miscellaneous non-food crops.
Dhatura	Datura alba	35. Drugs and Narcotics—others.
Dill or Sowa	Peucedanum graveolens	16. Oilseeds—others.
Dividivi	Cæsalpinia coriara	28. Dyes—others.
Drumsticks or Horse-radish	Moringa pterygosperma	38. Fruits and Vegetables including root crops.
Elephant foot, Zaminkand or Ól	Amorphophallus campanulatus.	38. „ „ „
Elephant yam	Tryphonium trilobatum	38. „ „ „
Fennel	Fœniculum vulgare	18. Condiments and spices.

APPENDIX D—*continued*

ALPHABETICAL LIST OF CROPS—*contd.*

Name of Crop		Heads of classification in Table III
English or Vernacular	Botanical	
Fenugreek	Trigonella fœnum grœcum	18. Condiments and spices.
Field Vetch (*see* Vetch)	.....	.....
Fig	Ficus Carica	38. Fruits and Vegetables including root crops.
Flea-bane, purple	Vernonia anthelmintica	35. Drugs and Narcotics—others.
Flowers	.....	40. Miscellaneous non-food crops.
Gajar (*see* Carrot)	.....	.....
Garlic	Allium sativum	18. Condiments and spices.
Garmal	Coleus barbatus	38. Fruits and Vegetables including root crops.
Gawar (*see* Vetch)	.....	.....
Ginger	Zingiber officinale	18. Condiments and spices
Goa bean (*see* Bean)	.....	.....
Gondli (*see* Millet)	.....	.....
Gooseberry, Cape—or tepari	Physalis peruviana	38. Fruits and Vegetables including root crops.
„ Country star or Arunelli	Phyllanthus distichus	38. „ „ „
Goose foot	Chenopodium album	38. Fruits and Vegetables including root crops.
Gourd, Snake	Trichosanthes anguina	38. „ „ „
„ Bottle	Lagenaria vulgaris	38. „ „ „
„ Towel	Luffa acutangula	38. „ „ „
Gourd, Red or melon pumpkin	Cucurbita maxima	38. „ „ „
Gourd Melon, white	Benincasa cerifera	38. „ „ „
Gram	Cicer arietinum	9. Gram.
„ Field	Phaseolus trilobus	10. Other food grains, etc.
„ Green or Mung	Phaseolus Mungo	10. „ „ „
„ Horse or Kulthi	Dolichos biflorus	10. „ „ „
„ Black or Urad (Mati kalai)	Phaseolus radiatus	10. „ „ „
Grape	Vitis vinifera	38. Fruits and Vegetables including root crops.
Groundnut	Arachis hypogœa	15. Groundnut.
Guava	Psidium Guajava	38. Fruits and Vegetables including root crops.
Guinea grass	Panicum maximum	37. Fodder crops.
Gumberry	Cordia Rothii	38. Fruits and Vegetables including root crops.
Hemp, Indian, or Ganja	Cannabis sativa	34. Indian Hemp.
„ Sunn	Crotalaria juncea	23. Fibres—others.
„ Deccan	Hibiscus cannabinus	23. „ „
„ Sisal	Agave sisalana	23. „ „
Henna	Lawsonia alba	28. Dyes—others.
Hibiscus, edible or bhindi	Hibiscus esculentus	38. Fruits and Vegetables including root crops.
Horse-radish (*see* Drumsticks)	.....	.....
Indian Hemp (*see* Hemp)	.....	.....
Indian worm wood (*see* Marukkolundu)	.....	.....
Indigo	Indigofera sumatrana and I. arrecta.	27. Indigo.
Isfagul	Plantago ovata	35. Drugs and Narcotics—others.
Jack fruit	Artocarpus integrifolia	38. Fruits and Vegetables including root crops.
Jambotree (*see* Plum, black)	.....	.....
Jawar (*see* Millet)	.....	.....
Jenugulu (*see* Barbati)	.....	.....
Jevandi (*see* Chrysanthemum)	.....	.....
Jinjili (*see* Sesamum)	.....	.....
Jira (*see* Caraway)	.....	.....
Job's Tear or Cheik	Coix lachryma-jobi	10. Other food grains, etc.

APPENDIX D—*continued*

ALPHABETICAL LIST OF CROPS—*contd.*

Name of Crop		Heads of classification in Table III
English or Vernacular	Botanical	
Jujube	Zizyphus Jujuba	38. Fruits and Vegetables including root crops.
Jute	Corchorus sp.	22. Jute.
Kachu or Kachalu (*see* Arum)	.....	.....
Kakri (*see* Melon)	.....	.....
Kalpayaru (*see* Beans, Kidney)	.....	.....
Kamranga	Averrhoa Carambola	38. Fruits and Vegetables including root crops.
Kanda	Dracontium	38. Ditto. ditto.
Kangni (*see* Millet)	.....	.....
Kankrol	Momordica cochinchinensis	38. Fruits and Vegetables including root crops.
Kaon (*see* Millet)	.....	.....
Kapok	Eriodendron anfractuosum	23. Fibres—others.
Karola	Momordica Charantia	38. Fruits and Vegetables including root crops.
Karuvapilai	Murraya Koenigii	18. Condiments and spices.
Kavali or Indian Katura	Sterculia urens	38. Fruits and Vegetable including root crops.
Kavathu, pannikkavathu, pallakavathu, kolkavathu	Dioscorea alata	38. Ditto. ditto.
Kharbuja (*see* Melon)	.....	.....
Khesari (*see* Vetch)	.....	.....
Khurfa (*see* Purslane)	.....	.....
Kidney bean (*see* Bean)	.....	.....
Kirni	Mimusops hexandra	39. Miscellaneous food crops.
Kodo (*see* Millet)	.....	.....
Korai (*see* Matting sedge, Indian)	.....	.....
Kokam (*see* Mangosteen)	.....	.....
Kolinji or vempali	Tephrosia purpurea	35. Drugs and Narcotics—others.
Koorka	Strobilanthes	38. Fruits and Vegetables including root crops.
Kuhudi	Panicum trypheron	10. Other food grains, etc.
Kulthi (*see* Gram)	.....	.....
Kutki (*see* Millet)	.....	.....
Lemon (*see* Citron)	.....	.....
Lentils	Lens esculenta or Ervam lens	10. Other food grains, etc.
Lettuce	Lactuca Scariola	38. Fruits and Vegetables including root crops.
Lime (*see* Citron)	.....	.....
Linseed	Linum usitatissimum	12. Linseed.
Lobia (*see* Barbati)	.....	.....
Locust tree (*see* Carob)	.....	.....
Lucerne	Medicago sativa	37. Fodder crops.
Madder	Rubia tinctorum and R. cordifolia.	28. Dyes—others.
Mahua	Bassia latifolia and B. longifolia.	39. Miscellaneous food crops.
Maize	Zea Mays	8. Maize.
Makhan Sim (*see* Beans, Sword)	.....	.....
Mango	Mangifera indica	38. Fruits and Vegetables including root crops.
Mangosteen or Kokam	Garcinia indica	38. ,, ,, ,,
Mankachu	Alocasia indica	38. ,, ,, ,,
Margosa or Neem tree	Melia azadirachta	40. Miscellaneous non-food crops.
Marians	Bouea burmanica	38. Fruits and Vegetables including root crops.
Marjoram	Origanum vulgare	18. Condiments and spices.
Marua (*see* Millet)	.....	.....
Marukkolundu or Indian wormwood	Artemisia vulgaris	40. Miscellaneous non-food crops.

APPENDIX D—*continued*

ALPHABETICAL LIST OF CROPS—*contd.*

Name of Crop		Heads of classification in Table III
English or Vernacular	Botanical	
Mast wood	Calophyllum inophyllum	16. Oilseeds—others.
Mati kalai (*see* Black gram)	.....	.....
Matting sedge, Indian or Korai	Cyperus corymbosus, C. tegetum.	23. Fibres—others.
Medlar, Indian	Vangueria edulis	38. Fruits and Vegetables including root crops.
Melon, Kharbuja	Cucumis Melo	38. „ „ „
„ Kakri	Cucumis Melo var. momordica	38. „ „ „
„ Musk	Cucurbita moschata	38. „ „ „
„ Water	Citrullus vulgaris	38. „ „ „
„ White Gourd (*see* Gourd)	.....	.....
Metha (Fenugreek)	Trigonella fœnum-græcum	18. Condiments and spices.
Millet, Common or Cheena	Panicum miliaceum	10. Other food grains, etc.
„ Great or jawar or cholum	Sorghum vulgare	5. Cholum or Jawar.
„ Italian, Kangni, or Kaon	Panicum Italicum or Setaria italica	10. Other food grains, etc.
„ Kodo or Varagu	Paspalum scrobiculatum	10. „ „
„ Little, Kutki, or Gondli	Panicum miliare	10. „ „
„ Marua or Ragi	Elusine Coracana	7. Ragi or marua.
„ Spiked, Bajra or Cumbu	Pennisetum typhoideum	6. Cumbu or Bajra.
Mint or Pudina	Mentha arvensis	18. Condiments and spices.
Morinda or Ál	Morinda tinctoria	28. Dyes—others.
Moth (*see* Bean)	.....	.....
Mulberry	Morus indica	40. Miscellaneous non-food crops.
Mung (*see* Gram)	.....	.....
Mustard	Brassica sp.	14. Rape and Mustard.
Naval (*see* Plum, black)	.....	.....
Neerali	Gynocordia odorata	16. Oilseeds—others.
Neem tree (*see* Margosa)	.....	.....
Niger Seed or Sorguja	Guizotia abyssinica	16. Oilseeds—others.
Nutmeg	Myristica fragrans	18. Condiments and spices.
Oats	Avena sativa	37. Fodder crops.
Odamula (reeds)	Ochalandra Rheedii	40. Miscellaneous non-food crops.
Ól (*see* Elephant foot)	.....	.....
Onion	Allium Cepa	18. Condiments and spices.
Opium	Papaver somniferum	29. Opium.
Orache, garden (*see* spinach)	.....	.....
Oranges	Citrus Aurantium	38. Fruits and Vegetables including root crops.
Palm, Date	Phœnix sylvestris	20. Sugar—others.
„ Palmyra	Borassus flabellifer	20. „ „
Papay	Carica papaya	38. Fruits and Vegetables including root crops.
Parvar or Patol	Trichosanthes dioica	38. „ „ „
Peach	Prunus persica	38. „ „ „
Peas	Pisum sativum or Pisum arvense.	10. Other food grains, etc.
Peanut (*see* Groundnut)	.....	.....
Pepper	Piper or Capsicum	18. Condiments and spices.
„ Black	Piper nigrum	18. „ „ „
„ Long	Piper longum	18. „ „ „
Pigeon or bottle grass	Setaria glauca	10. Other food grains, etc.
Pigeon pea (*see* Arhar)	.....	.....
Pimakottai, Pouna (*see* Mastwood)	.....	.....
Pine apple	Ananas sativa	38. Fruits and Vegetables including root crops.
Plantain	Musa sapientum	38. „ „ „
Plum, black, Jambo tree or Naval	Eugenia Jambolana	38. „ „ „
„ Hog, or Ampazham	Spondias mangifera	38. „ „ „
Poi (*see* Spinach)	.....	.....

APPENDIX D—*continued*

ALPHABETICAL LIST OF CROPS—*contd.*

Name of Crop		Heads of classification in Table III
English or Vernacular	Botanical	
Pomegranate	Punica granatum	38. Fruits and Vegetables including root crops.
Pomelo	Citrus decumana	38. „ „ „
Ponnagantikura	Alternanthera sessilis	38. „ „ „
Potato	Solanum tuberosum	38. „ „ „
„ Sweet	Ipomœa Batatas, Batatas edulis.	38. „ „ „
Pudina (*see* Mint)	.....	.....
Puliyavara	Oxalis corniculata	38. Fruits and Vegetables including root crops.
Pumpkin	Cucurbita pepo	38. „ „ „
Pumpkin Melon (*see* Gourd, red)	.....	.....
Radish or Sother	Raphanus sativus	38. Fruits and Vegetables including root crops.
Ragi (*see* Millet)	.....	.....
Randhuni (*see* Ajmud)	.....	.....
Rapeseed	Brassica sp.	14. Rape and Mustard.
Raspberry	Rubus lasiocarpus	38. Fruits and Vegetables including root crops.
Rhea	Bœhmeria nivea	23. Fibres—others.
Rice	Oryza sativa	2. Rice.
Rose apple (*see* Apple)	.....	.....
Roselle	Hibiscus subdariffa	38. Fruits and Vegetables including root crops.
Rubber (India)	Hevea brasiliensis, manihot Glaziovii.	40. Miscellaneous non-food crops.
Sabai grass	Ischœmum augustifolium	23. Fibres—others.
Safflower	Carthamus tinctorius	28. Dyes—others.
Saffron	Crocus sativus	28. „ „
Sage	Salvia officinalis	18. Condiments and spices.
Sam tree or Chaplash	Artocarpus Chaplasha	40. Miscellaneous non-food crops.
Sank-alu	Pachyrhizus angulatus	38. Fruits and Vegetables including root crops.
Sapodilla	Achras Sapota	38. „ „ „
Sawan (*see* Swank)	.....	.....
Sebestan	Cordia myxa	38. Fruits and Vegetables including root crops.
Senna	Cassia angustifolia and C. ovata.	35. Drugs and Narcotics—others.
Sesamum, til or jinjili	Sesamum indicum	13. Sesamum.
Shahjira (*see* Caraway, black)	.....	.....
Shama (*see* Swank)	.....	.....
Singhara or water caltrop	Trapa bispinosa	38. Fruits and Vegetables including root crops.
Siris tree or vagai	Albizzia Lebbek	40. Miscellaneous non-food crops.
Sisal hemp (*see* Hemp)	.....	.....
Soapnut or Kumkudu-Kaya	Sapindus trifoliatus	35. Drugs and Narcotics—others.
Sorguja (*see* Niger seed)	.....	.....
Sorrell	Rumex vesicarius	38. Fruits and Vegetables including root crops.
Sowa (*see* Dill)	.....	.....
Sother (*see* Radish)	.....	.....
Soy bean (*see* Bean)	.....	.....
Spelt wheat (*see* Wheat)	.....	.....
Spinach	Spinacea oleracea	38. Fruits and Vegetables including root crops.
„ Indian or poi	Basella alba	38. „ „ „
„ Mountain, or Garden Orache	Atriplex hortensis	38. „ „ „
Strawberry	Fragaria vesca	38. „ „ „
Sugarcane	Saccharum officinarum	29. Sugarcane.

APPENDIX D—*concluded*

ALPHABETICAL LIST OF CROPS—*concld.*

Name of Crop		Heads of classification in Table III
English or Vernacular	Botanical	
Sunflower	Helianthus Annuus	16. Oilseeds—others.
Swallow-wort	Calotropis sp.	23. Fibres—others.
Swank, Sawan, or Shama	Panicum frumentaceum	10. Other food grains, etc.
Sweet flag	Acorus Calamus	35. Drugs and Narcotics—others.
Sweet potato (*see* Potato)	.....	.....
Tamarind	Tamarindus indica	18. Condiments and spices.
„ Manila	Pithecolobium dulce	38. Fruits and Vegetables including root crops.
Taramira	Eruca sativa	14. Rape and Mustard.
Tea	Camellia Thea	31. Tea.
Tejpat	Cinnamonum Tamala and C. obtusifolium.	18. Condiments and spices.
Tepari (*see* Gooseberry)	.....	.....
Thattan-payara (*see* Barbati)	.....	.....
Thetkè (grass)	Imperata arundinacea	40. Miscellaneous non-food crops.
Til (*see* Sesamum)	.....	.....
Tobacco	Nicotiana Tabacum and N. Rustica.	32. Tobacco.
Tomato	Lycopersicum esculentum	38. Fruits and Vegetables including root crops.
Tori, Toria	Brassica Napus	14. Rape and Mustard.
Turmeric	Curcuma longa	18. Condiments and spices.
Turnip	Brassica Rapa	38. Fruits and Vegetables including root crops.
Uchhe	Momordica muricata	38. „ „ „
Udai	Acacsia eburnea	40. Miscellaneous non-food crops.
Unda	Pongamia glabra	16. Oilseeds—others.
Urad (*see* Gram)	.....	.....
Varagu (*see* Millet)	.....	.....
Vagai (*see* Siris tree)	.....	.....
Vempali (*see* Kolinji)	.....	.....
Vetch, Field or gawar	Cyamopsis psoralioides	37. Fodder crops.
„ Chickling or khesári	Lathyrus sativus	10. Other food grains, etc.
Water caltrop (*see* Singhara)	.....	.....
„ melon (*see* Melon)	.....	.....
Wheat	Triticum sativum	3. Wheat.
„ Buck	Fagopyrum esculentum	10. Other food grains, etc.
„ Spelt	Triticum sativum var Spelta.	3. Wheat.
Wood apple (*see* Apple)	.....	.....
Wudalu or barti	Panicum flavidum	10. Other food grains, etc.
Yams	Dioscorea sp.	38. Fruits and Vegetables including root crops.
Zaminkand (*see* Elephant foot)	.....	.....

Agricultural Statistics of India

1915-16

VOLUME II—NATIVE STATES

Report

To

THE SECRETARY TO THE GOVERNMENT OF INDIA,
DEPARTMENT OF REVENUE AND AGRICULTURE.

SIR,

I have the honour to submit the second volume of agricultural statistics for 1915-16. It deals with the Agricultural Statistics of Native States. As in the three previous issues, summary tables have been inserted to show the total figures relating to area, the classification of area, and the area under crops for each State or group of States, and the totals for all the reporting States. The total number of cattle as far as reported in each of the years 1905-06 to 1915-16 has also been included in the general summary table (No. 1). These statistics are defective for comparative purposes as additions have been made in the number of reporting States from time to time. Explanatory notes have been inserted at the foot of the tables. Two charts and an index for easy reference have been added to the volume. It should be noted that, for reasons explained below, the agricultural statistics of Native States are incomplete and are of far less accuracy than are those of British Provinces published in Volume I. The question of improvement of the statistics for Native States was discussed at the last conference of ruling Princes and Chiefs held at Delhi in November 1917, and steps are being taken in order to carry out the recommendations of the conference. Two local conferences have also since been held—one at Gwalior and the other at Trivandrum (Travancore) on the same question; and it is expected that more complete and accurate statistics for Native States will be available in the near future. As one-third of the area of India is under Native States the importance of these statistics in the all-India returns can scarcely be over estimated.

The total area of Native States in India is approximately 497,000,000 acres (777,000 square miles), with a population of 72 millions according to the census of 1911. These are divided for the purposes of agricultural statistics into two main classes, namely, (1) States under the control of Local Governments and Administrations, and (2) States having direct political relations with the Government of India.

(*1*) *States under the control of Local Governments and Administrations.*—The total area of these States is 181,022,000 acres, with a population of some 27 millions. They are divided into the following main groups:—

	Area Thousand acres	Population Thousands
Bombay and Sind States	40,877	7,412
Madras States	6,790	4,812
Punjab States	24,511	4,213
Bihar and Orissa States	18,335	3,945
Central Provinces States	19,960	2,117
Burma States (including Shan States)	38,402	1,540

	Area Thousand acres	Population Thousands
North-West Frontier Province States (including tribal areas)	16,380	1,379
United Provinces States	4,345	832
Bengal States	3,452	823
Assam States	7,970	346
Total	181,022	27,419

The total areas of all these States (with the exception of the Shan States in Burma and the tribal areas in the North-West Frontier Province) are included in the areas of the several British Provinces stated in column 2 of table I of Volume I (British India), but are shown separately in column 3 of that table in order to arrive at the net area of British territory (in column 5) dealt with in that volume. Of these States, agricultural statistics are at present available only for the following twenty-eight States in the Madras Presidency and the Punjab and are dealt with in this volume :—

	Area Thousand acres	Population Thousands
Madras States—		
Travancore	4,868	3,429
Cochin	903	918
Pudukkottai	754	412
Banganapalle	163	39
Sandur	102	14
Punjab States—		
Patiala	3,795	1,408
Jind	853	272
Nabha	620	249
Bahawalpur	12,700	781
Sirmur (Nahan)	631	139
Kalsia	122	56
Pataudi	34	20
Loharu	143	19
Dujana	57	25
Kapurthala	417	268
Malerkotla	107	71
Faridkot	412	130
Simla Hill States (comprising Bashahr, Jubbal, Theog, Kumharsain, Khaneti, Bilaspur, Baghal, Ghund, Mehlog, Baghat, and Madhan)	3,231	276
Total	29,912	8,526

(2) *States having direct political relations with the Government of India.*— These are divided into the following main groups :—

	Area Thousand acres	Population Thousands
Hyderabad	52,927	13,375
Baroda	5,236	2,033
Mysore	18,868	5,806
Kashmir	54,036	3,158
Rajputana States	82,552	10,530
Central India States	49,515	9,357
Baluchistan (Native)	51,462	420
Sikkim	1,804	88
Total	316,400	44,767

No agricultural statistics are available for Hyderabad,* Baroda, Baluchistan (Native), or Sikkim. Of the remainder, returns are received only from the following eighteen States :—

	Area Thousand acres	Population Thousands
Mysore	18,868	5,806
Kashmir	54,036	3,158
Rajputana States—		
Jaipur	9,971	2,637
Bikaner	14,922	701
Marwar	22,410	2,058
Tonk	1,634	303
Alwar	2,037	792
Kishangarh	549	87
Bharatpur	1,263	559
Jhalawar	527	96
Kotah	3,638	639
Central India States—		
Gwalior	16,511	3,102
Indore	6,080	1,008
Bhopal	4,657	730
Rajgarh	613	127
Narsingarh	469	110
Barwani	754	109
Nagod	324	75
Total	159,263	22,097

The total area of all the forty-six reporting States thus amounts to 189,175,000 acres, with a population of nearly 31 millions. These States, therefore, represent 38 per cent of the total area, and 43 per cent of the total population, of all the Native States in India.

The dates from which the returns of agricultural statistics have been prepared in these forty-six reporting States are as follows :—

Mysore	1886-87
Jaipur	1892-93
Gwalior	1896-97
Bikaner, Marwar, Tonk	1898-99
Alwar, Bharatpur, Kishangarh, Jhalawar, Kotah	1900-01
Indore, Rajgarh, Narsingarh, Nagod, Patiala, Jind, Nabha, Bahawalpur	1907-08
Pudukkottai, Banganapalle, Sandur, Cochin, Travancore, Bhopal, Barwani, Sirmur, Kalsia, Pataudi, Loharu, Dujana, Kapurthala, Malerkotla, Faridkot, Simla Hill States (11 in number)	1908-09
Kashmir	1910-11

The returns for the different States relate to the years ending the date, stated below, so far as information is now available :—

Bikaner, Sandur, Banganapalle	year ended	31st March
Indore	„	in June
Mysore, Gwalior, Nagod, Pudukkottai, Rajgarh, Barwani.	„	30th June
Travancore, Cochin	„	in August
Jaipur	„	31st August
Kishangarh	„	15th September
Marwar, Kotah, Jhalawar, Bhopal	„	30th September
Tonk, Narsingarh, Bharatpur, Alwar	„	31st October

* Arrangements are being made by His Exalted Highness the Nizam's Government to prepare agricultural statistics for the Hyderabad State. The statistics for this State, when prepared, will fill the biggest gap in the Agricultural Statistics of Native States in India.

Table I, Total area.

From the total area of all the forty-six reporting States (189,175,000 acres), deduction must be made for 108,211,000 acres for which statistics are not available. These comprise chiefly unsurveyed areas and lands held on jagir, muafi, and other privileged tenures. The net area actually covered by these statistics is, therefore, only 80,964,000 acres by professional survey,* or 80,881,000 acres according to village papers.*

Table II, Classification of area.

This area is classified, for the purposes of agricultural statistics, as shown in the margin. About 9,413,000 acres, or 11·6 per cent of the total, are occupied by forests; and the area not available for cultivation, that is, land absolutely barren, or unculturable, or covered by buildings, water, and roads, or otherwise appropriated to uses other than agriculture, amounts to 19,138,000 acres or 23·7 per cent. The balance, 52,330,000 acres or 65 per cent, represents the area available for cultivation. Of this, 14,700,000 acres, or 18·2 per cent of the total area, represent culturable waste, *i.e.*, land available for cultivation but not taken up, and 8,124,000 acres, or 10 per cent, were kept fallow in the year under report. The net area actually cropped in the year was thus 29,506,000 acres (or 36·5 per cent of the total area), which shows a decrease of 2,429,000 acres as compared with the previous year. This net cropped area, however, excludes areas cropped more than once in the year. If areas cropped more than once are taken as separate areas for each crop, the gross area cropped in the year of report amounts to 31,570,000 acres, as against 34,676,000 acres in the preceding year, or a decrease of 3,106,000 acres or 9 per cent.

	Thousand acres	Per cent
Forests	9,413	11·6
Not available for cultivation	19,138	23·7
Culturable waste other than fallow	14,700	18·2
Current fallows	8,124	10·0
Net area cropped	29,506	36·5
Total	80,881	100

Irrigation.

The total area irrigated in the reporting States in 1915-16 was 6,218,000 acres as against 6,049,000 acres in the preceding year. Of this, 2,277,000 acres were irrigated from Government canals, 704,000 acres from private canals, 809,000 acres from tanks, 1,273,000 acres from wells, and the remaining 1,151,000 acres from other sources of irrigation. These figures, however, do not take into account areas cropped more than once during the year with the help of irrigation, but indicate the extent of land actually irrigated. If areas cropped more than once are counted as separate areas for each crop, the gross area of irrigated crops amounts to 6,586,000 acres, against 6,522,000 acres in the preceding year. Of this area, 5,840,000 acres, or 89 per cent, were under food crops.

Table III, Area under crops.

The gross area cultivated with crops in the reporting States was, as stated above, 31 million acres in 1915-16 as against 34 million acres in the preceding year, or a decrease of 9 per cent. The different classes of crops and the area occupied by each, so far as details are available, are stated in the margin. Of the total cropped area, food crops occupied about 26,207,000 acres or 84 per cent and non-food crops about 4,879,000 acres or 16 per cent. Of the food-crops, food grains (cereals and pulses) occupied as much as 23,904,000 acres, or 77 per cent of the total cropped area, and other food crops (condiments and spices, sugar, fruits and vegetables, and miscellaneous food crops) together occupied some 2,303,000 acres, or only 7 per cent of the total. Of the non-food crops, oilseeds occupied 1,769,000 acres or 6 per cent of the total cropped area, fibres such as cotton, hemp, etc., 1,127,000 acres or nearly 4 per cent of the total, and fodder crops 1,213,000 acres or 4 per cent. The other non-food crops—dyes, drugs and narcotics (tobacco, tea, coffee, opium, etc.), and miscellaneous non-food crops—together covered some 770,000 acres or 2 per cent of the total.

	Thousand acres	Per cent of total
Food-grains	23,904	76·9
Condiments and spices	264	·8
Sugar	119	·4
Fruits and vegetables	558	1·8
Miscellaneous food-crops	1,362	4·4

Total non-food crops.	4,879	15·7

* For explanation of the terms "professional survey" and "village papers," see footnotes to Table I (page 6) of this Volume and the Report prefixed to Volume I.

The area under food-grains (23,904,000 acres) showed a net decrease of 1,865,000 acres or 7 per cent as compared with the preceding year. The actual increase or decrease under each kind of grain is stated in the marginal table.

	Thousand acres		
	1915-16	1914-15	Increase(+) Decrease(−)
Rice	2,540	2,384	+156
Wheat	3,682	4,176	−494
Barley	873	938	−65
Jawar	4,746	4,088	+658
Bajra	2,548	2,991	−443
Ragi	2,252	2,302	−50
Maize	1,120	1,065	+55
Gram	2,980	3,928	−948
Other grains and pulses	3,163	3,897	−734

The area under oilseeds (linseed, sesamum, rapeseed, mustard, etc.) decreased by 288,000 acres or 14 per cent, that under fibres (cotton, hemp, etc.), by 680,000 acres or 37 per cent and that under drugs and narcotics by 20,000 acres or 7 per cent. On the other hand, the area under condiments and spices increased by 33,000 acres or 14 per cent, that under sugar by 10,000 acres or 9 per cent, and that under fruits and vegetables by 23,000 acres or 4 per cent.

The total extent of land on which more than one crop was raised during the year was 2,064,000 acres as against 2,741,000 acres in the preceding year.

Live stock.

Tables IV, V, and VI are very incomplete, as figures for these tables are not furnished by many of the reporting States. Table IV is prepared by only nineteen States, namely, Mysore, Banganapalle, Cochin, Gwalior, Indore, Bhopal, Rajgarh, Narsingarh, Barwani, Nagod, Bikaner, Marwar, Jaipur, Kishangarh, Alwar, Bharatpur, Jhalawar, Tonk, and Kotah. According to the latest statistics, the total number of live-stock of the bovine class (bulls and bullocks, cows, buffaloes, and calves) in these nineteen States is 14,704,000, that of the ovine class (sheep and goats) 8,960,000, and that of horses and ponies, mules and donkeys, and camels 425,000. The numbers of ploughs and carts are 1,946,000 and 567,000, respectively.

Table V (Land revenue) is prepared by eighteen States, namely, Mysore, Pudukkottai, Banganapalle, Cochin, Gwalior, Indore, Bhopal, Rajgarh, Narsingarh, Barwani, Bikaner, Marwar, Jaipur, Alwar, Bharatpur, Jhalawar, Tonk, and Kotah; and Table VI (Transfers of land) is prepared by only five States, namely, Mysore, Banganapalle, Cochin, Barwani, and Alwar.

The Appendix explains vernacular terms used in this volume, and the charts illustrate (1) the classification of the total area showing the proportion of cultivated and uncultivated lands, and (2) the total area cropped in 1915-16 with shares of food and non-food crops.

I have the honour to be,

SIR,

Your most obedient Servant,

G. FINDLAY SHIRRAS,

Director of Statistics.

DEPARTMENT OF STATISTICS,
Calcutta, August 10, 1918.

TABLES

Summary Tables

No. 1.—GENERAL SUMMARY, 1905-06 TO 1915-16

Classification of area [*Thousand acres*

Note—The entries in this table regarding classification of area and areas under food and non-food crops comprise figures for Mysore, Jaipur, Gwalior, Bikaner, Marwar, Tonk, Alwar, Kishangarh, Bharatpur, Jhalawar, and Kotah from 1905-06; to which were added those for Indore, Rajgarh, Narsingarh, Nagod, Patiala, Jind, Nabha, and Bahawalpur from 1907-08; for Pudukkottai, Banganapalle, Sandur, Cochin, Travancore, Bhopal, Barwani, Sirmur, Kalsia, Pataudi, Loharu, Dujana, Kapurthala, Malerkotla, Faridkot, and the Simla Hill States from 1908-09, and for Kashmir from 1910-11.

*The entries regarding cattle comprise Mysore, Jaipur, Gwalior, Bikaner, Marwar, Tonk, Alwar, Kishangarh, Bharatpur, Jhalawar, and Kotah from 1905-06; to which were added those for Indore, Rajgarh, and Narsingarh from 1907-08; for Bhopal, Barwani, and Nagod from 1908-09; and for Banganapalle and Cochin from 1910-11. Detailed figures for the States for five years are given in Table IV (pages 78-79).

(*a*) Excluding areas for which no returns are available

(*b*) Condiments and spices, fruits and vegetables, and miscellaneous food crops

(*c*) Cinchona, Indian hemp, other dyes, other drugs and narcotics, and miscellaneous non-food crops

(*d*) The total of food crops and non-food crops shown here does not agree with the total area cropped shown in Summary Table No. 4 for the reason stated in the footnote to that table (page 5.)

Column 2.—The professional survey is that carried out by the Survey of India in Northern India, and by the corresponding departments in Southern India. In States where there has been no professional survey, the figures are based on the best information available.

Column 3.—In this column is deducted the entire area for which the statistics required for Tables II and III are not forthcoming in whole or in part. This area comprises chiefly estates held on privileged tenures, which have not yet been surveyed and which possess at present no agency for the annual collection of agricultural statistics. As surveys extend and the organisation of village statistical establishments develops, the area in this column is reduced, and that entered in the next columns (4 and 5) and dealt with in Tables II and III is correspondingly increased.

Columns 4 and 5.— Column 4 is a check on the accuracy of column 5. In the latter, "village papers" means "the papers prepared by the village accountants." In States where no village papers exist, or where the source of information is the same for both the survey and the village papers, the figures in column 4 are necessarily repeated in column 5. The area in village papers may differ somewhat from that given by the Survey Department, (*a*) because, while the survey area is calculated in block, the area by village papers represents the added total of field and village areas, and (*b*) because the system followed as regards the inclusion or exclusion of areas covered by water, buildings, roads, and railroads is not always uniform in the two sets of returns.

(*a*) Previous year's figure repeated [*vide* footnote (*a*) on page 12]

(*b*) *Column 3* states the area of unsurveyed forests.

See explanations given in the footnotes (page 6)

(*a*) *Column 2* states the area of the State as ascertained by revenue survey. *Column 3* states the entire area of jagir villages.

(*b*) *Column 2* excludes forest areas, the area of forest villages managed by the Forest Department, and about 6,980 acres of 6 unsettled jagir villages

(*c*) *Column 3* states the areas of jagir and other alienated lands

(*d*) *Column 2.*—As there has been no revenue survey so far, this column states the area of the State according to the best information available. *Column 3* states the areas of jagir and muafi villages, the boundaries of which have been demarcated, but for which the statistics required for other tables are not available. *Columns 4 and 5.*—In the absence of any revenue survey data, the figures in column 5 are repeated in column 4

(*e*) Returns for 1910-11 not having been received, the figures for 1909-10 have been repeated

See explanations given in the footnotes (page 6)

(*a*) *Column 2* states the area of the State according to Settlement records

(*b*) Statistics are furnished by eleven States of this group, namely, Bashahr, Jubbal, Theog, Kumbarsain, Khaneti, Bilaspur, Baghal, Ghund, Mehlog, Baghat, and Madhan, the last two but one from 1910-11 and the last one from 1911-12. They represent about 86 per cent of the aggregate area of all the States comprised in the group. The returns, however, relate only to the settled portions of the reporting States, except Bilaspur, Baghal, and Mehlog for which complete returns have been received. *Column 2* states the area of the settled portions of the States named above, except Bilaspur, Baghal, and Mehlog for which the whole area is included

(*c*) See foot note (*c*) on page 11

(*a*) *Column 2* states the area of the State as ascertained by revenue survey. *Column 3* exhibits the area of jodi, kayamgutta, and sarvamanayam villages, and jagirs for which the statistics required for the other tables are not available at present. *Column 5.*—The figures in column 4 are repeated

(*b*) *Column 3* states the estimated areas of jagir, muafi, ubari, tanka, istamrar and such other villages as are still unsurveyed

(*c*) *Column 2* states the whole area of the State excluding the areas covered by the Indore Residency, the Mhow Cantonment and the Hirapur Thakurate. *Column 3* states the areas of jagir, istamrar, and forest villages, and also of some of the outbandi villages

(*d*) *Column 3* states the areas of jagir and such other villages as are still unsurveyed; it also includes the areas which formerly were parts of jagir villages, but which, after the completion of the settlement operations, either lapsed to or were resumed by the State

(*e*) *Column 3* states the areas of jagir and such other villages as are still unsurveyed. It also includes the area of those khalsa villages which have not yet been regularly assessed; these are chiefly the latest acquisition to khalsa under the law of escheat. *Columns 4 and 5.*—The area by village papers does not differ from the area by survey, for, although differences occur under the different classes of soil, the total area of each village is the same in both cases

Column 2.—The definition of the term "forests" is as follows:—"Any land classed or administered as forest under any legal enactment dealing with forests." Any cultivated areas existing within such forests may be excluded and entered in column 6 (net area cropped), an explanation being given in a note

Column 3 includes all land absolutely barren, and also all land covered by buildings, water, roads, or otherwise appropriated to uses other than agriculture

Column 4 includes groves not classed in the cropped area. Areas under bamboos and thatching grass, when not forming parts of forest areas, are included in this column

Columns 8 to 13 state the area actually irrigated during the year, areas cropped more than once being counted once only

(a) The statistics collected in 1908-09 have been repeated up to 1912-13, as fresh information could not be collected owing to pressure of work connected with the revenue settlement of the State

(b) *Column 2* states the area of reserved forests within surveyed villages

(c) Includes 8,215 acres in coffee estates

See explanations given in the footnotes (page 12)

(*a*) *Column 2* states the areas of forests left unassessed. Forests in this State not having been demarcated, figures in columns 3 and 4 also include same forest areas. *Column 4* states areas of land left uncultivated for over three years, of *bir* (grass lands) and of pasture lands. *Column 5*.—The maximum period for which land thrown out of cultivation is reckoned as fallow is three years

(*b*) *Column 2* states the preserved forests in the khalsa areas exclusive of the jagir and other alienated lands

(*c*) See note on page 7

Column 2 states the areas of state and district forests and of plantations.

Column 3 includes not only lands absolutely unfit for cultivation, but also lands reserved for pasture, and plantations intended for public use and therefore left unassessed. A large portion of the pasture lands is fit for cultivation, and is given out for cultivation from time to time under special orders, such lands when given out for cultivation being transferred from column 3 to 5 or 6 as the case may be.

Column 4 states unoccupied assessed waste.

Column 5.—There is no system of fallows, that is, lands are not systematically left uncultivated for the purpose of giving them rest. Individuals occupy large areas and pay full assessment thereon, leaving portions uncultivated, generally for the use of their cattle. For purposes of account the difference between the areas of the lands occupied by individuals and of those actually cultivated by them is taken as fallow. The lands occupied and assessed are sometimes unfit for cultivation, having been taken up on full assessment merely for use as pasture but the exact area of all such lands cannot be ascertained, though it cannot be large.

(a) Included in column 3

Bharatpur—Column 2 includes grass preserves (locally called the State *Rundhs*) and hills. Column 4 includes areas out of cultivation or which have not been cultivated for the last four years or upwards, but excludes State grass preserves (*Rundhs*). Column 5—the maximum period for which land thrown out of cultivation is reckoned as fallow is three years. Column 8 includes area irrigated from the Bareta Bund, constructed by the State Public Works Department

Note—In this table are entered the areas actually sown, whether the crop comes to maturity or not, except in cases when fields, owing to the failure of the first sowings, have been devoted to other crops: in such cases the area first sown is omitted. In cases where two or more crops are grown together, an estimate is made of the area covered by each, and the areas so estimated are separately returned. The estimate is made by the village accountant, or is subsequently determined on formulæ prescribed by higher authorities

(*a*) See footnote (*a*) on page 43

(*b*) In Travancore no accounts are kept regarding the area under each crop, and the figures shown in this table are based on very rough estimates In Steps are being taken by the Darbar to introduce an improved system according to which accurate figures will be available in some cases.

Note.—Animals in towns, cities, and cantonments are included where it is possible to secure their enumeration. Oxen and buffaloes no old enough for work or to produce young are classed as "young stock"

(*a*) A cattle census is taken by the patwaris every year after the kharif crop inspection in November. Animals in tow ns are included

(*b*) Enumeration of live-stock is taken by the patwari every year

Table IV—*continued*

No. 29.—LIVE-STOCK, PLOUGHS, AND CARTS IN EACH STATE—*continued*

State	Bulls and bullocks	Cows	Buffaloes		Young stock (calves and buffalo calves)	Sheep	Goats	Horses and ponies	Mules and donkeys		Camels	Ploughs	Carts
			Bull	Cow					Mules	Donkeys

*No information

Entry 2 (*a*).—Areas held revenue-free or at privileged rates should be deducted, but the deduction need not be made where such areas are in any case less than an entire village, and where there is any difficulty in estimating the corresponding deduction to be made in the population (head 10). Areas should not be entered in this column merely because the assessment due from them has been suspended or remitted on account of short crops, or for other special reasons

Entry 3.—This column should be sub-divided into (*a*) total fully assessed area for which returns are available, and (*b*) area cultivated out of the area given in head (*a*). The latter head should be equal to the former after deducting current fallows and fully assessed waste

Entry 4.—Where land revenue includes the zamindar's share, the net demand should be entered, and the table should state the payments due by the zamindars to Government, not those by the raiyats to the zamindars. The actual realisable demand on account of the year should be entered, after excluding arrears for past years. This column should include all the heads classed as "Land Revenue" in the Civil Accounts

Entry 5.—The population in entry 5 is that of the last general census

†*Narsingarh.—Item 1* states the net area by revenue survey as shown in column 4 of Table I. *Item 2* (*a*) includes forest areas (column 2 of Table II) and unculturable (column 3 of Table II) and culturable land not possessed by any cultivator. *Item 2* (*b*) states the area of minor muafis. *Item 3* (*b*) includes fallow lands left uncultivated for three years or less as full cultivation rate is assessed on them

See explanations given in the footnotes (page 90)

* These are *khalsa* or state lands only. The whole area of the State according to the census of 1901 is stated in Table I—No. 5

† Not reported

** *Alwar.*—The classes of tenure are zamindari and village communities, the former comprising *zamindari-bil-ijmal* and the latter *pattidari* and *bhaiyachara*. *Item 1* states the area by village papers (column 5 of Table I). *Item 2* (*a*) shows areas covered with forests (column 2 of Table II) which are wholly revenue-free.

†† *Jhalawar.*—The whole area stated in this table is classed as "Khatedari" and "Watendari" equivalent to "raiyatwari" and "zamindari" respectively. Item 1 excludes entire villages held by jagirdars and udakdars

§ See explanation given in footnote (page 97)

* No information

Column 2 states the net area by survey (column 4 of Table I)
Column 4 (*a*) includes area not fully assessed which cannot be separated from area fully assessed
Column 5 states "Land Revenue" as defined in the Civil Accounts, and includes cesses which cannot be separated from the land revenue
Column 8 states only ordinary land revenue with cesses
Columns 9 and 10.—The figures in these columns represent the incidence of land revenue on areas both fully and partially assessed
Column 11 includes population of area not fully assessed which cannot be separated from that of fully assessed area

Column 4 (b) states not only the area actually under crops, but also fallow lands as revenue rates are assessed on the total cultivated area, including fallows. Hence the area stated in this column exceeds the total area in Table III

Columns 5 and 6 relate only to Khalsa area, as statistics for these columns are not available for the whole area of the State

Column 1.—The State area leased to cultivators for a fixed term is returned as *raiyatwari*. The area leased out on condition of proprietary rights being given to lessees if they reclaimed land within a fixed term is returned as *zamindari—temporarily settled;* and the rest of the area (*i.e.*, the area remaining after deduction of the raiyatwari and the temporarily-settled zamindari areas from the total area), is entered as *zamindari—permanently settled*

Column 3 includes muafi, chauth, and istimrar areas

Column 6.—The population stated is that of the last census

Column 11 shows the total population in cases where separate figures for areas fully and not fully assessed are not available

Table V—*concluded*

Note.—It is optional with the local authorities to enter or omit transfers of lands held by tenants. The following rules have been prescribed for the preparation of this return:—(1) Changes of entry due to succession, partitions, or simple mortgages are not really transfers and should be excluded from the table, as also should redemptions of mortgage. (2) All temporary transfers, such as leases, should also be excluded, but mortgage with possession should be treated as a transfer and entered in the table. (3) All transfers made by order of a court should also be included in the table. (4) The word "court" in the entry "by order of court" should be held to include a revenue court.

(*a*) *Mysore.*—Only permanent transfers are included as by sale or gift, in which the parties concerned apply for and obtain transfers of revenue registry in the village accounts from which the table is compiled. Thus, changes of registry under orders of civil and revenue courts as well as those effected in consequence of the sale of land for arrears of Government revenue are included.

(*b*) *Alwar.*—Transfers by mortgage with possession, sale, and gift, both of proprietary and of occupancy rights, whether by order of court or by private contract, are shown in this table. Property confiscated by order of a criminal court, and holdings transferred by order of a civil or revenue court in satisfaction of money decrees or arrears of land revenue respectively are thus included.

APPENDIX

Vernacular terms used in the Explanatory Notes.

Bhaiyachara (Alwar).—Villages held by a number of families, by possession without reference to shares.

Bir (Narsingarh).—Grass lands.

Bunds (Alwar).—Embankments.

Chauth (Bharatpur).—Land paying one-fourth of the rental.

Inám (Mysore).—Wholly or partially revenue-free tenure ; *minor ináms* are plots of inám lands situated in a village, whether Government or inám.

Istamrár (Gwalior, Indore, Bharatpur).—A tenure which, though the revenue is assigned, is charged with a permanently fixed quit-rent.

——— (Alwar).—A tenure which, though favourably assessed, is charged with a permanently fixed quit-rent.

——— (Bharatpur).—Land paying a reduced permanently fixed *jama* (assessment).

Jagir (Mysore, Gwalior, Kishangarh, Kotah, Narsingarh).—Land granted revenue-free on condition of military service or as a charitable endowment.

——— (Indore, Barwani).—Land granted revenue-free on condition of military service or as a charitable endowment or in recognition of good services rendered to the State.

———(Bikaner).—Land granted revenue-free on condition of military service or as a charitable endowment.

——— (Alwar).—Assignment of land revenue, with or without condition of military service and payment of commutation dues, granted in recognition of meritorious services to relations of the ruling chief or other high officials of the State.

——— (Kishangarh).—Land granted revenue-free on condition of military service either actually rendered or fulfilled by a rateable money contribution.

Jagirdar (Jhalawar).—Holder of jagir land.

Jodi (Mysore).—A whole inám village paying quite-rent to Government.

Kayamgutta (Mysore).—A whole village granted by the State on fixed money-rent.

Khalsa (Gwalior, Jaipur, Bikaner, Marwar, Bharatpur).—Land paying full revenue to the State.

Khatedari (Jhalawar).—Same as *raiyatwari.*

Muafi (Gwalior, Alwar, Kotah, Bharatpur, Kishangarh).—Land granted free of revenue.

Out-bandi (Indore).—Assessment of revenue calculated at a fixed rate per plough.

Patel (Mysore).—Village headman appointed by Government.

Pattidari (Alwar).—Villages held by a number of families, by shares, ancestral or customary.

Patwari (Nirsingarh).—Village revenue officer or accountant.

Raiyatwari (Bharatpur).—State area leased to cultivators for a fixed term.

Rundhs (Bharatpur).—State grass preserves.

Sarvamanayam (Mysore).—An inám village, wholly revenue-free.

Shanbóg (Mysore).—A village accountant appointed by Government.

Tanka (Gwalior).—Estate held by certain families who were in power when the country was annexed and who were left in possession of their estates on payment of a fixed annual tribute, or *tanka,* bearing but a small proportion to the annual assets.

Ubari (Gwalior).—Land held at an abatement of the full land revenue.

Watendari (Jhalawar).—Same as *Zamindari.*

Zamindari (Bharatpur).—Estate on a fixed assessment under a deed of permanent ownership granted by the State.

Zamindari-bil-ijmal (Alwar).—Villages held jointly by a body of owners.
